-For a month or more back, a report of a very serious nature, involving the character of a professional gentleman in this place, has been going the rounds It is to the effect that he has, in a distant State, an invalid wife, while he is passing off here as the husband of another woman, who lives with him at this time. The woman who is passing as Committee, are requested to meet, on Wednes his wife is said to have a husband is may both, at Meek's Hall over the Wyrds in a neighboring. State and from whom she has recently been divorced. This is the rumor, and letters recently addressed to us, from the former husband and the deserted wife, give a coloring of truth to them , but not wishing to do any one injustice, and hoping for the sake of common decency that the popults are false, we abtum from publishing them until the parties implicated have an opportunity of explaining or contradicting.

· CREDIT TO WHOM CREDIT IS DUE -From the Xenia (O) Gazette we get the following complimentary report of --- A great many pic-mes and 4th of | the closing oration at Wilberforce University, a negro Institution, delivered by Isiah Welsh, formerly of this place, and whose father, John Welch, a very quiet, moffensive old man, still resides who so generously aided him, will be gratified to learn that he has tried at least to improve the opportunity their kindness afforded him. The report

"Executive Thought" was the subject of the closing oration, by Rev I. H. Welch. This was theme at once sublime, and was a theme at once sublime, and was a treated in a manner that did much credit to the speaker and the Institution. Mr. Welch, in his remarks, called attention to the great thought that filled the mind of Jehovah, the execution of which called forth from chaotic darkness this massy globe, and of the still higher thought—a thought that demanded a council—a thought of making Man. Mr. Welch, in the composition and delivery of his oration, showed us that he possessed, in a high degree, the irrequisite clements of an orator. I would not, by any means, detract from the merited honors of the other two graduates, but, in my opinion, of the three praisworthy orations, Mr. Welchs was the masterly production. These young men labored under many disad vantages, and they deserve credit for their close application to study
