Work! Work! Work!

You cannot expect victory without labor. You have made a good ticket but that ticket cannot be elected unless the vote comes to the polls. The vote cannot be got to the polls without some effort being made to get it there, Now, we advise the Democrats of the county to go to work right away. Do not wait for anybody to tell you what to do nor how to do it, but begin at once by organizing your respective school districts and townships and boroughs. This can be easily done, without much individual labor, if the robbers and negro worshipers who the work is divided and at little expense. In each school district let there be a sub-committee appointed to see that degrading vonwith the most villianous every Democratic voter gets out to the polls on day of election; and at the same time have a general committee, for each election district. The charges made against the leaders of the Republican party, alleging that they have been, and are still stealing the public funds, destroying the public domain, and corrupting people every one knows to be true. There is not a paper comes to us, that does not unearth some new fraud, or charge, and truthfully, some new theft of twenty, thirty, lifty or a hundred millions of dollars. Evans has been permitted, through the duplicity of a epublican Governor, Attorney Gener al, Auditor General and State Treasurer to escape the strong arm of the law, and flee the hand of justice. The Way it Works.

In 1869, the Democrats upon a sound democratic platform carried Cal-ifornia by 8091 majority. They had two out of the three members of Congress, and in the State Legislature had a majority of 72 on joint ballot. This year, the burnt cork democrats con trolled the State Convention; passed new departure resolutions, and the Republicans have carried the State by about 5,400 majority, elected two our of the three Congressmen, and will have on joint ballot in the Legislature 34 majority, thereby securing the election of a reguldican to succeed Cole in the U.S. Senate.
In 1870 the Republicans carried Manne (* 950) majority, the demo

crate fighting the campaign on a democratic plutform; this year they carry the State by about 11,000 majority, the democrate standing upon a new depart ure platform.

The above figures speak for themrelves; comment is unnecessary,-Jeffersonian.

Appended we give a partial list of the thieveries of Radical officials, and commend it to the careful consideration of every taxpayer in the land, who is compelled to give a part of his earnings to make good these stupenduous robberies. Of course, this only includes a very small part of the thefts that have been committed, and we give only those which occur readily to our recollection. The list may be indefi nately extended and the sum total of defalcations and open robberies would reach a hundred millions before the end of Radical official corruption would be reached.

The Radical press makes a great ado about frauds in the New York city government. Granted that all the alledged frauds have occured, they at fect only the people of New York em, while those appended affect the caure country, and impose additional burdens upon the tax ridden people of every State. The following list of frauds, de falcations and thefts are certainly suf ficient of themselves to array the people against the Radical leaders, who have connived and assisted in them and now protect the plunderer-
