

The Democratic Watchman.

BELLEFONTE, PA.  
Friday Morning, Sept. 8, 1871.

THINGS ABOUT TOWN & COUNTY

School books at Rankin's.—Rankin sells school books cheaper than any one else.—Rev. W. T. Wylie has returned and resumed his pulpit at the Presbyterian church.—There will be services in the Reformed church on Sabbath evening next at 7 1/2 o'clock.—There are a couple of cases of fever and ague in town. They'll shake the fellows up.—Half bushel of lime, one gallon salt and four pounds of raw umber, make a very pretty drab.—Joe Hawkins's market car will be in Show Shoe to-morrow, with all the good things of the season.—Rev. Mullen being absent, the Methodist pulpit will be filled on Sunday next by Rev. George T. Gray.—Why don't you wear your hat, this bright sunny day, Mr. Chippy? Oh, 'cause 'Why didn't Jack eat his supper?—The borders of Spring Creek are infested with rats, and the boys have their own fun chucking stones at them. Very often, during high water, numbers of them are drowned.—Nothing has yet been done to the bridge. Why can't this matter be hurried up? If the work be not done pretty soon, it will hardly be accomplished before the snow comes.—The public schools will re-open on Monday next, the 11th instant, with the following teachers: Prof Hastings, Miss Thompson, Miss Hunter, Miss Weaver, Mrs. Ward, Miss McGinley, Miss Morrison and Miss Meyer.—Mr. Harvey Miller of Rebersburg, fell from a hay loft one day last week and dislocated his left arm. The dislocation was properly cared for by Dr. D. J. Hillish. Mr. Miller is doing well, and in a few days will be able to resume business.—That good citizen, genial gentleman and warm friend, Mr. Michael Bogan, of Philadelphia, is in town this week. Mr. Bogan is a cloth and cassimere merchant, and sells the very finest and handsomest qualities of goods. Our people will find him as whole-souled as he is enterprising.—"Have you got any pens, old fellow?" asked a little child, the other morning, at one of our prominent book-stores. "Oh, yes, sweet child, any amount of them." "What kind of a pen did you wish, my son?" "Well, my ma wants one cent's worth of pug-pen, that's all."

The suggestion to build a stairway up the hill on the Spring Creek side of the Academy appears to meet with general favor. Let the work be done. It would add much to the agreeable impression made on strangers visiting town, and would be an advantage not only to the pupils of the school, but to the public.—The Nineteenth Annual Fair of the Centre County Agricultural Society will be held at the Fair Grounds near this place on Tuesday, Wednesday, Thursday and Friday, the third, fourth, fifth and sixth of October next. The prospects are flattering for a large turnout of the people, and the display, it is hoped, will exceed that of former years.—We do not see that any preparations are being made to rebuild the burnt district. The ruins in that neighborhood are very unightly, spoiling the appearance of that entire locality. We hope the owners of the lots will either build upon them again or sell out to somebody who will. A fine brick block there would be a vast improvement.—We hear a good deal of complaint about the miserable pavements on some of our streets. Everybody in town knows where they are, and if the property owners will not fix them they should be relaid by the borough and the expense charged against them. There are various places, in portions of the town that pride themselves on their respectability, where a man is in danger of breaking a limb or perhaps his neck, on a dark night.—Conductor Ward, who was killed last Saturday week by the accident on the P. & E. railroad, passed Emporium the same morning in high spirits. His orders were to run not over 18 miles an hour, and this seemed to please him. Approaching his engine in that jolly, rollicking way so natural to him, and with which everybody who knew him is familiar, he swung out to his engineer, "Hello, Kiltlinger, eighteen miles an hour! How's that? Is high?" Poor Jim! Only a few hours of a hard both he and Kiltlinger had run their train on earth, and had gone on a long voyage to that undiscovered country from whose bourne no traveler ever returns."

