While the producing industries of the country are unjustly taxed, and the almost intolarable burdens of the war rest upon those who fought the battles \$6,000 annual gold interest, or fifteen and made the sacrifices, those who tilled land to produce supplies, and those who labored in the workshops, the organs of the Radioals are asserting that the bondholders are the men who pay all revenue The organ of the Radicals in Lorsin county, replying to an article which recently appeared in the Cleveland Flaindealer, sneeringly says that "not one la boring man in every bundred pays a penny of taxes to the government directly." True, the laboring man, does not pay his taxes directly to the government, but every man of sense knows that the con sumer pays the tax upon every article manufactured by capital. A practical working man, a few days ago, being in in gold from the Government in addition our office, handed us the following, which in itself is a volume of argument to show that the poor man does pay taxes : Radical legislation requires the con-

somer to pay all taxes. It taxes The hat on your head.

The boots on your feet. The clothes on your person The food you sat

The tea and coffee you drink. The not it is cooked in. The cup you drink it out of,

The implemente on your farm The tools you work with. The paper you write on. The pen and ink you use

The paper and books you read. The furniture in your bouse The gas or oil you burn. The coal you consume.

The stove you burn it in. The match you light it with The medicine you take The tobacco you smoke.

The pipe you amoke it in. The dishes on your table All you eat off them.

The laboring man of the courtry wh owne a little house and lot, which he has earned by toiling from early morning to night, pays State tax, county tax. school tax, and road tax upon it; while his next door neighbor, who is a bond holder, owning fifty thousand dollars in bonds, pays ,no taxes whatever, draws interest in gold, and laughs at his unfertunate neignbor, who has his money in a little boma! If the masses of laboring men'desire equal taxation of ev ery species of property according to its real value-government bonds and other securities included of they want one currency for the people, the laborer and the office holder, the pensioner and the soldier, the producer and the bondholder day as ever? they will not vote the Radical ticket, but will for that of the Bemecracy .- Kz

How it would Work.

Mr. A. B. lent the Government in 1868-64, \$100,000 in greenbacks. At the time gold was 250 per cent premium so that the Covernment received, in fact, but \$40,000 in gold, for \$100,000 in bonds. Upon this \$40,000 in gold it pays per cent. 'In addition, it exempted the bonds from State and local taxation, amounting to two or three per cent. more each year. Thus in four years, the bondholder who lent \$40,000 in gold, bas received back 24,000 dollars in in terest, and has had his taxes exempted for 5,000 dollars or 6,000 dollars more. making 80,000 dollars in all. The principle of his debt was payable in legal tender currency. To so pay it now in greenbacks would give him seventy five or eighty cents on the dollar, whereas he only lent forty cents in gold. But this does not satisfy him. In despite of the agreement, he demands 100,000 dollars to the 30,000 dollars in gold which he has received in interest and taxes, to pay the 40,000 dollars which he originally lent in gold. Did anybody ever hear of such an extortionate demand? Was there ever such an unexampled ed usury? Was there ever such an-unprecedented robbery contemplated upon the treasury!
