Treetings, and a very large case are wanted by hossekengters and at precess to the nation, self feeding stove, but the power of the troy of because to adequate means was in vented to prevent the mica windows from being smoked while the fire was being kindled. We are happy to state to our customers that we have overcome this reat deflicency in self feeding stoves, by placing the microway can thus be closed while the fire is being kindled, and after the coal is lighted the cylinder can be removed, throwing the windows open, entirely free from an ke and presenting a perfect and clear light, which cannot be produced in any other stove. By this improvement we have entirely overcome the great objection the found in all other Illuminating Stoves. And in addition to this the Revolving Light is supplied with Spear's celebrated patent poker, by which the fire can be poked without dust or dirt escaping into the room, it is therefore entirely free from dust, so common to all other stoves.
