"All Hail "Old Centre."

The official returns of the election n this county, given in connection herewith, will rejoice the heart of every Democrat within it. Never in the history of our county campaigns, has the fight on the Democratic party and its candidates been as bitter, ina lignant or determined -never has the enemy tought with the same desper ration, as in the gue that has just closed. When we remember that the Radical County Committee and its can didates expended over two thousand dollars, to bribe, buy, and bring out votets when we recollect the mean little tricks they resorted too to keep voters away from the polls, the con temytable Hearthey circulated, the per sonal abuse of Democratic exididates the lakewarm support the ticket re ceived from would be leading democrate, because of the r personal dislike of some of the condulates, at is to be won bire lat, that the Democratic in a tority was not decreased in place of increased.

The returns do day show a demo cratic gun over 1869, of 143, over the State election in 1868, of LiS , and over GRANT'S of 288. Had every county in the State done as well McCondition and Cooper would have filled the positions that Cavernos's tools have been cho-en to fill and our people could have represel over the fact of having honest men to take charge of two of the most important offices in the

War's we do not suppose the linut. ng up of fraudalent votes in this county would change the result of the election in anyway, yet we believe it to le a dury the Democracy owe, not only to themselves, but to the people guerally, to leret out trand and expose the per petrilore. In quite a number of me stances that we know of in this county, the most barefaced rascality was practical by radical election bounds

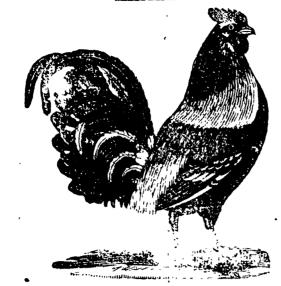

In Worth town-top, the vote of a school master whose wife and tamily are resolents of Bedford county, was taken for the radical ticket. In the same towbship a scan by name of Cowher who had removed from the State slost his citizenship and return ed but a few days previous to the election, was allowed to vote, and in the North ward of this borough, the votes ortho Germans, neither of whom hav resided in this country long enough to secure citizenship, and neither of whom have ever made application for Latur. alization papers, were both received by servative Republicans of the State have mob were arrested. The sliating rink the Radical election board. These are swept the State by the magnificent man after two or three days of intense export the pall, and touches to living loveliness but a few of the instances,

If such palpable violations of the election laws, are to be passed unno ticed and unpunished, we would like to know what is the use of such laws,

This is not the first time such offenses have been sommitted in this counis by radical election boards, and we do hope, and meist that the chairman of the Democratic County Committee. will see to it, that the violaters of the law are properly punished, and an example made that will deter others gressional fraud and federal bayonets. ne repre hereafter from a repetition of these of-

Are These Things 80?

A cottage worth \$20,000 was prepared for Gen. Porter, the Preside pared for Gen. Forter, the Fresident's confidential private secretary, at Long Branch, by Murphy. Large supplies of liquors and cigars were at the same time forwarded to the White House at Washington by different members of the Murphy ring, but baid for mostly by Murphy himself. These luxuries ere sent to Grant and Porter and Babcock. Just now a plan was but upon by Murphy, in consultation with two real estate speculators in Long Branch property-both Democratawhich proved a fortune. It was to buy a lot and build a cottage for Grant at a point adjoining their property. If he accepted it, and they knew that he would, two things would be accomplished. The fact that the National Executive Mansion would be estab lished at this place during the sum-mers would greatly enhance the value of all the property at the Branch, and especially that surrounding the President's residence. The other point to be gained, if Grant accepted the house and lot, and they knew that he would was that it would place him under special obligations to Murphy, who was to be known for the time being as the sole donor. This would settle the matter of the custom house and secure it to Murphy. The cottage was not long in making its appearance. It cost Thomas Murphy \$10,000, John Hoey \$10,000, and John Chanderian \$10,000. Murphy was then a Tam many office holder and owner of a cot tage and a large amount of real estate at Long Branch. Chamberlain is a shrewd man. He argued thus: "Grant seasons fond of horses and races. I will invest in his cottage and build a race course at the Branch. My property there will increase in value if Grant goes there, because he will carry a large crowd with him. Besides, the class who follow him, such as Ingalls, Nesmith, and others, like to fight the tiger, play poker, &c.
