I WAS ASTONISHED

SAYS A FATHER WHOSE CHILD WAS CURED BY HOOD'S SARSAPARILLA. Children often suffer greatly from impure blood until a good medicine like Hood's Sarsaparilla is taken to expel impurities and give vitality. Parents should read the following statement: "I think it my duty to tell how much good Hood's Sarsaparilla did my little girl. She was from birth puny, pale and sickly, and did not gain strength as she grew older. Even when 3 years of age she could not stand alone. She was hardly anything, and seemed to be weak constitutionally, but was doubtless kept back by impure blood, which caused her much discomfort and suffering. She had scald head terribly, her head being covered with one sore. One day I read in Hood's Item of a remarkable cure of a child by Hood's Sarsaparilla, and I decided to try this medicine. To say that I was astonished at the effect the first bottle had upon her would be a mild way of expressing my feelings. Her appetite began to pick up, and soon we could hardly give her enough to eat. She also gained strength, could stand alone, and the sore on her head began to grow less. We soon healed this up with Hood's Olive Ointment, and when she had taken three bottles of Hood's Sarsaparilla she could run about the house as smart as any child. She has been bright and healthy ever since. I write this out of pure gratitude to Hood's Sarsaparilla." E. T. Alexander, 28 Cleaves St., Portland, Me.

JUST DO YOUR BEST.

The signs is had when men commence A-finding fault with Providence, And talkin' 'cause the earth don't shake At ev'ry prancin' step they take. No man is great till he can see How less than little he would be, If stripped to sell, and stark and bare, He hung his sign out anywhere. My docters is to lay aside Contentions and be satisfied; Just do your best, and praise or blame That follows that counts the same. I've allus noticed great success In mixt with troubles more or less, And it's the man who does the best That gets more kinks than all the rest. —James Whitcomb Riley.

Ages of European Sovereigns

The issue of the Almanack de Gotha gives an interesting table, showing the ages of the reigning sovereigns of Europe and the duration of their reigns: "Omitting the small German states, the oldest ruling prince is Leo XII, who is 79½ years old, and has reigned nearly 12 years; next comes William III, king of the Netherlands, 72½ years old, having reigned 40 years; next Christian IX king of Denmark, 71½ years old, with 23 years of reign, then Queen Victoria, 70½ years old, with 52 years of reign; Karl I of Wurtemberg, 66½ years old, with 25 years of reign; Fredrick, grand duke of Baden, 63 years old, with 38 years of reign; Albert king of Saxony, 61½ years old, with 16 years of reign; Oscar II Sweden, 60½ years old, having reigned 17 years; Leopold II king of the Belgians, 54½ years old, having reigned 54 years; Louis grand duke of Hesse, 52 years old, with twelve years of reign; Charles, king of Romania, 50½ years old with 23½ years since the beginning of his government; Nicholas, prince of Montenegro, 48 years old with a reign of 29 years; Abdul Hamid, the sultan, 47 years old, with 15 years of reign; Herbert I king of Italy, 45½ years old with a reign of nearly 12 years; Alexander III, Russia, 44½ years old, with a reign of 8½ years; George, king of Greece 44 years old, with a reign of nearly 26½ years; Otho, king of Bavaria, 41 years old; William II German emperor, nearly 41 years old, with 15 years of reign; Carlos I, of Portugal 25 years old, two months of reign; Alexander I of Servia, 13½ years old, 9 months of reign; Alfonso XIII, of Spain 3½ years old, with 3½ years of reign.

Chesapeake Bay Shad in Plenty on the Fish Dealers' Stands.

Among the peculiar antics of the present winter is the extraordinary effect produced upon the fish business. A fish dealer said the other day that the weather has pushed the fish season ahead of time just about six weeks. "We do not look into the air," said he, "for flying birds to tell us whether the first shad or other warm-weather fish is the harbinger of spring. About the latter part of the year we are ready to handle tailors, spots, Spanish mackerel and trout. This month we have had trout that were caught in the Rappahannock River. They usually come about April. We have been getting shad from the Chesapeake Bay that are at least six weeks ahead of time. We got some from North Carolina that should, in the regular course of things, have come next month, and since last Friday we had 5000 shad from Florida. At this time of the year we ought to be selling lake fish from the West, but we are not, as the others are taking their places. Rockfish, our mid-winter fish, of which we usually have a good supply, are extremely scarce and high in price, retailing above the price for salmon. Oysters are not in so great demand as when the weather is cold and prices are low.

Please Leave the Other Rubber.

