and shuddering at the heart, which is not at all pleasant. Mr. McKee caught them on the bluffs near the city, from a nest of over one hundred in number, and is training them for exhibition.

The Plotters Against White Labor.

The coolie business is now one of the most exciting topics in the new market, and all evidences of their peculiar ideas of matters and things in general, and their past experiences as combatants against white labor, are given close attention. An earnest scrutiny of the historical events connected with their careers in the past shows that they have always been the enemy of white men; that their remarkably niggardly traits, their dishonesty, their wretched system of pilfering and lying, and their general lack of decency, have compelled white men to drive them from their association. It is not a great many years ago that an entire colony of them were driven, bag and baggage, from the district in which they lived. Their thievery and general immoral outlawries, coupled with their encroachments upon white men's rights, caused the miners of Australia, in the district of Sidney, to rise up in a body and drive the coolies from the region. There was scarcely a man who had intelligence enough to appreciate the wrongs these coolies were cunningly trying to heap upon them, but who rose up and fought them bravely. British troops were called out, and desperate scenes ensued, but the working men in the diggings *could not* be put down, their rights of labor were at stake, and they determined to maintain them. They did it, and not until every Chinaman had been driven for miles away from the camp, did they submit to the attacks of the British troops. This point was gained, and having no cause to combat the soldiers, they ceased the struggle.

This shows merely the extremely hazardous nature of the question which is now coming before the working men of this country.

Coolies have been brought here under contract to work for a term of years at whatever wages the speculating capitalists may fix upon. These plotters against white labor, have nothing to lose, but much to gain. Coolie labor will build up their fortunes. The destruction and disorganization of white labor, and the routing of trades will give them a prestige which will aid them in securing political notoriety, and bring them to the occupancy of the positions, for the attainment of which they have hatched this coolie plot.

The Working men of this country, whose earnest and honest labor leads them not beyond the home's precincts of domestic life must now be alert. Unscrupulous capitalists who have the money to stake are attempting the life blood which gives them sustenance. A scheme is going on to overthrow them, and vigilance must now be the price of labor's liberty.

The unfortunate coolies who have of their natural instincts possess traits of their character much to their detriment, and bring upon them the curse of all who ever lived near them, are not the men to bear the onus of the obloquy that is coming. Their ignorance of the country's customs has been taken advantage of, and the plotters for political power in the dethroning of the king of labor bring it to bear to effect their object. Workingmen look alive. The critical period is coming. By your firm demonstrations of this outrage show the people of the world that the laboring classes in America cannot be tampered with. We want no violence. It is not necessary. But the moral effect of firm standing by the solid prerogatives of labor, the unanimous spurning of these schemer's plots, will drive them from the land, and they will take with them to China and to ignominy their unhappy horde of coolies.

Workingmen do not falter.

Keep the spirit of your rights earnest and firm, and Labor will soon triumph. In the defeat of this coolie scheme all plotters against the liberty of the workingman of America will experience their extinguishment.

Now is the time; now is the hour.—*N. Y. Democrat*

Needles and Pins.

The startling statement that needles and pins murder more people than all the knives and poignards in existence, is vouched for by the *American Engineer*. This result is due to the fact that the process of manufacturing them is, in some respects, exceedingly unhealthy. We find the following in the same paper on this interesting subject. "The workman sits at a grindstone, with a bundle of wires in his hand, cut to twice the length of the pins or needles which are to be produced; and he rolls the wires upon the surface of the revolving stone in such a way as to bring them all to a fine and symmetrical apex. In the operation a very fine and piercing metallic dust is given out, which gets into the air passages and lungs, and causes pneumonias, consumptions, and all kinds of sad results. Various preventives have been tried. Magnetic respirators have been invented, which, it was hoped, would arrest the particles of steel and iron. Pads of cotton wool have been worn over the nose and mouth, and an apparatus has been fitted up to direct a blast of fresh outside air across the lips of the needle-grinder; but none of these devices appear to diminish in any material degree the loss of life." In view of the neccessarily fatal effect of the old method, great interest should be felt in an invention by a German telegraphic operator for sharpening with mathematical accuracy any number of steel or iron wires. The current is directed upon the extremities by a simple apparatus, consisting of a glass tube and acidulated water, producing the most perfect points. Pin and needle manufacturers will doubtless lose no time in inquiring into the practicability of this method, since it promises to be much cheaper as well as safer.

A veteran soldier relating his exploits to a crowd of boys mentioned having been in five engagements. 'That's nothing,' broke in a little boy, 'my sister Sarah has been engaged eleven times.'

