THE NOVELTY CLOTHES WRINGER!
 Nothing, except the Sewing Machine has ever been invented which so much facilitates the labor of the household as the Wringer. But its usefulness does not end here. The saving of clothing is greatly increased by its use. It is often remarked that articles of fine texture last twice as long when wrung by a Wringer as when wrung by hand. The Wringer has been sold on both ends of the globe. It is allowed to separate so freely at either end. There, besides other advantages, which it contains, seem to be so indispensable to a practical wringer.—New York Independent, The New York Wringer—Has become an indispensable institution in thousands of families. And we believe its great and increasing popularity is fully merited. Its use, and its evident possession all the requisites of a first class, practical machine, and after using one for many months in our own family, are prepared to endorse the Novelty as unequalled (the Laureates says unequaled) by any of the several wringers much used. It was first shown at the World's Fair, New York, 1853. It was sold by N. B. PHELPS & CO., General Agents in Chamber Street, N. Y. 16-35-70
