## BELLEFONTE, PA., FRIDAY, SEPT. 15, 1871.

The California Defeat.

If the defeat of the Democracy in the contest for Governor in California last week will have the effect of uniting the party there and of preventing like divisions and squabbles elsewhere, then it will be a lesson that we cannot very well afford to unlearn. It has taught the Democracy of that State that it is not wise to quarrel, even if this year New year will occur on the their strength be ever so great or their past victories ever so glorious. In union only is there strength, and they are bitterly realizing now, when it is too late to remedy matters, that "a house divided against itself will surely fall."

> Had there been no differences among the Democracy of California, the unexpected and stunning defeat of the 5th instant, would not have occurred, and Gov. HAIGHT would have again occupied the gubernatorial chair. As it is, Mr. Booth has been elected by over three thousand majority, and the whole Radical party is clapping its hands at the result. For such a consummation the Democrats have only themselves to blame. They unwisely preferred to chaffer and bicker among themseives to meeting the enemy in a solid and invincible phalanx, and the result has been their ignominous and inexcusable defeat. To be sure, they had a large majority the last election, and of course felt certain of earrying this one. But this was a terrible mistake, as the event has proved, and is a solemn warning against all such folly in the future

> With the result of the terrible blunder of the California Democracy star ng is in the face, and warning us that the Democracy of this State will make renewed efforts to prevent a sim ilar re-ult here. To all such warnings we ought to take good held, and thus even from the nettle danger we may plack the flower of safety. There is danger in over confidence, and we must not allow ourselves to become the victims of self delusion, as did our California brethren. We have four prospects of carrying Pennsylvania this fall. We believe the people are with us, and we have an unexceptional ticket. Nevertheless, we have no right to sit down at our ease. We norst work "from early morn till down eve" for the success of our principles and our candidates, and in this way we will not only achieve but we will de serve success. We must not depend solely on the strength we have shown heretofore. "The battle is not to the strong alone, but to the vigilant, the active and the brave " Let us by the vigilance of our efforts, the activity of our movements and the boldness with which we charge the entiny, redeem vania in the van with those States that will cast their electoral votes for a Democratic President in 1872.

### Captain Cooper.

It will be remembered that a Captain Cooper was proposed last winter as can didate for the position of Sergent at arms of the State Senate. 4114 oppos nent was the notorious Wm, J. Ovenaccused of the murder of Captain Bid dle, of this city. The contest in the Senate was very sharp, because many of the Radical Senators could not well relish the idea of casting their votes for a man whose hands were stained with human blood. During the de bate one of these Radical Senators, Hon, Harrison Williams, took up the fight for Captain Cooper, paying him the following high tribute -

"I know the gentleman (Captain Cooper) well; I know that he was a rue and faithful soldier in the war following all its successes and misfor tunes, and is one of the best voing men the State can present. No Dem oer $\hat{m{n}}$  can do himself injustice -no Republican can do himself injustice by oting for as deserving a young man as

The same Captain Cooper is now running on the Democratic ticket fo Surveyor General of the State, and it is a mark of his merus that his of ponents in political belief should have paid him so high a complument. Such words coming from a Democrat might have been attributed to political bias. Not o from a Radical; they were the forced acknowldgment of real worth and brilliant services. That they were then true, the speaker and every one else believed. If true at that time, they are equally true at the peacnt; and it no Republican could do himself in justice by voting for him then, neither can any Republican do himself in justice by voting for him" now . It the Hon, Mr. Williams is consistent, he holds the same opinion now that he did then, and "can do himself no inmatice ' by supporting Captain Cooper. smeathe latter is still the same. I one of the best young men, the State can present," and his name is still recorded is a true and futlifut soldier

A Contemptible Trick.

The Radical party is the meanest organization under the sun of Heaven. To accomplish its ends at will do anything. It has neither honor, principle nor manliness, and stoops to the lowest and basest frauds. Not content. with foully and falsely misrepresenting, with deliberately slandering and purposely traducing the Democratic party; not satisfied with airsving unconstitutional laws against it and usurping the functions of a initiary despotism to defeat it; not content to fight a frank and manly adversary with traud and til-chood and force, the radical party has been driven in its extremity to use a most disreputable trick to make small capital for the fall campaign, It is nothing less than the getting up and circulating of a paniphlet (to which we alluded list week,) pretended to be written by a Democrat to Democrats, entitled "Concession: or How the Lost Cause may be Regained, and the Independence of the South Secured.' Though the pamphlet was anony mous hints were thrown out by radical press and partison that ALEXANDER H Ste-PHENS, of George, was the author of it. This coming to the knowledge of Mr. Sterners, that gentleman indignantly denied any knowledge of it whatever Since then the impression has been sedulously conveyed that it was a Democratic campaign document, and was a true expose of Democratic deeighe.

