No special examination, for the students will be held at the close of the Normal Institute. Applicants should, as far as practicable, attend the examination in the district where they expect to teach.

It is desirable that there be a full meeting of the Board of Directors on the day of examination The important duty of selecting teachers should be attended to at this time

Directors should make an effort to have a full class of applicants. The secretary should be present at the hour of opening (9 a m) to give all needful information, and see that all applicants are present.

All Professional Certificates except those issued or renewed since the first Monday of June, 1866, ceased to be valid after the first Monday of June, 1868.

Special Examinations will be held at

Rebersburg, on Saturday, October 24th.

Millheim, on Saturday, October 31st.

for the accommodation of such as were prevented by sickness or other unavoidable circumstances from attending at the proper time, but all such applicants must come fully prepared, according to the requirement of the law, as found on page 139

Sewing Machines.

THE SINGER SEWING MACHINE.

Among Sewing Machines, those made by the Singer Manufacturing Company, rank with the highest Their manufacturing machines have long been known as the best for manufacturing purposes But within the past few years, they have given special attention to the production of a

FAMILY MACHINE,

that is the most favorable known in the

HOUSEHOLD

The machine which they now offer, is quiet, light running simple fast machine, is not liable to get out of order, and is capable of a greater variety of work than any other machine in the market. It will

HEMMING, BRAIDING, BINDING

QUILTING, TUCKING, CORDING,

FELLING, BRAIDING, GATHERING,

and executes every species of sewing, from the finest muslin to the coarsest cloth, with ease, using the same needle, thread and tension. The lightest running, most durable and rapid sewing machine in use. It is simple, easily understood, not liable to get out of order, though it contains and performs more kinds of work than any other machine. It will sew from the finest cambric to leather, using the same needle, thread and tension. It will do every variety of work that can be done by any machine, and will do it better, faster and with less trouble. It will do a wider range of work, and do it in a more perfect manner, than any machine known. It is the only machine that will not mash the work. It is the only machine that will not run backward. It is the only machine that will not break the needle. It is the only machine that will not break the thread. It is the only machine that will not break the bobbin. It is the only machine that will not break the shuttle. It is the only machine that will not break the feed. It is the only machine that will not break the tension. It is the only machine that will not break the stitch. It is the only machine that will not break the seam. It is the only machine that will not break the hem. It is the only machine that will not break the fell. It is the only machine that will not break the gather. It is the only machine that will not break the braid. It is the only machine that will not break the cord. It is the only machine that will not break the quilt. It is the only machine that will not break the tuck. It is the only machine that will not break the binding. It is the only machine that will not break the edging. It is the only machine that will not break the lace. It is the only machine that will not break the ribbon. It is the only machine that will not break the trimming. It is the only machine that will not break the embroidery. It is the only machine that will not break the darning. It is the only machine that will not break the mending. It is the only machine that will not break the patching. It is the only machine that will not break the repairing. It is the only machine that will not break the altering. It is the only machine that will not break the ripping. It is the only machine that will not break the basting. It is the only machine that will not break the gathering. It is the only machine that will not break the felling. It is the only machine that will not break the braiding. It is the only machine that will not break the cording. It is the only machine that will not break the tucking. It is the only machine that will not break the quilting. It is the only machine that will not break the binding. It is the only machine that will not break the edging. It is the only machine that will not break the lace. It is the only machine that will not break the ribbon. It is the only machine that will not break the trimming. It is the only machine that will not break the embroidery. It is the only machine that will not break the darning. It is the only machine that will not break the mending. It is the only machine that will not break the patching. It is the only machine that will not break the repairing. It is the only machine that will not break the altering. It is the only machine that will not break the ripping. It is the only machine that will not break the basting.

EASIER THAN CAN BE DONE

Here are those wishing to purchase a machine, to examine all the other manufactured before buying, as it will be found over one and all the objections to the other machines that can be brought against it Machines on rent, Needles and Oil on hand, together with a full and complete assortment of

SILK, TWIST, LINEN OR COTTON

Thread, and all the accessories for the machines, by