THE WATER PIPES.—At last the great trouble has been traced to its source. It is deep in the bowels of the earth, and is in the shape of a number of leaks which are wasting the water that the people have been longing for. By a report just made to the Town Council by Engineer Morris, who was employed to examine into the condition of the Water Works and the cause of the great scarcity of water in certain portions of town, it appears that the works put into the pipes, every three hours, seventeen hundred gallons more water than are carried by the pipes into the reservoir! This amount of water is wasted, according to Mr. Morris, every three hours, amounting, in the course of 24 hours, to thirteen thousand six hundred gallons. These leaks, of course, result either from bursted or badly jointed pipes, and will undoubtedly have to be fixed. The people on the hilly portions of town must have water, and they have been without it so long that they are growing justly indignant. Unless they get water in sufficient quantities it is rank injustice to make them pay the enormous water tax, which they all have to do. We congratulate the Council on doing what it should have done long ago, that is, getting a competent engineer to examine the Water Works. Had this been done months ago, it would have saved an immense amount of growing and a very considerable item of expense. Evidently the laying of the pipes from the Works to the reservoir was a very badly finished job, and the contractor or contractors, whoever they were, ought to be made to do it over. A waste of 1,700 gallons every three hours, or 13,000 gallons every day and night, sufficiently accounts for the lack of water on the hilly portions of town. Get this amount more into the reservoir than is going in now, and there will be no more complaints. But let the work of relaying the pipes be done right this time. TRIBUTE OF RESPECT.—At a regular meeting of Washington Camp, No. 88, Patriotic Order Sons of America, held at Renovo, Sept. 1, 1871, the following resolutions were unanimously adopted: Whereas, it has pleased Almighty God, in His Divine Providence, to remove from our midst an amply tried, true and beloved brother, James M. Ward, who thereunto submitted the will of him who death all things well. Therefore, That in the death of our brother we lose a good and worthy member of our camp and order, and tender our earnest sympathies to the members of his family in their affliction. Resolved, That as a mark of respect for the memory of our departed brother, our charter be draped in mourning for thirty days, and the members wear the usual badge of mourning. Resolved, That a copy of these resolutions be forwarded to the family of deceased and be published in Camp News and Clinton and Centre County papers. F. H. WELSH, J. KENNEDY, W. R. CHESTNUT, Committee.

Every person living in Centre and adjoining counties, who contemplates moving to Bellefonte, and every person, whether living in town or not, who is not already a customer and who desires the latest styles and the best of goods at Philadelphia prices, should not fail to call at the "New Store" (Young & DeVing) on Allegany Street, Bellefonte, where is kept constantly on hand one of the largest stocks of general merchandise in central Pennsylvania. Mr. Young, the senior partner of the firm, is connected with the well-known Philadelphia House of M. M. Ward & Co., Philadelphia, where he has been a portion of the year, thus enabling the people to get anything in the mercantile line that they may wish.—That excellent boot and shoemaker, Mr. John Powers, is doing a rushing business. He works six hands, and is jubilant over the fact that there are no hard times about his premises. Mr. Powers turns out beautiful boots and shoes, and also does repairing promptly and in the neatest style. Everything from a cow-hide boot to the neatest and finest lady's or children's shoes and gaiters can be found at his store, opposite the Bush House. Call and see him. He is a good-looking man, and as polite and affable as he is good-looking.—One of our exchanges very truthfully remarks, "What a record of human folly, prejudice and ignorance would that newspaper be which should publish everything that was sent to its editor," or words to that effect. What a record, indeed! Were the WATCHMAN to publish everything that is sent to it, it would be the most remarkable sheet extant. And all newspaper editors are bored in the same way. Very often they have to reject manuscripts at the expense of the feelings of the writers, but it must be done.

BEATS THEM ALL.—We think our friend, D. C. Keller, Esq., of Centre Hall, can beat "them all" in the potato line. From one stock he took, a day or two since, one hundred and seven good sized potatoes, ranging from the size of a goose egg to that of a hulled walnut. If any body can beat that stock we would like to know who he is and where the stock was raised. Mr. Keller says they are all good Democrats.—The school books are just pouring out of Rankin's Model Book Store, this is an evidence that this is the place to buy them.—Rankin is ahead in school books.

