

The Democratic Watchman.

TERMS.—\$3 per year when paid in advance, \$2.50 when not paid in advance and \$3.00 when not paid before the expiration of the ar.

OUR AGENTS.—We have authorized the following gentlemen, to receive and receipt for subscription to the Democratic Watchman:

ISAAC J. GRONOWSKY, Gregg twp.
JOHN H. REIFENBERG, Penn twp.
WALTER DIEFFENBACH, Sugar Valley, Clinton Co., Pa.

THINGS ABOUT TOWN & COUNTY.

A man, by the name of Mooney was thrown from a load of hay, and had his arm broken last week.

A man was accidentally shot while passing along the street in Osceola one-day lately. We were unable to learn the particulars.

It is said that the Rail Road between Philipsburg and Clearfield will be in running order by Christmas. This will bring Bellefonte and Clearfield into direct rail road communication.

Two or three cases of sun stroke are reported in town during the past week; none of them resulted seriously, and we believe they were mostly occasioned by over drinking.

On Wednesday, the 15th inst., the thermometer stood at one hundred and six degrees in the shade, at about two o'clock P. M. This is the most intense heat we have ever known in this country.

Potatoes and corn in this vicinity have been seriously injured by the drought. While rains could be seen passing us on all sides, we had not sufficient to "lay the dust" here for nearly five weeks.

During a heavy storm in Half Moon valley on Sunday last, we are informed that a dwelling house occupied by a family was struck by lightning and considerably damaged. None of the family were hurt.

Our kind friend J. G. Larimer, Esq. has our sincere thanks for a half-bushel of splendid, early potatoes presented us lately. They are the finest we ever saw at this season, which were raised in this climate.

One of the large steam saw-mills in Snow Shoe township was burned on Saturday night last. We have not been able to learn whose mill it was. The fire is supposed to have been the work of an incendiary.

The building of Mr Livingston on High street will be a great improvement when it is finished. We understand that Messrs Furst and Vocum intend putting up a brick building adjoining it on the North-east. There is no place in town where good buildings would pay better. It is the very location for law-offices, and these, as every lawyer knows, are badly needed in Bellefonte. We hope to see that part of High street built up in a solid brick row.

We were shown the other day, by our friend Kinloch, what is said to be a very fine portrait of Schuyler Colfax. We were struck with the expression of the countenance. One would think that a Statesman in these troublesome times might wear an expression of care, and be excusable for it. But, these things are too small to ruffle the Indian patriot. His face is not only calm, but wreathed in smiles. In fact, he has a grin like a hyena. We thought, when we saw the picture, "you may grin now, Schuyler, but you won't after the election."

On Tuesday morning Mr. H. A. Larimer, of Potter twp., left home expecting to return in a short time, but while he was gone his son, who is eight years old, went to the field, without orders, intending to bring in the horses. He mounted one, having nothing with which to control him but a common halter, and, the horse being troublesome the horse began to run, threw the boy beneath him and tramped upon his leg, breaking it midway between the ankle and knee, and inflicting other flesh wounds of a serious nature. This is a warning to parents and boys that may teach many a good lesson.

THE COUNTY CONVENTION.—We publish this week a call for the Democratic county convention to meet in this place on the 11th of August next. The call is issued by the chairman thus far in advance, in order that every one may have an opportunity of knowing the precise time when delegates are to be chosen, and that all may be prepared to do their duty on the occasion.

It is an important matter that our people should turn out well to the delegate election, and elect good men to represent them in the convention, and it is also important that Democrats should come together in their respective election districts, and talk over among themselves the work to be done in the campaign, and the best way of doing it.

Let there be a full turn out at the delegate elections, a full expression given to the wishes of the people in regard to the selection of candidates, and any other matters likely to come before the convention, and we will open the campaign in Centre county in a way to make complete success certain.

—We are extremely sorry to record the death of Dr. Kelly, of Look Haven. The *Clinton Democrat* of last week, brought us the sad intelligence of his sudden death, while bathing in the river near his home. It is not known whether he was seized with sudden cramp, or an attack of heart disease, to which he was subject; nor is it known whether his death resulted from drowning, or from the attack of disease. He suddenly disappeared beneath the water, while in the midst of companions, and was not seen afterwards for more than twenty-four hours, when his dead body was recovered. Our acquaintance with Dr. Kelly was slight, but it was of such a character as to prepossess us greatly in his favor. He was a young man of more than ordinary genius, was beloved by all who knew him, and his loss will long be felt and mourned by those who knew him well.

