Not on the Defence!

⁴ The Democratic party, be it under stood, is not on the defence in this campaign. We are the attacking party - We mean to drive the enemy from pillar to post, from post por the last ditch, and above all mean to drive them from the Treatury which they are plundering. In such a campaign we have no time to stop and bandy words, or to apply epithets. Concession is everything, and lat the start let us concede that Demograts

if radicalism succeeds again, than does every other laboring man in the country. If others can stand a longer rule of negroe's and thieves' we can, but for the life of us we cannot see why it should be so. On next Tuesday, fellow citizens you are called upon to perform one of the most important duties which can fall to the lot of American citizens This duty acquires a peculiar sig. nificance just now from the fact that our country is tottering upon the verge of bankruptey.

The resources of the country lie al. most dormant, owing to the 'strin. gercy of the money narket and the almost worthless condition of our currency.

Our labor is ground down under a blighting burden of taxes, the equal of which is not to he found in the civilized world

We are the most completely TAX. RIDDEN people on the face of the globe ; and Freedmen's Bureaus, extra sessions of Congress and unneces. sary legislation is CONSTANTLY EN-LARGING OUR DEBT and INCREASING THESE TAXES

There is not an article of food or clothing but costs the consumer more than double its real value, and the labor of the country alone is compelled to pay these exorbitant prices

Radical legislation unjustly compels the poor to pay the taxes of the wealthy, and the interest on the unthe low pittance which is given to the mechanic and day laborer.

The Radical party stands (ledged to continue this state of affairs, while the Democratic party demands that the laboring classes alone.