At sixteen minutes past one o'clock each morning, after the last cable car has run on the big bridge, an interesting ceremony takes place at the New York terminus. A man with a lantern goes carefully along the track looking for valuables dropped by passengers in entering the cars. The big six o'clock rush, of course, furnishes the bulk of this flotam and jetsam and sometimes the "find" is very curious in character. All the night men gather about to look on and crack their jokes, and see that the searchers does not get hold of some treasure in which they are not invited to share. There is always something found. Handkerchiefs, gloves, pieces of jewelry, sometimes a pocket-book, sometimes the hat of an inebriated individual, lots of cigar stumps and newspapers, and, if it happens to be the end of a rainy day, a various assortment of rubber overshoes, no two alike. mute witnesses to the hasty struggle that took place seven hours before. I asked one of the bridge men if they were ever known to find a pair of rubbers. "No," he said, "and that's the joke of it. It is always odds you find. If the people would only have some regard for us when they drop their galoshes we might set up a rubber store here and make our everlasting fortune."

Confusion arises occasionally when a year like 1900 is discussed, as to whether or not it is a leap year. This is the rule: Every year of which the number is divisible by 4 without a remainder is a leap year, excepting the centesimal years, which are leap years only when so divisible after suppressing the two zeros. Therefore, 1600 was a leap year, 16 being divisible by 4 without a remainder; and so 2000 will be a leap year. But 1700 and 1800 were common years; and so will 1900 be, because 17, 18 and 19 are not divisible by 4 without a remainder.

One fact is worth a column of rhetoric, said an American statesman. It is a fact, established by the testimony of thousands of people, that Hood's Sarsaparilla does cure scrofula, salt rheum, and other diseases or affections arising from impure state or low condition of the blood. It also overcomes that tired feeling, creates a good appetite, and gives strength to every part of the system. Try it.

Mr. McSwat picked up a doughnut that lay on his plate, examined it critically, made a mental estimate of its weight, and laid it down. "Lobelia," he said, "did you make this?" "I did, Billiger," replied Mrs. McSwat, proudly. "I'll have a whole plateful of them on the table in a moment." Mr. McSwat made no reply. He was thinking of the \$10,000 for which he had insured his life the day before, and as he looked at that doughnut and then at his unsuspecting and innocent wife a look of cold hard suspicion settled on his face.

He Had to Come Down. The Tale of a Balloonist Who Dropped on a Western Farm.

"I used to make balloon ascensions in connection with 'Warner's circus,'" said an old and retired aeronaut the other day, "and one I went up from Pekin, Ill. The balloon was new and light, and I got a much longer ride than I expected. I finally descended in a farm house yard about 10 miles away, my anchor having caught in a cherry tree. The farmer was an old fellow, about sixty years of age, and he sat reading on his doorstep as I came down. He removed his glasses, put them in their case, put the case in his pocket and then came forward and carelessly observed: "That a balloon?" "Yes. Help me pull it down." "Are you a balloonist?" "Yes, Pull hard." "We got the air ship down, and I wanted him to take me to town in his wagon. He had none, and I had hired a rig of a neighbor and was about to depart, when the old fellow stepped forward with: "I have a little bill here, sir." "Bill! What for?" "Damage to cherry tree, 2 shillins; skimming my poultry, 50 cents; skimming my old woman, the same; services of myself, \$1. Total, \$2.25, which is mighty cheap considerin' the times."

Wholesome Vegetables.

The following information may be useful to some, if not new to many: Spinach has a direct effect upon the kidneys: The common dandelion, used as greens, is excellent for the same trouble. Asparagus purges the blood. Celery acts admirably upon the nervous system, and is a cure for rheumatism and neuralgia. Tomatoes act upon the liver. Beets and turnips are excellent appetizers. Lettuce and cucumbers are cooling in their effects upon the system. Onions, garlic, leeks, olives, and shallots, all of which are similar, possess medicinal virtues of a marked character, stimulating the circulatory system and the consequent increase of the saliva and the gastric juice, promoting digestion. Red onions are an excellent diuretic; and the white ones are recommended to be eaten raw as a remedy for insomnia. They are a tonic and nutritious. A soup made from onions is regarded by the French as an excellent restorative in debility of the digestive organs.

The usual treatment of catarrh is very unsatisfactory, as thousands of despairing patients can testify. A trustworthy medical writer says: "Proper local treatment is positively necessary to success, but most of the remedies in general use by physicians afford but temporary benefit. A cure cannot be expected from snuffs, powders, douches and washes." Ely's Cream Balm is a remedy which combines the important requisites of quick action, specific curative power with perfect safety and pleasantness to the patient.

Sister Katherine, novice in the Order of the Sisters of Mercy at Pittsburgh, better known to the world as Miss Kate Drexel, the millionaire heiress, has decided to build a convent near Torresdale, Pa., after she has passed through novitiate. Torresdale is about twelve miles from Philadelphia. Sister Katherine will be at the head of it, and it is her intention to educate and train a sisterhood to work among the colored and Indian races.
