JOHN H ORVIS!

Truth from a Strange Source!

DON PIATT, a radical writer in the the Cincinnati Commercial, who seems to have more honesty than generally

"We have developed more rascality than any organization ever called into existence. We have filled the offices with thieves and their pockets with steelings. We have or ganized rings that in turn create office-holders and control the government. Men go in poor and come out millionaires. For one dollar paid to the government from hard earned taxes, bundreds stick to the dry fingers of official scoundred."

From the days of the Patriarchs down to the times of plundering mongrel. 18m, history furnishes no parallel to faced robberies, and outrageous official thievings, that have marked evin power. And yet, with their purses coverflowing with the peoples money bought with greenbacks filched from the public treasury, and their families clothed in silks and satins that toroon ticket-seven parts black and belong to the tax payers of the country-they have the effrontery to ask

. Tariff.

Tariff means nothing but simply protec-tion to American, or home industry.—Gen tral Press.

It means nothing but legalized robbery-the robbery of the masses for the benefit of a few individuals. It means nothing but taking money out of the pockets of the less wealthy classes to put in the coffers of manufacturing monopolists. Every cent of tariff imposed upon any kind of material, is but a tax upon it, that the purchasers have to pay. If for instance, iron can be shipped from Europe for forty dollars per ton, and we impose a duty on it of twenty dollars per ton, which will make it worth, when ready for the American market sixty dollars, who pays that extra twenty, but the firmer who uses it to shoe his horses, iron his wagons, and in his farm implements, the miner who buys it for picks, drills, shovels, &c., -the mechanic who has his tools manufactured from it, and the whole laboring classes of our population who use it in any way, shape or form? Tariff is only a cowardly way of preventing competition. It is making one nortion of our citizens pay an indirect tax, to enrich another portion and when it comes to be properly looked upon by the masses of our people, it will prove a very heavy load for the party favoring it, to bear up.

Not Easily Frightened I

If policy men, within the ranks of can see through spectacles that contheir howl for house buring SHERMAN, Batrap MEADE, or even ANDA CHASE, they might have coaxed a few of the honest portion of our party into the compromise they desire to offer -a bondholders platform, and no matwho upon it-but as it is, they have shown their hands too plainly, and the masses see that they hold neither a "straight," a "flush," a "full," not even a "pajr," and consequently will not be "bluffed."

No sirs, gentlemen! You can neither frighten, nor sell us out! It is a poor dodge to try to get the real democracy of the country to allow you to dictate a platform or a candidate for them, by attempting to have them believe, that if they do not submit to your dictation, you will compet change, and we ask you honestly, them to accept as a candidate a life long opponent of the principles they would sacrifice even life to support. This is what your Chase movement means, nothing more, nothing less, -simply to frighten or force the great masses of our party who are demanding equal taxation, or the incorporation of the "greenback doctrine," as it is now commonly called, into our platform, as well as the nomination of your platform in the interest of bondholders, with a so called "conservative"upon it, or refuse and fare worse. You think by going to the extreme, to get those who do not believe in your cowardly policy, to offer as a compromiseato meet you half way and say nothing about taxing your bonds, and to prevent the nomination of a straight out abolitionist like CHASE, to unite falls to the lot of mongrel politicians. kind—a political what is it +as nomiwith you and choose some one of your nee of our party.

Is not this your aim? Most assuredly it is, and just as sure as it is, just so sure will your efforts fail. We are not to be sold out! With those who will not assist us in the fight for equal states and equal taxation we have no compromise to If this is not the truth, we are at a make! We compromised with you in oss to know where to look for it. 1864, and your candidate tore up our platform and flung it in our faces, and yet we submitted to the insult, and supported him because we agreed to the unmitigated swindles, the bare do so You can't foist such men upon us again If you do, -if bribery, deception, trickery and treachery ery moment of the reign of the party should characterize the proceedings of those we have chosen as delegates to the Fourth of July convention, it with their long fingers clasped full of will be for you and your delegates to the taxes wrung from the toil and elect your nominee, for we who are sweat of the laborer with their fighting for the Union of our fathers, houses furnished with fine goods, for a return of the times of our fath ers, for the Democracy of our fathers, will have nothing to do with your oc-

Do you HEED!

What it Means.

The supporters of GRANT and Col-FAX, wherever it is necessary, deny that they are in favor of negro suffrage, notwithstanding the fact that their resolutions declare openly for it, throughout the entire South-the only section of the country they have the power to enforce the obnoxious doctrine. The avowal that negroes should vote in the South is simply an avowal that one of these thick-lipped. long-heeled, wooly-pated, congo's if he should happen to reside South of the Potomac, shall have the same voice in the election of a President that a white man here shall. It means simply, that a Southern negro is as good as a Norhern white manthat the toiling, taxed masses of the North who do not believe in Freedman's Bureaus, shall be out voted by Southern negroes who do, because by them-it means that the Southern darkey shall vote into office men who will tax the laboring white men of one section to keep the lazy black men of the other -- it means that the mongrel party is the party of negro suffrage, and is too cowarly to say so at home.

Where your tax was one dollar in 1860, it is ; ten now.
