It appears that the lad was playing on one of the over-hanging rocks with some other children, and in attempting to pick up something below which had attracted his attention, he lost his balance and went headlong down the precipice. His fall was broken by the shelving rocks. His escape, nevertheless, was most miraculous. In view of the numerous accidents which occur here, it is strange that the city authorities have not erected a barricade along the bluff.—*Pittsburg Commercial.*

"He's run'd away, sir."

"Didn't I tell you to take care of him, you young scamp?"

"No sir, you told me to keep my eye on him, and I did till he got out of sight."

Hembold's Column.

ADDRESS

TO THE

NERVOUS AND DEBILITATED,

WHOSE SUFFERINGS HAVE BEEN PRODUCTED FROM HIDDEN CAUSES,

AND WHOSE CASES REQUIRE

PROMPT TREATMENT,

TO RENDER EXISTENCE DESIRABLE.

If you are suffering, or have suffered from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Do your liver, urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or flocky, or is it ropy or settling? Or does a thick skum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing of dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rush of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this evil, yet? Do you feel dull, listless, moping, tired of company, of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the luster of your eyes as brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights? Your back weak, and have but little appetite, and you attribute this to dyspepsia or liver complaint?

Now, reader, self abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering successful business men are always of those whose generative organs are in perfect health? You never heard such men complain of pains, melancholy of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business. They don't become sad and discouraged, they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks or any other meanness about them. I do not mean those who keep the organs inflated by running to excess. These will not only ruin their constitution, but also those they do business with or for.

How many men from badly cured cases, from the effects of self abuse and excesses, have brought about the state of weakness in those organs that has reduced the general system so much as to produce almost every other disease, idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the cause of the trouble scarcely ever suspected and have doctored for all but the right one.

INDIANAPOLIS, BLOOMINGTON and Western Railway.

SEVEN PER CENT GOLD LOAN

The bonds are in denominations of $1,000 each secured by a first mortgage on 205 miles of road, from Indianapolis, the largest city and most important railroad centre in the State of Indiana, to the city of Pekin in Illinois.

One hundred and eighty miles of the line are now in full operation, and equipped with new, first class rolling stock, consisting of 25 locomotives, 24 passenger coaches, 17 baggage and express cars, 750 box, stock and coal cars, and more will be added as the wants of the road require. The earnings are already greatly in excess of the interest on the whole issue of bonds. The balance, twenty-five miles of the division in Indiana, is nearly all graded, with all the Iron on hand, and will be completed without delay.

There are thirty six depots on the line, located in cities and towns that contain, in the aggregate, a population of one hundred and ninety thousand, averaging over 920 to each square mile, within a radius of half a mile of the track, there is a population of about six hundred thousand.

It passes through the counties of Marion, Hendricks, Montgomery, Fountain, Warren and Vermillion, in the State of Indiana and Vermillion, Champaign, DeWitt, Piatt, McLean and Tazewell counties in Illinois, on the line of the old emigrant State road which was laid out in the best portion of those States before the time of railroads, was then the main line of western travel, and consequently became more thickly settled than other sections of the west, as the numerous cities, large villages, and products of these counties demonstrate.

Besides the large agricultural productions of this section the manufacturing interest is very extensive in the large towns and is rapidly increasing.

The coal mines at Danville on this line are extensively and profitably worked, and furnish business for over three hundred coal cars on this line at present, and more than twice that number will be required to carry coal on completion of the remaining link.

For the present earnings on 180 miles it is safe to assume that the local business alone will be ample not only to pay the bonded debt, but large dividends on the stock.

In addition to the population and wealth of the country and all the necessaries to support the first-class road and make it a profitable investment through local traffic, it forms a good central trunk line for through business not surpassed by any road of equal length in the west.

At Indianapolis it connects by main lines with the cities of Columbus, Cleveland, Pittsburg, Cincinnati—and with the Pennsylvania Central, Baltimore and Ohio, and other important railroad lines. At Pekin, the western terminus, connections are made with Peoria, Quincy Keokuk, Burlington and Omaha. At Bloomington, with the Illinois Central Road, which runs northwest 600 miles to Fort Dodge, Iowa. A very large business will be done with this line. At Danville it connects by rail with Toledo on Lake Erie. A map will show all the best to be very important connections in making through lines over this route.

The loan is placed beyond any contingency by the present earnings from local traffic on but miles, which must necessarily be doubled when the trains run through.

The bonds are convertible at the option of the holder into stock at par at any time, which adds greatly to their value. They may be registered at the Farmers' Loan and Trust Company if desired.

COUPONS PAYABLE APRIL & OCTOBER, FREE OF TAX.

Total issue $5,000,000—$2,000,000 of which are placed in trust with the Farmers' Loan and Trust Company to redeem and cancel $2,000,000 bonds issued to the Danville, Urbana, Bloomington and Pekin Railroad, now merged into this road making the loan only $3,000,000, over half of which has been sold in Europe and this market. The balance we offer at 90 and accrued interest. At the low price the bonds, being so amply secured, will be quickly marketed.

We have been thoroughly posted in regard to the road from the start, have closely inspected it from time to time during construction and being familiar with the wealth and resources of the country the responsibility and integrity of the officers and directors of the company and the present earnings of the road it is with pleasure that we recommend the bonds as one of the cheapest and safest investments in the market, sure of high standard among the best railroad securities in the country.

All marketable securities received in exchange at market rates. Bonds delivered to all points.

MONEY CANNOT BUY IT!—

FOR SIGHT IS PRICELESS!

BUT THE DIAMOND SPECTACLES WILL PRESERVE IT.

THE DIAMOND GLASSES,

MANUFACTURED BY

J. E. SPENCER & Co., New York,

Which are now offered to the public, are pronounced by all the celebrated Opticians of the world to be the

MOST PERFECT,

Natural, Artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name "Diamond" on account of their hardness and brilliancy. The Scientific principle on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use. They are mounted in the finest manner. In frames of the best quality, of all materials used for that purpose. Their finish and durability cannot be surpassed.

CAUTION.—None genuine unless bearing their trade mark ⟶ stamped on every frame.