A REPORTER on the New York *Sun* has heard something that it "makes him blush to think of." It don't seem possible that he is permanently engaged on the *Sun*.

A WORTHY missionary in India says that his congregation had not yet experienced any trouble from the pew system, as they are accustomed to sit on the ground.

INDIANAPOLIS, BLOOMINGTON and Western Railway.

SEVEN PER CENT GOLD LOAN.

The bonds are in denominations of $1000 each secured by a first mortgage on 295 miles of road, from Indianapolis, the largest city and most important railroad centre in the State of Indiana, to the city of Peking in Illinois.

One hundred and eighty miles of the line are now in full operation and equipped with new first-class rolling stock, consisting of 26 locomotives, 24 passenger coaches, 17 baggage and express cars, 700 box, stock and coal cars and more will be added as the wants of the road require. The earnings are already greatly in excess of the interest on the whole issue of bonds. The balance, twenty five miles of the division in Indiana is nearly all graded, with all the iron on hand and will be completed without delay.

There are thirty-six depots on the line, located in cities and towns on its route, in the aggregate a population of one hundred and ninety thousand averaging over 150 to each square mile within a radius of half a mile of the track. There is a population of about six hundred thousand.

It passes through the counties of Marion, Hendricks, Montgomery, Fountain, Warren and Vermillion, in the State of Indiana and Vermillion, Champaign, De Witt, Piatt, McLean and Livingston counties in Illinois, on the line of the old contract State road, which was cut out in the best portion of those States before the time of railroads, was then the main line of travel to the west, and consequently became more thickly settled than other sections. Here, also, is the numerous cities, large villages and products of these counties naturally pour.

Besides the large agricultural products of the section on the main line of the road, there is a very extensive coal [illegible] and [illegible] is rapidly increasing.

The coal mines at Danville on this line are extensively and profitably worked and furnish [illegible] over three hundred tons [illegible] at present, and more than twice that amount will be required to carry out the completion of the remaining link.

By the present earnings on 180 miles it is [illegible] that the local business [illegible] will amply meet only to pay the bonded debt, but large dividends on the stock.

[illegible] to the population and wealth of the country and all the necessary requisites for a first class road and make it a [illegible] of through local traffic. It forms a [illegible] with the Indianapolis & St. Louis road, the only line [illegible] by any road [illegible] in the west.

A [illegible] is now [illegible] with the Columbus Chicago and Indiana Central railroad at the Pittsburgh, Cincinnati & St. Louis railroad at Pittsburgh and Chicago and the Pittsburgh, Fort Wayne & Chicago railroad at Crestline. Connections are made with Pacific [illegible] at Kansas, Nebraska and Colorado. At Peking connection with the Illinois Central Railroad, and at Lafayette with the Louisville, New Albany & Chicago railroad. Every facility for the interchange of business will be afforded.

The road is [illegible] and [illegible] by the citizens of Indianapolis, Danville and Lafayette, which must necessarily be [illegible] to the interest of the road.

The first mortgage bonds of the road are [illegible] and are offered at par and accrued interest. They may be [illegible] Philadelphia and Europe [illegible].

The balance will be [illegible] at the rate of [illegible] per cent per annum, and will be [illegible] by the Indianapolis Trust Company.

We have been thoroughly [illegible] in regard to the road from [illegible] have fully investigated its [illegible] and being familiar with the wealth and resources of the country, the responsibility and integrity of the officers and directors of the company, and the earnings of the road [illegible] as one of the cheapest and safest investments in the market sure of high [illegible] and [illegible] securities in the [illegible].

(Established 1864.)

Nos. 31, 33, 35, & 37 Vesey St., NEW YORK, HAVE APPOINTED

D. M. WAGNER & SON,

BELLEFONTE, PENNA.

to sell their TEAS and COFFEES at the same price that the Company sells them at their warehouses in New York. A full supply of the finest new crop of Teas will be kept for sale at Wagner's.

All goods warranted to give satisfaction or the money refunded.

Only one profit charged from the Producer to the Consumer. From five to eight profits saved by purchasing of this company.

UNDER THE OLD SYSTEM

of doing business the consumer of Teas has to pay about eight profits between the producer and himself, to cover all of which is the only immediate cause.

UNDER THE NEW SYSTEM

the Great American Tea Co. distributes Teas to the consumers through their agents all over the country, subjecting them to but one profit, and that but a very moderate one, as a small per centage on the immense sales will amply satisfy the Company, for they sell thousands of chests of Tea in the same order in less time it took to sell one chest under the old system. 15-20-3m.
