Some dispute arose and the Prince alleges that Nornsian ped him in the tace, having first used very insulting language towards form. In the heat of his anger, the Prince, without consideration drew a piscol and shot North, from the effects of which he died. The consequence is that Rocherour has taken advicting of this to influme the public mod against Naponeon and all his household, and with such effect, to, that one husdied thousand emzens after ded the funeral of the dead editor. For this acthe Emperor has seized Recurroni's paper, as a matter of produce and to to say stilly , Well, here I am and prevent bloodshed in the streets of Paris. So great is the excitoment that one hundred thousand Coverament troops are under arms to preserve the beace and assert the man sty of the law PHIRE BUNAPORTE has surrendered himself to be tried by the laws of the land-

The Umjeror Naportos has madema ny concessions to the French people, and throughout his whole regard has maintfested the highest wisdom in mana-ing the French Government. The rushness of his cousin Prince has placed hour in an awkard position, but or has act ed with his usual firmness and we beheve done what the best interests of his people required. That ROCHFIORIS paper was seized is Rocuttore sown fault. He abused the magnanimity and torbearance of Napoleon and we think he is justly deintved of the means. of stirring up further discord and perhaps revolution. The same liberty of and action allowed by our laws would never do in France. It would be instantaneous and bloody from to that untimiking and impulsive people ROCHEFORT is not a fit man to odit a paper among such a people - per, indeed. among any people. On the contrary. he seems to be nothing more nor less than an avowed revolutionist and stirrer up of civil strite. At bos , he is a dangerous man.

"The Philadelphia Post, a piece that advocated the election of Jon's W GEARY with great vim, seems to have become diggusted with him and "does" him up in the following style, in a late 168U8 t

The devernor, we are told, wants every man punt-hed, no matter what his position, who sampers with the purity of elections. This waster he is elected for three years. Bushow about Geary himself? Did he not tamper with the purity of elections last fail when he made his secret bargain with receive points have of these rety, and anamelessly broke his word to his friends and enounces alike? The things that Geary did to secure his normation and election are but partly known, but enough is known to show that he owes the Covenionship to a combination which disgraces the State.

Can the Post pretend ignorance of GRARY's true character prior to the late election. It had the record of his previous administration before its eves. and yet it advised the people to vote for him. Is there any honesty in Rad ical politicional Now, that the Post sees its party in power for the next three years, it thinks it can afford to speak the truth. Had it done so be. fore the election, it might have done . the State some service. From this the people can see how they have been deceived into the support of one of the most notoriously incompetent and corrupt men in the commonwealth.

The Firemen and the Niggers.

The Harrisburg Firemen refused to participate in the inaugural ceremonies, on Tuesday last, because Geary's chief tuglemen insisted on putting a ly reasoned that if the flost of honor the Patriot comes gallantry to their defence, and vindicates them most nobly. The Inaugural.

Neither space, time nor inclination will allow us to give in extense the in-augural of Jons W. First, pretense, second, self-the procession.
