---- Charley Smith, Esq., of Unionville, is an authorized agent of this paper, and in a few days will visit Philipsburg and vicinity, where we hope our friends will sesist him in the very laud able effort to extend the circulation and influence of the WATCHMAN

-The subject of trout raising seems to be attracting general attention. Mr. Morris's fish pend started the furore, and now we hear of several properted enterprises of the kind. Well, we hope that among them they will raise trout enough to make them cheap and plenty

-Judge Proudfoot, of Milesburg, is authorized to receive and receipt for subscription to the WATCHMAN Mr. Proudfoot will shortly visit those of our subscribers receiving their papers at Milesburg, Roland, Howard, Blanchard, Beech Creek and Walker, on a collecting tour, and we hope they will be prepared to receive receipts from him

-The temperance men are making an effort to have the question of licensing hotels submitted to a vote of the effect, and is being numerously and generally subscribed. Our temperance ries at Philipsburg, Centre Hall and friends appear to be bearding the hon in Millheim on this subject? And would

-Several ladies called on us yeaterterday morning to take a look at the WATCHMAN office, and observe the working of our water power. We showed them around to the best of our ability, and hope they appreciate the fact that the DEMOCRATIC WATCHMAN IS B great institution. We are always happy to see the ladies, and extend to them all a cordial invitation to call early and often.

SARRATH SCHOOL INSTITUTE -The second matitute for 1870, will be held at Milesburg, under the suspices of the Centre County Sunday School Association, on the 13th and 14th instant First session at 2 o'clock, P. M. Gentlemen from a distance have been invited and expected to be present and take part in the exercises. All friends of the Sunday School cause are cordially invited to attend.

---- Unionville, like Bellefonte, is blessed with a set of radical officials who fear to let the tax-payers of that borough know what they do with their money. For years back, they have collected large amounts of taxes, and nobody but themselves know where it goes to. Some of these officials have seemingly pro-pered to a considerable xtent street they got to handling the scable for public expenses, but goes into pri- ested in the cause are invited to be pres-

ABOUT ROADS - We have yet to see proble

This remark has been suggested by the outrageous condition of many of the public roads throughout the county, which are often mere passage ways through mud holes and gulches. To drive along them is a risk to teams, and vehicles, and frequently to life or limb, to say nothing of the bad words that one is often compelled to say to relieve

our township roads lies in the fact that sufficient provision has not been made tor their maintainance and repair. The have too much territory to attend to ers and the consequence is the work is only about half done. Besides this, it is often very difficult to get men to work on them, and a supervisor is frequently compelled to spend two or three days in hunting up half a dozen men, who, perbaps, when found, cannot work more than one or two or three days at furthest. In this way, but little oun beaccompaished in the matter of repairing the reads, for, while some portions of them are sometimes unde tolerable, other sections are left in the most about inable shape. Moreover, the work is done in a kind of a helter-kelter way. and the result is the roads are often any Main and Bishop streets, about as good thing b t level, and frequently higher a place to go as any we know of His at the sides than in the middle, a fact mud holes that are so often the dread troods. at the error of travelers and teamsters

Now, as a remedy for all this, we have heard it suggested that the division of a owr-hip into school districts, with a supervisor for each district, would be efficacións. By this plan a superviser would have a comparatively small territery to oversoo, and could always be able to secure enough men to do the work thoroughly. In his limited extent. every man in it, and could ascertain at once just how many men could work and when and how long they could work, so that he could make his calculations and plans accordingly

Undoubtedly, this would be a better method than the system at present it operation. But we think there is still more thorough mode of procedure, and that is to require that road taxes be paid | -av in money, and then to elect one Supervisor for each township, whose duty it should be to keep, three, or four men at the roads would always be kept in good taxes, too, would soon decrease, and the men and boys now summoned to work | guilty of such folly, would you? on the roods would have the time thus pent to make money at other employment Moreover, while or four men, steamy employed, would do more work in a day than a dozen men under the present system, who get together more to have a frolic than with any serious intention to do a certain amount of work The idea now is to put in the time, rather that to perform any specified amount

of Inbor In Huntingdon county, we underwith great success, and the roads there are in fine condition, as a consequence We suggest, therefore, that steps be people among whom said hotels are to taken to have it tried in Centre county, be supported. A petition to the court as we believe it to be the only true planis now circulating for signers, to that by which first-class township roads can be obtained. What say our cotemporathe Republican condescend to give the public its giews on the matter?

---Jno. I. Rankin now has the fin-

est and largest Book Store in town. -- The Centre County Teachers' Intitute, which will be held in Reynolds's ! opera house, in this place, beginning on Monday the 26th instant, bids fair to be largely attended. This is as it should the county present. School directors should be careful to allow the teachers the time to attend the Institute, without requiring them to make it up, as it is as present an attractive and instructive programme. Able and entertaining ectures and addresses will be delivered, and the occasion promises to be a very pleasant and profitable one. For the sake of the educational cause, we trust that no obstacles may be thrown in the way of the complete success of the Institute this year.

The other in a place as tight, contented was the press to slight. And did not let the people know of what he had or where to go.

His draits were due and were not paid, a levy on his goods was mide, the store was closed until the sale, and for some time he was in jail. A bankrupt now without a cent at letsure, he can deep repent, that he was footlysh and unwise and did not freely advertise.

A LOW, CONTEMPTIBLE TRICK OF A REPUBLICAN TAX-COLLECTOR -On the 11th of October last, an old, but one of the most honored and respectable citizens of Boggstownship, wended his way to the place of election, to cast his vote for white men, against radicalism and niggerism. A man who has voted for a period of 64 years, was twice elected to largely attended. The Superintendent is anxions to have all the teachers in the country present, and has taken great pains to boldness of a Nero, and remarked that this election would be set uside, as an illegal vote had been cast. The board were struck with great natonishment, when one of the clerks, Philip Barnhart, Esq., inquired who it could be, when this shining light in the church, this exemplary christian, this praying man replied, why, no one else than your own father. He had not the manliness to challenge the vote when cast, (and per was well that he did not,) but went before the board and there spit out his abuse of our oldest and best citizen. This learned man says that the illegality of the vote was, that the Judge bad not paid his taxes for 3 years, but that his son Honry had paid them for him.