That the thing was gotten up by radicals and in radical interest, is proen by one fact at least, and that is that its circulation has been confined principally to members of the Radica party, and in those States where prejudice against the South and tears of a new rebellion are most intense and wide spread. It was intended for such tools as believe. Morton's unblushing talechoods, and serves to confirm his mendacious statements and ribald ut

We guesă he would make rather a good officer if elected, but, unfortunately for him, hipolitics are tinctured too much with darkevism for that. The people of Ly compare county are always willing to recognize merit, but they like to do it distinct and apart from negroism. Hence Mr FURST cannot succeed against Mr. HINNAN who is the canlidate of the white man's party and the representative of correct political principles.

### The Monster Slaughters.

We commend the following article trom Pomeroy's Democrat to the At rearrow and perusal of parl<mark>road co</mark>mpames everywhere. The wholesale hour ders that have been commuted on rail r and lines recently have roused the indignation of the people, and the law has been appealed to for the punish ment of the murderers and the protection of travelers. Something must and will be done to compel railroad and steamboat increopelies to put s greater value upon the lives of their passengers. The paper alluded to thus comments upon the fate fearful disas-

sichusetts, following so cruelly and rapidly after the steamboat explosion in the bay of Mobile, and that which has made one of our city docks a haunted place and filled so many

hearts with mourning, startles the country with an appeal that no ear can turn away from with indifference. Has God deserted this people, or have this people deserted God

NO. 36

This people have deserted God. The age is full of the miracles of crime, for crime has its prodigies as

well as religion. But how long is this reign of subtle misery, of blasting sin, of wholesale murder to be endured?

Who is it that takes the parent from his family, grabs his money at a ticket-office, and then shricks him down the rails to death?

Wealth is no crime; but when wealth excites to greed of greater wealth, it becomes a monster powerful and willing to destroy, if out of detruction, and out of the current of the slaughter, there may ooze to the sur-face the gory cream of profit.

Let all stand equal before the law, and let the law fall like rain upon the just and the unjust, to protect the one and pumeh the other.

In the midst of a wilderness of pubhe wrongs and outrages, the outrage done by railway and steamboat managers stands prominent in horrible enor mity, and if Goteshhent cannot gest a remedy, the courts must pro vide a punishment.

### Another Falsehood.

How the Radicals have Paid the State Debt?

\$15,000,000 INCREASE IN TEN YEARS.

The Pittsburgh Post most effectually disposes of the pretentions claim made by the Chairman of the Radical State

Committee. It sava . "The public debt was not \$40 000,000 on round numbers 1861. The Auditor General's report to Governor Packer for that year puts it at \$37,968,847,50 gainst this was a sinking fund of \$10,982,000, leaving the actual indebt edness of the State on the 1st of January, 1861, \$26,088,847,50, or some

\$14 000,000 less than Mr Errett alnges, and some \$3,000,000 less than tis now, after ten years of Radical "But our financier stops several leagues short of the truth in the expo-

sition. If he will call upon our affa ble friend, the Hon. R. W. Mackey, State Treasurer, he will find at the close of the last fiscal year the State debt of Pennsylvania was \$41,116,640, 60 instead of \$29,000,000, and this, too, after deducting all sinking funds. He will also find out several other things worth publishing.

"Among other things he will find that in the matter of einking funds

alone the people of Pennsylvania have been robbed during the past ten years to the time of \$14,834,762,29. We propose to demonstrate the Jact. During the past ten years the State Governhas desposed of the public works, wor h to the State \$35,090,083,91, for vincl. it realized the sum of \$11,254, 321.62, and which was carried to the sinking fund for the evident purpose of showing a reduction of the debt.

But even that amount, added to the ten millions of sinking fund of ten ears ago, and abstracted from State debt, leaves it three millions greater than it was under the last Democratic administration; or, in other words, the State debt has in creased about fitteen millions of dollars in the last ten years, or at the rate of a million and a half per year, which is the actual increase of the State debt for the past year, as will appear by inspection of the books of the State Treasurer and the Auditor General."
