Our patrons put our Fluid to various uses, and they give us marvelous accounts of its effects in cleaning tin, floors, clothes, removing grease or mildew, in relieving rheumatism and curing burns, etc.

The small Patent Brass Lamp, packed with cotton, is popular "run about light," and is a neat and convenient thing for a traveler to take in the pocket

This Fluid requires no more caution in its nauthan kerosone. We advise no one to fill almmy-while burning; if any of it spilled, a fame should not be brought near it, for though it well not explode, we do recomment it as good to burn. If in case of carelesment or accident it should be set on fire, smother it with a cloth or hat. If a lamp does not work well, having on it our Burners, there must be adelect in the burner, and it should be sold-
