-Dan DREW and his wife had their golden wedding in New York on the 9th instant. We suppose they drew some corks to enliven the occasion.

-We heard the astonishing news that Charleston intended to celebrate St. Patrick's Day with dinper. Most tolks in Bellefonte did the same thing.

-The LYDIA THOMPSON troups of blondes have all been regularly indicted for riot by a jury in Chicago. This all comes of showing one's legs in public.

-ALEXANDER H. STEVENS has con cluded not to die for the present, and it is now announced that he is getting well. Happy news! Good for little A LEC.

-We are told that a curious disease, called "contested seats," has broken out in the Alabama Legislature, and that it is particularly tatal to nuggers. Hope it will rage until every darkey is politically dead.

We have the rumor that Judge HOAR has retired from the Cabinet. After the snubbing he received from the Senate in relation to his appointment as Supreme Judge, we should think he would feel like retiring somewhere

A Democratic Platform.

The Pittsburg Post, the leading Democratic newspaper in Western Pennsylvania, believing that the victory of the party depends upon persistence and a sound policy, makes the following suggestions as to the future course of the Democracy in relation to the issues presented.

"1. To ignore dead issues, but never

abate a single principle. "2. A firm reliance in the Constitution, and a restoration of its vital funcions where they have been impaired by Radical legislation.

3. Equal taxation; the strictest inaintenance of the public faith ; a com-mon currency for the people, founded non a sound and reliable basis ; placing the public debt upon the basis denanded by justice and sound financial policy; the creation of a public revenue founded upon just principles and the abolition of present inquitous and oppressive revenue laws.

4. The pict ction of industry against the oppression of moneyed monopoly, "5 A reduction of office holders, and a consequent ce-sation of the present extravagant expenditures of the gener al, as well as State and municipal gov ernmeuts.

⁶6. A reduction of taxes, and ade quate legislation to compel the holders of the public indebtedness to bear their

"7. A just and equitable system of representation in Congress, by which the New England States shall not be allowed a disproportionate number of Representatives and Senators, and the West shaft receive its just proportion, 98. The restoration of all the States to an equal footing in the Union, and the abrogation of all test oaths and distranchising enactments, either by Con-gress or so called Legislatures or Con-A free government, mainentions. "9. A strict definition, according to he lefter and spirit of the Constitution, I the powers, rights and duties of each of the three coordinate branches of the land the nigger, like "M'Crackon," got his eye Government, contining each within its | bung d

proper sphere, and repressing each in is aggressions upon the others The Post is of the opinion that on such a line of policy as is here indicated there would be recruits enough from the liberal and conservative wing of the Republican party to insure a majority in the Lower House of the sext Congress, and ultimately to accomplish the complete overthrow of the Radical party