BASE BALL.—Friday morning last a party of Lock Haven base ballers arrived in town to play a game of ball with a nine of this place, and were escorted to the Brockerhoff House, which was their headquarters during the day. About half-past one o'clock a hack was in readiness, and they were taken to the grounds at Milesburg, and the game commenced about half-past two. Nothing remarkable occurred in the playing of either side, except tremendous muffling, in which, we think, the city (7) boys excelled, although some nice points were made by them, especially in throwing to the bases. The Bellefonte fellows were as much surprised at the result of the game as the Lock Havenites themselves, the score of which will be found below. In the last inning Brown, by a splendid hit to left field, made a clean home run which was the feature of the game. Quite a crowd assembled to witness the game, among which we noticed several young ladies. Our friends Strayer, Sut Clark, and several others were in town, and appeared to enjoy themselves hugely—a la Fred Smith. We append the score of the game in full.

BELLEFONTE	LOCK HAVEN

RUSSIAN PROMISING.—The following is the result of the Russian lottery held on the 21st of August: 1st Prize, \$50,000; 2d, \$25,000; 3d, \$10,000; 4th, \$5,000; 5th, \$2,500; 6th, \$1,250; 7th, \$625; 8th, \$312.50; 9th, \$156.25; 10th, \$78.125. The committee consists of J. M. Furey, Secretary—Carroll and Geppert.

We would cheerfully recommend to the citizens of the lower townships that are in need of a competent auctioneer, to secure the services of our young but experienced friend, H. G. Conser, of Rebersburg. Mr. Conser speaks the German and English, thus having the advantage of many others, and talks it "up to the handle." His charges are very reasonable. There is no necessity for the people of Centre county to go to Clinton county to secure the services of an auctioneer when such men as Conser are to be found in our county. Give him a trial, and rest assured you will be satisfied.—Only about \$61,000 in debt is the borough of Bellefonte, under Radical domination. Only a little over \$24,000 apiece for every man, woman and child, black and white, in the town. Such is the result of the wise financing of our Radical borough Council. It is the same spirit that induced Evans to embezzle three hundred and sixty-three thousand dollars of the State fund. How long will the people submit to such wasteful and criminal extravagance? Begin to put a stop to it by voting the Democratic ticket this fall.

We often notice wagons and cart-gone past our sanctum so overloaded that to pull them requires every energy of the animals attached. Sometimes their legs seem to tremble in every joint, till we think they are going to break off. This is cruel and should not be allowed. There is no animal so useful or so much the friend of man as the horse, and he should be treated with humanity and kindness. Let loads be suited to the strength of the animal—not such that they will strain and injure him to draw them.—Dr. John B. Mitchell, formerly of this place, but now of Camden, Delaware, is engaged in the fruit-canning business. Mr. Robert H. Duncan, of Spring Mills, this county, who visited Camden last week, showed us a pear on Saturday from one of the Doctor's trees that weighed one pound and a half. Fruit grows to a large size in that section.

The Logan Fire Company, of this place, returned from their trip to Altoona, on Friday last, and report their reception by the Altoona Fire Department as extremely cordial, and their treatment as highly flattering. All the companies from other places advertised to be present were there, and the display was very fine.—Mr. Reynolds of Rebersburg, has four stalks of corn that measure sixty feet, the tallest one measuring 16 feet. These four stalks have ten ears of corn large and well filled. The tallest one about ten feet from the top is well known as the Kentucky Yellow of Democratic corn at that. Beat it, who can.—Dr. Belford, the popular dentist, will be here again on Wednesday next, and remain two weeks. The Doctor is skillful and reliable, and has many friends in Bellefonte. Those who want their teeth fixed should report at the Doctor's office as soon as possible.—That period of which the poet wrote—"The melancholy days are come, the saddest of the year," is approaching. Ere long the beautiful summer will have passed away, and all nature be clad in the sere and yellow leaf.

Why don't you dance? says ye'ns, 'Cause we don't want to, and ain't no anxiousable, sez we'ns.—Buy your school books from Rankin.—Rankin sells school books.

OUR RAILROADS—WORK GOING ON.—As we stated last week, the contractors for the grading and masonry of the L. C. & S. C. railroad, has been let from Oak Hill to the Forks of Penna. Creek a distance of twenty miles. The work as contracted for will cost on an average \$6,000 per mile. The top of road-bed is to be ten feet on fills and twelve in cuts—wide enough for an ordinary guano road through a valley like Penna. that is not subject to floods. The work, we believe, is to be begun at once and pushed through with the utmost vigor. The balance of the road from Oak Hill to Tyrone has been located and is to be "let" shortly. This will not be very good news to the few selfish individuals who, for their own personal aggrandizement, would have cheated the people of Ferguson township out of the road and made its terminus Bellefonte in place of Tyrone. The location of the road through that township, and we understand that the engineers found a good route, together with the fact that the people up there have done in the way of subscription all that was asked of them insures them the road thus giving us a through route.

