An Henoic Lab,-The following is the testimony of James Connors, alias 'Rat,' the newsboy who rescued so many persons after the late steamboat explosion at New York, on the 30th

I am a newsboy; sometimes I black boots; I live at 19 Pearl street; at 1 o'clook on Sunday afternoon I was sit-ting on the stone pier at the Battery with my brother) we were fishing; at 1:30 I heard a noise like a boat letting off steam, and after that came a rumon steam, and area what came a rum-bling sound like a big gun going off. I turned to look around, and my brother was in the water; I laughed at him because he fell overboard; I then jumped down for him, but he got ashore alone; the next thing I saw was a big rloud of steam, and men, women and children floating in the river; I jumped down off the pier, took river; I jumped down off the pier, took off my cap, jacket and shoes, and jumped in after two babies; I grabbed one by the arm and the other by the skirt and passed them on the float; I didn't see any more babies, and so I lived down after the ladies, trying to hold them up while Mr. Connore, my uncle, and Mr. Quigley took them in the hoats; I tell you we had lively times, and you could hardly tell what

It is estimated that young Connors must have saved at least ten persons, and aided in saving many more. He rendered valuable service in diving like a water rat among the struggling women and children and buoying up the scalled victims on his little back, while Quigley, Collins, Connors and Breen took them into their boats.

LOYAL INDIANA .- In the State of Indiaha they do things 'thusly:'—
They have no residence for their Governor, but the Legislature has for six years past annually appropriated \$5, 000 as rent for a house for his Excel lency. It appears that the Governor for which he paid only \$1,000 per annum, yet all the while drew from the State Treasury the \$5,000 per annum for house rent. The question which the tax payers now put to the people at large is: 'Have the Governors any right to charge more rent than they actually pay?' But so far no Radical has volunteered to answer the question. And if the question is not answered in a satisfactory manner pretty soon, they propose to put the matter to a legal test. Twenty one thousand dollars have thus disappear ed during the past six years for rents which were never paid. That even beats Tammany Hallists.

Unreses.—The news bursts upon us from the papers received this morning, with unusual suddenness, that Mr. Grant, President of Long Branch, will not return to the Capital previous to his California trip. Well, it is not exactly necessary that he go to Washington, as he can have his salary remitted to him from there, wherever he may be. There is nothing of interest at the Capital, except the national debt, and that can run right along as well in the absence of the President as though he were there to superintend it in person. Recent advices from the Capital corroborate the statement pro-mulgated recently through the department of State, that the President's horse with the sore tail was as well as could reasonably be expected, so there is no pressing need of his presence. To be sure, there may be complications arising from the conduct of affairs in Europe that should be attended to, but the boys can look after them !

The Government needs rest! -- La Cross Democrat.

-The head of the Savannah Re publican is level. It remarks: 'There is some talk in the newspapers about 'New Departures,' and some animated discussion between editors who feel the same way, but do not understand each other; but among the people a profound calm, amounting to apparent indifference, reigns everywhere at the south. No, we are not excited in the least, and have long since made up our minds to vote the Democratic ticket minds to vote the next election, and let all departures go to-Hahfax.'

-There is no doubt that the car pet baggers and scalawags of the South are pure and adulterated patriots. For instance, the Superintendent of the public schools of Charleston, South Carolina, stole the annual appropriation of three hundred thousand dollars. and the schools had to be closed on ac count of there being no money to pay the salaries of the teachers. He would make an excellent witness to go before the Ku-Klux Committee. The he tha he wouldn't awear to would not be worth telling.

-The farmer hitches his horse shod with nails taxed 67 PER CENT to a plow taxed 25 PER CENT, with chains taged 100 PER CENT, and harness taxed 35 PER CENT.

Farmers and tax payers, you are swindled to enrich the Radical monop-

VERY UNKIND .- (Scene-A Volunteer Review.) Infuriated Commanding Officer 'Hi, there, get away, you madman—get away from the target!' Fasy minded Lunatic-Hold Gov'nor, I ain't as mad as I look. On was here all day yesterday, and found it the safest place in the field.'

-Greeley and Fred Douglass have the best claims to head the Radical ticket for 1872. Fred has black blood enough in him to carry the negro element for the tail of the kite; and Horace's white hat, white hair, white face, white coat, and white liver, embrace everything white that a black Republican can tolerate. - Allegheny Democrat, N. Y.

A BREAKEMAN KILLED BY A WATCH IN HIS VEST POCKET.—A breakman in the employ of the Lake Shore and Michigan Southern railroad met his death at an early hour on Tuesday last. in a remarkable manner. The decease ed was a young man named Case, a breakman of a train of which his father was conductor. About two o'clock Tuesday morning he came from from the other side of the river to the freight depot to bring the bills. After having properly delivered them, it is thought that he jumped upon a car being drawn over the bridge, in order to ride as far as possible towards home. After that he was not seen alive. Between four and five checks a man seen alive. tween four and five o'clock a man saw near the west end of the bridge what he supposed was a drunken man asleep on the ground. Walking up he shook the supposed intoxicated person, but was surprised to find the body cold.

Dr. Schneider was called and examined the body. In the vest pocket was found a large hunting case silver watch which had been pressed into the young man's side, just over the portal vein, and with such force as to crowed a por-tion of the watch into the case. This enormous pressure must have produced a congestion, which doubtless caused instant death.

The positon of the body and the inuries indicate that the deceased had been caught between the car and an dge of a post of the coal bin close by the bridge. An arm and one rib were broken, but it is thought that they were broken after the fatal injury had been received. The watch had stopped at four minuts before three o'clock which was probably the time the acci dent occured .- Cleaveland Plaindeler

-The Democrats of Pennsylva nia, and especially the Democratic representatives of the city of Philadelphia made an unsuccessful effort last ses sion, to limit the debt of the city of Philadelphia to fifty millions of dol-lars. The bill passed the Democratic Senate, and failed in the Republican House of Representatives.
