#### No Defeat.

The result of last Tuesday's election cannot be considered a Democratic de-The Republicans to be sure carried the State, but not against the Democrats. The Ninth Resolution of the Harrisburg Convention which a few corrupt Democratic politicians, at the instance of Republicans, succeeded in having passed by the votes of seventy-six men, sealed the fate of McCandless and Cooper, and left to the true and honest Democrate of the State a choice only between two evila. The defeat of the State ticket cannot and will not be considered a cause for re-

gret by a single Democrat in the State. The loss upon the county ticket, by which the Radicals obtain control of the Senate and increase their majority in the House, is the only thing that will cause grief. This to be sure was to be expected, because the party was so thoroughly disgusted and disheartened that it was impossible to bring them out to the polls, notwithstanding they knew that the next legislature would apportion the State into Congressional Districts for the next ten years. The result instead of being dis- the truth. ouraging is decidedly encouraging, for it demonstrates clearly and plainly that the good old Democratic party is as firm ly as ever attached to the teachings of Thomas Jefferson and our democratic institutions. It shows that the Democracy of Pennsylvania cannot be sold out by a few dishonest and truck ting politicians of the enemies of free government, and that hereafter, as heretolore, they will fight upon prin-ciple or not at all. Away with expediency and its advocates. Another good result which must necessarily flow from the defeat of the New De-parturists in this State and Ohio will be the unanimity of sentiment in the next general convention. No such odi ous and anti democratic dootrines as this negro departure will ever hereafter be heard of.

Another benefit to be derived will be the retirement of our political leaders who brought this disgrace and seeming defeat upon the party. For some time past our leaders have been an incubus upon the party. They could not command the confidence of Democrats, nor the region of Permitter and the region of Permitter nor the respect of Republicans. They staked their all upon this New Depar and ignominiously failed, and must now retire to the rear ranks and let more honest, more honorable and more competent leaders take their places Unless this is done; unless we have new leaders before the next campaign Grant will be the next President

We must have a thorough and com plete reorganization of the Democratic party of this State if we wish success For years past the party has been led by fourth rate politicians, and it is now time for our best men to come forward and direct our movements.

Upon Democratic principles, led by true and honest Democratic leaderwe can carry this State by at least 30 (30) majority. We could have done it this year had we had a Democratic plat form to stand and work upon.

Down with our present leaders! Down with regro suffrage !

Down with the so called 14th and 15th amendments! Down with that bald, naked and brazen he which the last clause of the 9th resolution contains! And up with the Constitution! Up with State Rights!

And up with Civil Liberty, and Lo cal Sell Government

New leaders and Democratic principles will in 1872 insure. Victory -- Jef

fersonian.

Among the many sermons de livered last Sunday whereof the Chica go fire was the theme, that of Henry Ward Beecher contains the following characteristic paragraph:

Oh for a diamond pointed pen to catch up all the sweet truths, the noble self-sacrifice which this fire has brought to light! What heroic acheivements! More than we know not more than angels chronicle. Let wa-te no more time over Chicago. She is not dead but sleepeth. Hope is characteristic of that community. Manhood is struggling up in Chicago to day. Men are digging through hot ashes to lay not foundations. Is not manhood better than gold? This spec tacle is making the country rich; and oh, the nobte example of love! The Queen of England, from her imperial throne, flashes an order to Canada to empty the storehouses of blankets and send them to Chicago. That touche my heaft. There is more in those blankets to bind Canada and Great Britan to our hearts than all England's muskets and shipe of war. In our late war there was some feeling arous ed between England and this country. She has touched the other side of the chord. The city of London gives one thousand guiness from its treasury. That k God, there is one city in the world that's got one thousand guineas to give whose treasury is not com pletely empty. Churches and theatres combine in the noble work. God bless the theaters! The whole world is marching to one time; the drum stops, and the heart of love beats, and that's the music we are marching to to-day

-We are told that the following telegrams passed between two Radicals on the day of election. A candidate on that ticket telegraphed to a friend in Qual-ertown, "Doctor, the Irish and Good Templars are playing the devil with me here-work" To this the Doctor replied: 'The Dutch and the negroes are playing h-ll with you A pretty good joke as it

Many sensational, exag gerated reports have been published through the press, sent by special correspondents and not through the Associated Press, which have not the remotest foundation. One report states that the wooden pavements of this city were entirely consumed, and served towards feeding and extending the fire. Nothing could be further from

ng excellent advice. There is much

human nature and good sense in it: "Harmony in the married state is he very first object to be samed at. Nothing can preserve affection uninterrupted, but a firm resolution never to differ in will, and a determination in each to consider the love of the oth er as of more value than any object whatever on which a wish has been fixed. How light, in fact, is the sac rifice of any other wish when weighed against the affections of one with whom we are to pass our whole life! though opposition in a single instance will hardly of steelf produce alienation. yet every one has their pouch into which all these little oppositions are put; while that is insensibly going on, and when filled it is complete. It would puzzle either to buy why, be cause no one difference of opinion has been marked enough to produce a seri-ous effect by itself. But he finds his af fections wearied out by a constant stream of little checks and obstacles Other sources of discontent, very com mon, indeed, are the little cross our poses of husband and wife, in common conversation, a disposition in either to criticise and question whatever the other says, a desire always to demon strate and make bon feel himself in the wrong, especially in company. Nothing is so gonding. Much better, there ore, it our companion views a thing in a light different from what we do, leave him in quiet possession of his views What is the use of rectifying him if the thing be unimportant, and if important, set it pass for the present, and wait a softer moment and more conciliatory occasion of revivirg the subject together is wonderful how many persons are rendered unhappy by inattention to these little rules of prodence

NARROW Escape. - Wednesday morn ing last Donald, Senator Petrikin's four year old son, rose early and descending to the yardlin some way fell through the opening of the cistern As the latte fellow rose above water he called to the servant girl to bring the bucket, and thus gave notice of his danger. His lather bearing his cry ran down stairs and jumped into the cistern, caught the little fellow by the foot as he sank for, what would other wise have been, the last time water in the cistern was about four and a half feet deep, so that nothing but the boy's presence of mind saved his life as no one seen him fall into the cutern. When rescued life was almost extinct, but we are pleased to be able to record that he is recovering The Senator was none the worse of his early bath - Huntingdon Monitor.

-A telegram from Washington states that William H. Webb, Esq., the shipbuilder and steamship owner, of New York, had an interview with the President in regard to the shipping interests of the United States Mr. Webb thinks that unless Congress shall do something at the next session to aid stemm a congation, every. American line will have to give way to a British line within a year. Mr Webb might have gone further and said, that unless Congress shall relieve our ship interests of some of the burdens the Radical party has placed upon them, their entire expulsion from the ocean is only a question of time

-President Grant is taking measures to secure his re-election. A disputch troin Washington states that married has is to be declared in Sou h Carolina, Georgia and Alabama, and that arrangements are already made to send a strong inilitary force into those States. The threat is made, that if the people show a "refractory spirit," thousands of them will be arrested by the troops, and held for trial before military commissions. The "ku-klux" is made the excuse for this violation of the people's ights, and infringement of the Constitution, but tyrants always need an excuse for d spotte sets. A poer one is better than none