—On Wednesday morning last, the sky was overcast with clouds, the sun rose like a great ball of lurid flame, heavy fogs hung upon the crests of the mountains, and every body was delighted with a prospect of rain. The rain came in a drizzle which did not wet the ground to the depth of an inch, and by noon the whole thing was over. There seems to be a belt right across this county from east to west, of which Bellefonte is in the centre, in which the crops are doomed to destruction for the want of rain.

—As will be seen by a reference to our business cards, Samuel Linn and A. O. Furst Esqs. have entered into partnership in the practice of the law in this place. Judge Linn's well known legal ability and power as an advocate, and the reputation of Mr. Furst throughout this county and Clinton, will doubtless secure them a fine practice. The practice of Mr. Furst is already quite heavy, and there is little doubt that the partnership will more than double it.

—The brick building of Mr. Brokerhoff, at the corner of Bishop street and Perry alley, approaches completion. It will be a great improvement to that part of town.

—There is little grain left standing in this country, and much of the crop is already safely housed.

—We clip the following from the *Harrisburg Telegraph*. We have no comments to make on the subject, but simply desire that our readers may know what outsiders think of the great Centre county institution.

AGRICULTURAL COLLEGE.—The Agricultural College in Centre county, Pa., meets with small encouragement, there having been for the past year but thirteen students in the collegiate and fourteen in the preparatory departments. The State is taking steps to convert the institution into an insane asylum. That is a good joke. The truth is, that when agricultural colleges shall be genuine industrial universities, nearly self sustaining by the labor of professors and students, thus showing how the world should be, and how all life should be devoted both to study and to work—and not just then, will they fill the demands of the age and be successful. We were in hopes that the present agricultural college movements were in that direction.—*Cincinnati Daily Times*.

Our cotemporary is in great error. Whilst it is true that the Agricultural College is a great failure, it is not true, however, that it is to be turned into an insane asylum. The building itself would be unfit for such an institution, it being only six stories high, with scarcely any windows to light the immense halls, and much less to give ventilation. When the Legislative committee on characters visited the institution, a few weeks since, the janitor was requested to get a lantern to show the gentlemen up the six stories. What would an intelligent farmer say if he were asked to run his dwelling up in the air to save a few feet of ground? Such things are done in cities where ground costs five hundred dollars a foot but at places where it can be bought for from ten dollars an acre, the erection of a building six stories high would be considered ridiculous. Another great objection would be the want of water—this important article is supplied from immense cisterns built especially for rain water that may be gathered from the roofs of buildings on the premises. The State spent several hundred thousand dollars for this institution without deriving the least benefit from the same, it is to-day enjoying the interest of the Agricultural Scrip Fund. And we venture to assert that out of the thirteen students educated at the college last year, not one of them is the son of a poor man. We hope the Legislature, at its next session, will take proper notice of this waste and extravagance of the public money. The people of Centre county do not derive the least benefit from the same, but the money goes into the pockets of a few brokers and bankers residing at Bellefonte.

Business Notices.
—It should not be forgotten that A. Baum, has again removed his extensive Wholesale Liquor Store, to Reynolds' new Marble Front on Bishop street. He keeps more than the best of liquors, he has the largest stock of any establishment outside of Philadelphia.

—The ancients proclaimed that Mermaids, Nymphs, Naiads, and the Graces, had long flowing tresses which made them grieved by their sisters of earth. But they arose out of the sea foam or bathed in fountains reached by no mortal hands and kept their locks of dew softness, dark and lustrous, and thus had no need of Ring's Vegetable Anabrosia which is doing the same thing for thousands of people in our day. 281

Her Von Gabligg's.—Our eloquent daily visitor and confidential adviser, has lately taken to "Killickinok," and he persists in inveigling us into—not a smoke, but the smoke, until we become so ill, that we are compelled to rise from our chair, and actually throw up—the window! The Herr still sticks to his belief that "too much whiskey is too much, but too much lager beer is shunt right." Our Teutonic friend is welcome to his opinion and his smoke too, while we hasten to inform our readers that we welcome the introduction of the great "Barley Sheaf"—the only thoroughly reliable stores ever invented! This wonderful store is adapted to both coal and wood, and is, in all respects, a model of completeness. Messrs. Stuart, Peterson & Co., Philadelphia are the manufacturers, a firm whose wares have obtained a world wide celebrity. Send for a circular and avoid imitations. For sale by W. W. Wetler, Milesburg.

