THE COUNTY FAIR. -Owing to the press of political matter, we have not heretofore been able to say anything about the County Fair held on the 3d, 4th, 5th and 6th instant. The exhibition, we are sorry to say, was not an extensive one, although creditable so far as it went.

The show of stock was not large, although there were some tolerable good specimens. Among these was a mighty bull, exhibited by "Judge" Liggettthe largest, we think, we have ever seen. He was perfect enormous. There were some fine pigs, horses, cuttle, mules, sheep, various breeds of chickens, &c , but not nearly so many

as there ought to have been. The display of grains, fruits, vegetables, big pumpkins, &c., was rather good, and attracted considerable notice That department showed that Centre county is not to be excelled in this sort of thing | Finely developed wheat, rye, oats and barley, with splendid apples, magnificent corn, &c . &c . did credit soil from which they sprung.

In the miscellaneous and fancy department there were quite a number of others, a quilt of 380 pieces and two way of going to Tyrono or Lewisburg, thread tidies, made by a little girl in and Bellefonte can bang its barp on thirteen years of age - who has had the that will have departed never again to use of only one hand for over two years return These, we learn, drew a premium of three dollars. It will suffice to say, however, that while a warm reception from his numerous the exhibition was not as comprehensive nor as grand as it should and might have been, -t was nevertheless varied and interesting

The weather was delightful. On Tuesday morning it rainer just enough to make it pleasant, afterward the skies were of Italy sown blue, and until the thir closed, there was not a thing to mar its success or pleasure. WIN DON'T THEY GO AHEAD ?-We emember some three months since, at the time of the "hitch" in the building of the L. C. & S. C. R. R., how valliantly and determinedly the Snow Shoe company met, passed and had published a resolution pledging itself as soon as work was begun on the main line of the Pennsvalley road, to push ahead the building of the branch from this place to the intersection. It is now almost two months since the first gang of hands went to work near Spring Mills, and since then the grading of that road has been pushed along with energy, and yet not a word from the Snow Shoe company about going ahead with their part of the work Why is this thus? To the business interests of Bellefonte, as well as of the entire county, this is a very important question. Let the building of the branch road from this place to the intersection by delayed until the other road is finished, and the entire business of Ponnsvalley will seek and find a channel to other points, that will not to our farmers and honor to the honest only ruin this place, but take from our county all the benefits that are to be derived from a commercial centre and business operations within itself.
