BELLEFONTE, PA: Friday Morning, April 2, 1869.

THINGS ABOUT TOWN & COUNTY

Jerry Tolan is in the fish husi nees on the Diamond. Go and see him.

Quite a number of strangers have been in town during the present

Frank Green's drug store and Hammen Sechler's grocery mry here after be found across the creek in the Bush House.

-Inbscribers changing their places of residence should not neglect to notify us of the fact. Otherwise their papers may be missent.

-Some of the side-walks in town at present are in a miserable condition. Why are they not repaired? Let the ewners of property or the council take this matter in hand.

CORE FOR NEURALGIA .- Half a dram of sal-ammonia in one ounce of calls phor water, to be taken a teaspoonful at a dose, and the dose to be repeated several times, at intervals of five minates if the pain be not relieved at once conumirums, and give the answers:

-The celebrated magician and delphia, will give two entertainments and Vhy is our school like a menagin this place to-night and to-morrow erie? Because it has Lyons in it. night, with matinoes for ladies and children in the afternoons. Go and see the Signor by all means.

-The Bush House will be opened for the reception of guests on or about the 10th of April. This is earlier than was expected, and the public will be the "opening" will also be somewhat agreeable. May we be there to see.

-A grand ball was given at Bush's Hall on Monday night, by Prof. Eckert, which was well attended. Excellent music was in attendance. and all went "merry as a marriage bell." The professor, we believe, gave an entertainment of the same kind in Lock Haven on Tuesday evening.

PERSONAL .- We received a visit ,on Tuesday from the venerable J. T. Mc Cracken, Esq., formerly editor of the Bellefonte Patriot. Mr. McCracken to almost blind, and having met with great reverses of fortune, is now in quite dest'tute oircumstances. He is now on his way to Phi a lelphia to have an operation performed on his eyes. We commend him to the good offices and usristance of the fraternity

-We notice by the Western Star that our old editorial friend J. S. Barnhart, has been publishing an article in that paper on the subject of "How to encourage Western Emigration." If the people for whose benefit the article was written, would act upon the policy which he indicates, by judiciously advertising local advantages, we have no doubt of the good results. As an editor Mr. Barnhart wields a graceful pen, and is a facile and graphic writer.

-In a general puff of everybody, and everything connected with the late excursion of the "Grand Army of the McElhattan" to Clearfield, which appears in the last Clinton Democrat, we find the following allusion to one of the Brockerho House :

The party were marched to the Mansion House, kept by a Prince of a knodlerd, got up on the Falstaff style, in imitation of "Lew House u."

"Lew" says the lean skunk who wrote that is jealous of his corporosity. but be can afford to laugh at the fellow's envious spite. Just so.

In another place, Conductor Steven catches it as follows:

After partialing of the good things prepared by the gastlemanly landford, the incursion ists eff for Lock Haven, under the pecial charge of smeastlersus, Eq., who without fastery, is one of the mestafalla, careful first accommending conductors in this pertion of the

We endorse the above, and take pleasure in adding our testimony to the, faithful ability of Mr. Stevens. Bully for James.

-On Tuesday, an interesting young mother of the canine species, which had recently given birth to a family of infant caninon, departed this life very suddenly and unexpectedly, The way of it was this: During the removal of Frank Green's drug establishment a portion of the shelving was placed temporarily on the sidewalk where it stood for some time. At an unfortunate proment, and, the supplese, just when some angry deity had swort vengeance against all degu, this doom ed and unsuspicions canine happened to be passing slong, sragging her happay tail, looking kindly at everybody, and no doubt thinking of the sleeping broad of innecest supe she had left behind in their warm and comfortable Stemmstown 86; other schools not reported. Halfmoonset. Just when judging from her ported. Harris-Shingletown 83; Boals-countenance the half artists of this broad 92; Rock Hill 76; Ris. Hollow. nest. Just when judging from her countenance, she had arrived at this point of her redéctions, a gust of wind divined the thesellerous shelving, wing down outhe poor cres-

tors were spared the misery that an agonizing "ki vi," might have inflicted upon their hearts. We saw her a few moments after her death, and, with a feeling of commisseration for her sad fate, we gently murmured to ourself, "sich, is life!"

Alas, poor doggy ! No more will thy infant progeny feel the kindly greeting of the affectionate nose-no more will thou suckle the durlings of thy doggish bosom! Sadly we ask, why are things thus?

-Roy James Orbison, with his wife-formerly Miss Nannic Harris, of this place-arrived home on Saturday night last, from India, after an absence of eight or nine years, to the great joy of their auxious relatives, who were long engeriy expecting them. They left India about the latter part of Noveinber, and had been traveling ever since. The numerous friends, of Mrs. Orbison will rejoice to learn that she has returned eafely to her old home, and will joyfully welcome her reap pearance among them.

-Some of the Academy boy have propounded to us the following

1, Why is our school like a cup ventriloquint, Signor Blitz, from Phila board? Because it has a Boat in it.

> 3. Why is our school like a duck pond? Because it has a Danke in it. 4. Why is our school like a rain bow? Because it has Hugnes in it.

Below we publish a cure for small pox that may be worth a trial. It seems to us that this discense, like agreeably disappointed. We presume all others, should have a remedy, and if the recipe given here should be instrumental in doing good, it will have more than paid for its publication:

A correspondent of the Stockton, California, Herald, speaks as follows concerning the small-pox and its rem herewith append a recipe which has been used to my knowledge in hundreds of cases. It will prevent or cure the small-pox though the pit-tings are filling. When Jenner dis-covered cow por in England, the world of science hurled an avalanche of fame upon his head; but when the most scientific school of medicine in the world-that of Paris-published this recipe as a panacea for small pox, it passed unheeded. It is us unfailing as tate, and conquers in every instance. It is harmless when taken by a well person. It will also cure scarlet fever Here is the recipe as I have used it and cured my children of scarlet fever here it is as I have used at to cure the small pox; when learned physicians said the patient must die, it cured Sulphate of zine, one grain; fox-glove, (digitalia,) one grain; half a teaspoon-(digitaha) one grain; min a tempoonful of sugar; mix with two tablespoonful of water. When thoroughly mixed add four ounces of water. Take a add four ounces of water. Take a spoonful every hour. Either disease will disappear in twelve hours. For a child, smaller doses, according to age. It counties would compel physicians to use this, there would be no need of pest houses. If you value advice and experience, use this for that terrible

NEW RESTAURANT. - The house of Mrs. P. B. Kepheart, was converted into a magnificent restaurant, for one night only, on Friday evening last; at which oysters, ice cream, cakes, fruits, jellies, &c., were served in the most palatable style. The sauces served at this Institution gave no ccasion for rejort, black eyes, broken noses, com-mittals to jail and so forth, but made the good things still gooder. Then the watters, "God bless the dear creatures!" and many of them single, too! Was nt it cestatic to have such angels dispense those good things to us unworthy creatures? Well, well, those who were so unfortunate as to mis this, will have yet opportunities to be present at a reception; as this was one of a series of entertainments, given ander the auspices of the I. O. of G. T. May the next not be too far off either in time or distance.