Messrs. Blanchard & McCafferty, the contractors for the branch from this place to Oak Hill, have received orders to begin work at once. As there seems to be no difficulty in the way, we suppose work will be engaged on this part as soon as on the main line. The Lock Haven, Nittany & Sugar Valley Narrow Gauge Railroad Company held its first meeting in Lock Haven last week. We are informed that they resolved to commence operations at once, and build their road from Lock Haven to Mithem. Since the meeting, we have been informed that arrangements have been made by which the mortgage bonds of that company will be taken by outside parties, who are to furnish sufficient funds to complete and equip the road. Some of the company think they can have it built by the time the L. C. & S. C. road is finished.

The citizens were startled to learn yesterday morning by a dispatch from Okaloosa, Iowa, of the sudden death of Mr. M. T. Milkken, of this place. He died about 3 P. M., on Wednesday, of apoplexy, while on his way to the Friends Church. Mr. Milkken left here a short time ago on a visit to the west in good health and his sudden and unexpected demise creates much regret and sorrow in this community. He was a native of Mullin county, but spent most of his life in this place, engaged in the iron business. His mission to the west was to attend a meeting of the society of Friends of which he was a member. In the death of M. T. Milkken the community has lost an earnest, upright, public spirited, christian gentleman. We sincerely condole with his aged mother and grief stricken relatives in their sad bereavement, but hope and believe that He who called the deceased to live with Him will comfort them in their afflictions.

The Republican, sick of politics and hopeless of electing any of its candidates, has taken to telling large snake stories. Here is its last one: James Heavily Jr. resides near Howard the day last week while passing through a cherry field in the rear of his house he was attracted to a place corner by the neck of a dog. On approaching he observed two large black snakes with heads erect, glittering eyes and projecting tongues menacingly gliding around after the dog. It was but the work of a moment to dispatch them, but they were still squirming when placing a rod or two from the spot he uttered a loud cry of alarm, getting the dog looking snakes. He was completely dumfounded, then incessantly squirming, calling and recolling, then frightful contortions, and the odious creature, with horrid and sickening in the extreme. He fled to the house for assistance. Returning with several men all armed with clubs and axes they set to work chopping to pieces the howling coil of reptiles here was a scene worthy the pen of an Addison! Several snakes would dart off, as if trying to evade the doom of their companions, when the uttering strokes of the axes would sever their bodies. Then another large flat-headed green-eyed monster would make a lunge at the descending ax, only to fall back and share the fate of his companion snake. But the same sort of work was done until, as with a common impulse, the snakes made a rush for the field, one of the witnesses said the ground was literally alive with their bodies. They fled in every direction, many were killed while many more fled unharmed, but on this spot covering an area of perhaps two rods square were counted fifty-one dead snakes. Nor did the men leave the field until the astonishing number of one hundred and nineteen snakes had been made to bite the dust.

Mr. Samuel Sivils, who, by the way, occupies the important position of editor of the "Bellefonte Watchman," has, in our opinion, the most complete and reliable collection of statistics in the State. We believe, a competent officer, raised off a piece of ground 25 feet square 7 1/2 bushels Chili potatoes, five large ones. Our informant says, "they very forcibly remind one of the Democratic majority of Penn township—so large and always to be relied upon." This speaks well for some of the Agricultural products of Penn, but the Second Tuesday of October will speak better things than those (politically) and more of them.—The corner stone of the new Reformed church at Houserville, will be laid (D. V.) on Sunday, Sept. 10th. Services to begin at 10 A. M. Several ministers of the Reformed and Lutheran churches are expected to be present.

Buy your school books from Rankin.—Rankin sells school books.

