ASLEEP.

BY MRS MATTIR I PURFY.

I've kissed the dark fringed eye lids down, I've soothed thee into quiet sleep.— Thou cans't not gently chide, nor trown— So I a loving watch will keep

So sleep, beloved, in that soft rest
"That knits the rayeled sleave of care,"—
No cankering thought disturb thy breast,
Or wake the deep peace slumbering there.

Ah, in that myetic, Lotus land, Where thy proud spirit wanders free, Feel'st thou no soft detaining band? Comes there no glimmering thought of me

No dream of what our lives have been-No faint perception stealing in Of all thou art, my sweet to me?

Would I could look upon thy heart, And read in letters warm and clear, Whose the loved image set apart To thee of all the world most dear

Sleepon' ab, no, awake, awake' When I no longer see thine eyes Such sad thoughts into being break, And all my life in terror dies

I fear thou hast no love for me, Like that which burns within my heart, And in the years that are to be, Our livey will slowly drift apart

Yet now give th' assuring sign, Tell me in words that I am dear,— Dispel these torturing lears of mine--How cans t thou sleep when I am near

Robbery all Around.

On Tuesday, the 29th ult., Governor Warmoth, of Louisiana, (he who was expelled at the point of the bayonet from the Custom House republican convention), suspended Secretary of F. J. Herron his successor until the tained a thousand butter curses, meeting of the legislature. Bovee 10 It established negro suffrage ! meeting of the legislature. Bovee re-tused to surrender his office to Herron, and was, in consequence, forcibly ejec

ted by the police.
The reason of Bovee's suspension is that Bovce is charged with having promulgated, as a law, a bill known as ne Cresent City water works bill which never became a law. This bill had, no doubt, been got up by the roosters of that region, in the hope of making a good thing out of it. Hav-ing failed to become a law, the Secre tary of State seems to have had an un derstanding with the roosters, and promulgated it as a good enough law to suit their purpose. Whilst the ex-pulsion of Bovee by the police was Whilst the exgoing on, the city council was not idle. They were in session at the City Hall passing an ordinance leasing the city water works to a company for twenty five years, and authorizing the mort-gage of the works for \$2,000,000. This must have been a stupendous swindle for, in the course of the discussion Administrator Delassize (colored), pro luced a certificate for 1.000 shares of stock of \$100 each, which he said 'had been given him to vote for the meas Administrator Walton said be had been offered a sum which would make him independent for life to support the 'measure,' and Mayor Flan lers shil that every member of the council had been approached and that he had seen \$100 000 offered to one of them. It was believed that the ordi nance would pass.

Thus it appears that bribery, corruption and robbery are as rife in New Orleans as in any northern city under the influence of bigh moral ideas The carpet baggers seem to have proved good teachers and their sable pupils apt scholars. It must, however, be said to the honor of Mr. Delassize. ceived a bribe of ten thousand dollars in stock, he triumphantly exhibited the prize, as evidence of his honesty or will see that the republican legislature for the encouragement of new begin las imposed additional duties upon there in the noble career of city legisla tion. But it is not in New Orleans alone, but in every city and State of the South, where the power of the carpet baggers and negroes preponder ate, that the most stupendous robber ies and frauds are perpetrated. So much so, that if these villainies are anything more to rob. Such are the bitter trials of republican reconstruc-

If we turn to New York, where nine tenths the import duties of the country are collected, we find that the merchants there are blackmailed to such an extent by the custom house officers that the Chicago merchants find it cheaper to import their goods directly through the Canadian port, Mortreal, than to purchase in New York! If we cast our eye in the direction of the internal revenue service, we find that its col-lectors are defaulters to the amount of upwards of two millions! It we direct our attention to the Post Office Department, we discover that the expendunges of that department are ten times as great as they were ten years ago! If we look in upon Congress, we see an indiscriminate pillage of If you find your name is not on the millions upon millions of acres of the list, go yourself to the assessor, and make | people's lands, divided between corrupt your claim to be put on He is bound railroad corporations and the members to add your name. General Kilpatrick, who is now stumping this State for the Radical ring, trying to fool voters into the sup port of Stanton and Beath, was a can lidate for Governor before the Radical Convention in New Jersey, which met at Trenton on the 6th inst Of three candidates he had the distinction of being the lowest. Some very uncomplimentary things were said about him by the friends of other candidates, and judging from the poor show he made, these things must have been generally It was alleged ---

