HOOFLAND'S GERMAN TONIC.

The great remedice for all diseases of THE LIVER, SIGMACH, OR DIGESTIVE ORGANS.

"HOOFLAND'S GERMAN BITTERS

Is composed of the pure juices (or, as they are medicinally termed, extracts) of Roots, Harbs, and Barks, making a preparation highly concentrated, and entirely free from also-holic admixture of any kind.

HOOFLAND'S GERMAN TONIC,

is a combination of all the ingredients of the Hitters, with the purest quality of Santa Croix Ruim, orange, etc., making one of the mose pleasant and agroeable remedies ever offered to the public.

Those preferring a medicine free frem also-holic admixture, will use

Those who have no objection to the combi-nation of the Bitters, as stated, will use

HOOFLAND'S GERMAN TÓNIC.

They are both equally good, and contain the same medicinal virtues, the choice between the two being a mere matter of taste, the Tonte being the most palatable.

The atomach, from a variety of causes, as Indigestion, Dyspeby, Nervous Debility, etc., is very apt to have its functions deranged. The Liver, sympathizing as closely as it does with the atomach, then becomes affected, the result of which is that the patient suffers from several or more of the following diseases:

Constipation, Flatulence, Inward Piles, Fulness of Blood to the Head, Acidity of the Stomach, Nausea, Heart-burn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructasions, Sinking, or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering of the Heat, Choktag or Buffecating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webe before the Sight, Duil Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., etc., Sudden Flushes of Heart, Surning in the Flesh, Constant Imaginings of Evil, and Great Depression of Spirits.

The sufferer from those diseases should ex-cretise the greatest caution in the selection of a remedy for his case, purchasing only that which he is assured from his investigations and inquiries possess true merit, is skilfally compounded, is free from injurious ingredients and has established for itself a reputation for the cure of those diseases. In this connection we would submit those well-known remedies—