ROBBERY.—Mr. Joseph Strauss, of this place, well known throughout this and Clearfield county as a peddler of miscellaneous goods, was robbed on Sunday night, the 18th ult., at Bloomington, Clearfield County. He had left his wagon in charge of John I. Bloom, and came to this place on business, when some impudent knave broke open his strong box, containing clothing, &c., and abstracted a considerable amount of clothing and all his hats, together with many articles of more or less value. There is no clue to the thief, and so Strauss is obliged to pocket his loss.—*Journal.*

—Mr. G. W. Wheat is working with Mr. Henry Wilcox on a building in Blue Ball, and was engaged about a window in the lower story, standing on the ground, while Mr. Wilson was working at the cornice upon a scaffold, on Wednesday afternoon, when a hatchet dropped from the hand of Wilcox and struck Wheat fairly on the top of the head, fortunately with the back of the hatchet. As it was, the blow was severe, and stunned him for a moment, but had the blade struck him, it would, at least, have made an ugly wound.—*Phelpsburg Journal.*

The contract for building an engine house for the Undine fire company of this place has been awarded to John Pacini. Mr. Pacini is a good workman, and will no doubt put up a good building.—*Dress-making done at Mrs. Dore's. Latest styles and perfect fit warranted, also dress trimmings, gimps, silk fringe, and real gypure laces just received.*

Who killed the big rat? "I saw H. Stone. With my little gun. I killed the big rat." And just keep on killing them, Hen, and you'll do the community a service. WATER pipes are being laid from Howard Street up Ridge Street, as far as the residence of Michael Morrison.—Phillipsburg is being lectured by a Mrs. Danforth, a returned missionary.

New buggies for sale by Mr. Quitten. They are beauties.—Try school books from Rankin.

PERSONAL.—HARRY MULLEN, local editor of the Cameron Press, called on us on Monday. He looks well, and is in good spirits over the "fili" prospects up in their county. Mr. HUSTON, a gallant old Democrat of Butler county, honored our sanctum on Monday likewise. He says the Democracy are gaining in Butler, and will, before long, rout out the entire growth of Radicalism. A. H. STRAYER, Esq., assistant Treasurer of Clinton county, paid us a visit on Saturday last, accompanied by a lot of Lock Haven boys who were up here getting beat at base ball by the Bellefontes. Ira C. Mitchell, Esq., was advised to address the Centre County Normal Institute at Rebersburg yesterday evening, and, we presume, did so. N. L. Atwood, Esq., will address the Institute on the 14th instant.—Mrs. W. S. Triplett sent us a pitcher of most delicious buttermilk on Thursday, for which she will accept thanks. It was highly enjoyed.

A BOYD HAMILTON, Esq., President of the Pennsylvania State Agricultural Society, was with us on Monday. Gen. JAS. S. BRUSHIN and wife left here last week for the far west. REBERSBURG, Aug. 31st, 1871. Editor Watchman: It may, perhaps, be of some interest to your many readers to know of the doings of the "Centre County Normal," now in session at this place. About seventy teachers are in attendance at present from different parts of the county. Two literary societies are connected with this school: viz: "Eureka" and "Excelsior." We were present at a public meeting of the "Excelsior" a few nights ago, and heard the reading of the paper *Excelsior Review*. It was well gotten up, and the subject matter good showing mature thought and untiring exertion on the part of the editor, Stevenson and Shadman, to make it a success. The reading might have been better, as there was too much style. "Yet to Come," addressed to the "Eureka" was good, every member receiving a full portion and in due season—elicited considerable merriment. On Tuesday evening the 29th, Supt. A. R. Horne, of Williamsport, Pa., lectured before the "Centre County Normal." Owing to the inclemency of the weather, there was not a general turnout, yet quite a respectable audience. The subject of this lecture was "The true order of success." Mr. Horne, in his lecture, stated that he intended to visit the beautiful town of Rebersburg, and to-night that wish has been gratified. His lecture was chiefly for the teachers attending the "Normal." He said, "what man has done, man can do again," and if we wish to succeed in life, mentally, morally and physically, we must launch out into the deep, and not always keep along the shore. He then cited cases of different kinds on the three topics, to prove his arguments. His remarks were keen and pointed, and were listened to with marked attention. Mr. Horne is one of the most pleasant speakers we have listened to for some time. Everybody was well pleased and no doubt edified. Long may he live. The next lecture before the "Normal" is to be delivered by the talented Ira C. Mitchell, Esq., of Bellefonte. We know that we will not be disappointed, but shall hear something from him that will do us good. SKEETATOR.