That Kilpatrick oneo ran away from the Confiderate General Wheeler at 5 o clock in the morning with nothing on but his shirt, and that on his left arm, also, that Kilpat rick introduced into the Chican court a woman of indoubted reputation as dethat when the telegram of the death of Kilpatrick's first wife reached him it found him in a house of its lange.

A delegate named Hoxie tried to de tend Kilpatrick, but he was cried down by 'cat calls' and yells of 'nomina tions' After the nomination had been made, however. Kilpatrick was called on for a speech and he made a brief one, in the course of which he said the thought it a shame and reproach that a soldier was not allowed to vin icate himself before a convention of his own party, when his moral char acter had been assailed by the mem

The Escape of Evens.

Through the shameful negligence of State Treasurer Mackey and ning of Attorney General Brewster, Evans, the embezzler, has been allowy ed to escape.—The officer who was sent to Albany with a requisition from Governor Geary procured the necessar v documents from Governor Hoffman, but has returned to Harrisburg without his prisoner. Evans could not be found in New York, and it is general ly supposed that he has left that city Officer Hoopes thinks that it is uscless to search for Evans any longer, but we trust that the State Treasurer and Auditor General do not share in that opinion. It is quite possible that a vigi lant detective of New York could find him. Mr. Mackey should not give up

the search so early. This is the second step in the dis graceful transaction. It is the duty of the State Treasurer to have caused the arrest of Evans when he came to Harrisburg boasting of his rendiness to set tle, nearly a month ago. But through delays which must now be regarded as intentional, Evans has been allowed to get away. The State Treasurer was urged to make the proper information immediately after the embezzlement became known, that Evans might be arrested, but he feared to take the responsibility of doing his duty. Mr. Mackey deliberately waited until the embezzler had got beyond reach before

Is it possible that the Radical State officials have connived at the escape of Evans for fear of exposure? The other It attempted to corrupt the ballot day the State Journal made the significant menace that if this Evans prosecution were persisted in, other corrup tions of radical leaders would be mev exempted the rich man's bonds tably uncarthed. - Has this threat had so complete an effect as to paralyze the treasury ring, and save Evans from

their grasp.

It now remains for the people of the Commonwealth to take up this case where the radical officials have left it If Evans cannot be found, it may be possible to bring other with a ses before the next Legislature, who will reveal what they know concerning this con spiracy against the State. There is not the slightest hope that the radical otherals will make any further effort to arrest Evans and recover the money On the contrary, there is only too much reason to believe that they will do their utmost to stifle investigation. Stanton in the office of Auditor Gener al and Mackey in control of the treasury, the people may as well abandon all hope. These men are both crea tures of the ring, and the ring dare not push this investigation, menaced as they are themselves, with exposure of their own official corruption through a long series of years. On a democratic Auditor General, who has no offiliations with the ring, and on a democratic legislature, who will drive them from the treasury, the ple of Pennsylvania inust depend the protection of their rights and the security of their finances, - Harrisburg Patriot.

If I am not misinformed, you among others, have been at work recently as sailing and slandering me personally by letters to individuals and otherwise charging me with corruption, maincerity and so forth.

I accept the implied challenge to ventilate the question of personal sincerity and honor between us, so far, at least, as the good of the temperance cause may demand. And now, with out needless words, I propose to proceed to business at once.

After this exposure it will be readily understood why Rev. P. Coombe and General Owens are so much opposed to the independent movement on the part of the Temperance men.
