A YER'S SARSAPARILLA, FOR PURIFYING THE BOOD.—The representation this excellent medicine enjoys, is derived from its cares, many of which are truly marvellous. Ineversate cases of Seprellious disease, where the system swemed saturated with corruption, have been purified and cured by it. Serotidious affections and disorders, which were aggravated by the scrotilious contamination until they were painfully afficing, have been radically gurdi in such great rumbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Serofulous poison is one of the most destructive enemies of our race. Often, this mesen and unfeit tenant of the organism under unines the constitution, and invites the attack of embedding or fast diseases without exciting a suspleton of its presence. Again, it seems to breed infection throughous the body, and them, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the inter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the inter, or it shows its presence by supptions on the skin, or foul ulcerations, en some part of the body. Hence the occasional use of a bottle of this Barsangrilla is advisable, even spen no acting symioms of disease appears. Persons