Buy your school books from Rankin.—Rankin sells school books.

MARRIED.—CANDY.—LEADS.—On the 20th ult., by Rev. Mr. Miller, Mr. W. L. Candy to Miss Mary Lewis, both of Marlon township, this county. The chap who handed us the above notice had added to it the following: "Highly, highly, you have met your fate into a man. Here are our best wishes for your future prosperity." HILGER—STINE.—On the 20th ult., at the Reformed Parsonage, Bellefonte, Pa., by Rev. M. Wolf, Mr. Wm. H. Hilger and Mrs. C. Lina Stine, both of Pleasant Gap. Business Notices. DID YOU HEAR IT? Oh! have you heard the story that all the papers tell, How fast Singer Sewing Machines, when made, began to sell? How Betsy Hard-please just bought one and is fully satisfied, Though all the other sewing machines he says it she had tried, She always had been troubled, as none of them would sew, Nor hem, nor fell, nor gather, because they run so slow. But when she got the Singer she found it was just right. For sewing, hemming, and stitching heavy goods and light. It sews with lightning swiftness, Catches, Bites and leather, Sewer box lids and shingles, a stitching them together. This wonderful machine is sold everywhere by the dozen, at Zimmerman Bros. & Co., Bellefonte, Pa.

BUTLER OF THE WAR PARTY.—General Benj. F. Butler, the bottled up hero, uncorked himself at Springfield, on the 21st ult., in a speech against his Republican enemies. He said that among other things would read in front of the Republican party was that fellow who ran away when he got John Brown into trouble, and would not even go and testify before the Senate of the United States in his favor. General Butler was here interrupted by F. A. Sanborn, one of the editors of the *Republican*, who asked of Butler referred to him? Mr. Butler—I do. Mr. Sanborn replied amid great confusion, "That statement is false." General Butler then yelled, "Why did you run out at the back door and leave your sister to face a man?" Mr. Sanborn attempted to reply amid yells of "put him out," "speech, &c.," the audience being wild with excitement, but Mr. Sanborn was finally refused a hearing. Butler asserted that the Hartford *Connecticut* maligned him because he displaced General Hawley from his command for inefficiency and incompetency. This last brought out Hawley in the following program from Hartford: If Butler in his speech said I was a coward as it is proved from my command I was a coward I asked for my conduct as a soldier and some friend to read this dispatch in which I say the charge is an infamously wicked lie, the man who uttered it a liar and a black guard. The last written communique from Butler concerning my conduct was very complimentary and his recommendation for promotion. J. R. HOWARD.

The chairman of the meeting refused to allow this defiant denial to be read, but we do not imagine that this parliamentary prohibition prevented its general circulation. The conflict deeper—what will be its next phase? Certainly more ink and wind—possibly some human character.—*Cosmopolitan*.

The Bellefonte Market. CORRECTED BY KEILER & WOOD. The following are the quotations of the market for the week ending, Wednesday evening, September 7th, 1871.

White Wheat, per bushel	11 1/2
Red Wheat, per bushel	11 1/2
Rye, per bushel	10 1/2
Corn, ears, per bushel	11 1/2
Corn, shelled, per bushel	12 1/2
Oats, per bushel	11 1/2
Barley, per bushel	11 1/2
Black-wheat, per bushel	11 1/2
Chick-peas, per bushel	11 1/2
Potatoes, per bushel	11 1/2
Beans, per bushel	11 1/2
Lard, per pound	11 1/2
Flour, per barrel	11 1/2
Sticks	11 1/2
Hams	11 1/2
Yellow, per pound	11 1/2
Butter, per pound	11 1/2
Race, per pound	11 1/2
Ground plaster, per ton	11 1/2

MONEY MARKET. DeHaven & Bro., 40 South Third Street, Philadelphia, furnish the following on the 29th instant: New U. S. 5% of '81 112 1/2; U. S. 6% of '82 115 1/2; U. S. 7% of '83 118 1/2; U. S. 8% of '84 121 1/2; U. S. 9% of '85 124 1/2; U. S. 10% of '86 127 1/2; U. S. 11% of '87 130 1/2; U. S. 12% of '88 133 1/2; U. S. 13% of '89 136 1/2; U. S. 14% of '90 139 1/2; U.
