D.a. IsaAcs.—We had the pleasure of meeting yesterday, for the first time, the colebrated oculist and aurist, Dr. Li Isaacs, of Philadelphia, who comes here highly recommended not only by the newspapers, but by private letter to us. The Doctor is a graduate of Leyden, Holland, and has had the advantage of nineteen years practice in his profession, fitteen of which have been in this cour-try. He operates entirely on diseases of the eye and ear, and his success has been wonderful. We think there is no doubt of his skill and judge that our people may put entireconfidence in him. The Doctor proposes to stay in Belle-fonte until July 9th, at the Brockerhoff House, for the purpose of affording our citizens an opportunity to consult him, and those who are in any way afflicted by diseases of the eye or ear had better call at once. He comes here direct from Lock Haven, where he has been opera-ting for the last month, and is speken of in the highest terms. Thé Generri Lock Haven, where he has been opera-ting for the last month, and is speken of in the highest terms.