—This is the season of all others in which this Bitters, now so renowned, is found so beneficial. Added to the ingredients which make this Bitters both dietetic and tonic, are qualities which invigorate the debilitated system, removing languor and depression, restore the appetite, and impart a healthy action to all the functions of the body. The mother and housekeeper should never be without it, and the traveler who packs his trunk or portmanteau for the Springs class among the necessary articles a few bottles of Hoodfarn's German Bitters—He will find it an invaluable medicine in the hour of transient derangement of the system which is likely to befall any one in this climate, and especially during the Summer season. It is pure, free from all intoxicating liquors, and for that reason the most strictly temperate need not hesitate to use it, personally, or in their families.

MAGNOLIA WATER.—A delightful toilet article—superior to Cologne and at half the price.

"Poor Tom's" cold.
How warm so'er the genial sun
May look in kindness on the earth,
In Tom Jones' veins no cheering warmth
Dispels the gloomy sorrow of his soul.
Ay, grim chamberlain, lights him down,
White Pullens, Verigo, and Headache dire
With fierce sobes combine to make him groan.

Harken, Thomas, to instruction,
For all thy ills a remedy is found,
A Panacea, certain, pleasant, sure,
Placeation Bitters—S. T.—1860—X.
A wonderous Tonic, made by Dr. Drake.

We presume "poor Tom's" case is not worse than hundreds who are cured daily by this wonderful medicine. 28 2t

What a wonder
That the doors
Are open wide:
Ever since the
First of August
Thousands have
Pain Paint applied.
Those who lie,
Or call it humbug,
Are the doctors,
Not they always
Have been tedious
When their patients
Use Pain Paint.
Pile up facts
As high as mountains
Flash the truth
Before your eyes.
But the cry
Is always humbug
Men of science
Full of lies.

People know that liniments composed of Cayenne pepper, turpentine, hartshorn, ether, &c., will produce inflammation and pain. To purchase such trash to stop Pain and Inflammation is ridiculous. Fire will not stop heat; a scalding brand will not scald enough to make it a pond of water. When wounded, to reduce, cool, and cure Inflammation and Fever.
Pimples and gamblers try to look honest, but folks can read the face too plainly—Some try to persuade the ignorant that pills purge, &c., cleanse the blood, purge the system, and do a hundred other things equally absurd. Every body knows that it is false, and that no medicine can purify or increase a drop of blood. Food makes blood, bone and muscle, and is the Staff of Life. Every dose of medicine swallowed is rejected, and hurried out of the system as such as possible. It is an enemy; yes, a deadly foe. Constipation, ill health, and weakness, are the result of doing, dosing, dosing the stomach. The living system has enough to do without working itself to death in expelling and kicking out the pernicious noxious humors poured down the throat. Food she welcomes when she needs it; yes, asks for it. Let pill makers and phlegm vendors stop eating food, and see how long they can subsist on their blood purifying, invigorating, health-giving medicines—and cordials—What humbug is more transparent? A dog would curl his tail downward in scorn, and run away in utter disgust. All physical pain arises from inflammation. Put out the fire and you stop pain absolutely. You can stop pain as easy as you can quench fire with water. WOLOCOIT'S PAIN PAINT reduces inflammation, heat, and fever one hundred times faster than ice. Thousands have had practical test of its merits at the very moment of most extreme pain, and they can testify that it has not failed in doing its work. It is simple; it is harmless; it is safe no strain; it gives no smart; it is fared by Druggists everywhere; and it is tested free of cost at 170 CHATHAM SQUARE N. Y., and 622 Arch Street Philadelphia.

My wife had an ulcer on her leg for thirteen years, caused by varicose veins, absorption extending from her ankle to her knee. Some pieces eaten away to the bone. I have employed over twenty physicians at vast expense during this period. But all attempts to cure proved utterly abortive until I tried Dr. Wolcott's Pain Paint, which the doctor told me was a humbug. But humbug or not, it has done the work, completely in less than one month, removing the pain at the first application. I kept her leg wet with Pain Paint constantly until healed—I wish we had more humbugs as useful as Dr. Wolcott's Pain Paint. I am well known in this city, any person who wants to make further inquiry will call at 101 West Street, New York, at the Hanover House, of which I am the proprietor, and I think I can satisfy them as to the benefit derived by the use of Pain Paint. May 12, '68 P. MINCK.

I am selling Wolcott's Pain Paint and Sanibulator, and it certainly gives satisfaction to my customers. D. F. COGER, Druggist, Rahway, N. J.
I am selling more of Wolcott's Pain Paint than all the other patent medicines combined, and I keep a full supply of all that have any demand. VALENTINE HAMMANN, Druggist, No. 11 7th Ave. New York, till Aug. 1
