--- Some of our more timid citizens were very much startled on Monday even ng by the thunder and lightning, which waked the echoes of our mountains and lighted up the western sky We learn that soveral sewing circles adjourned in dismay, persuaded that the last of earth had come. Thunder and lightning, at this season of the year, are very unusual, but are sometimes heard and seen. Some people say they are signs of mild weather.

-If the police will keep their eyes on that locality where the new road along the creek crosses High street, just in the neighborhood of the bill board and Mr. Glenn's picture car, they may be enabled to prevent considerable vile conduct after nightfall We learn that a very respectable lady of this place was grossly insulted there the other night about nine o clock by a vulgar villian hanging around those premises. We hope officer Felty, who lives close by, will keep a look out for such scoundrels.
