TOTALLY HELPLESS

FROM SCIATIC RHUMATISM—WHOLL' CURED BY HOOD'S SARSAPARILLA. The fact that rheumatism is caused by accu ulation of acid in the blood, and the ;fac that Hood's Sarsaparilla has wonderful power in purifying the blood, explain the success of Hood's Sarsaparilla in curing this disease.

"In May, 1885, I was taken with ciatic rheu matism in my legs and arms. It entirely pre vented me from working, and I was confined to my bed entirely helpless. I had medica attendance and in August, I was just able to move around. I was reduced to a mere skeleton and my appetite was gone. It was thought y all my friends that I could not possibly live. I took almost everything I could hear of but, with no good results, during the winter. One day, reading about taking Hood's Sarsaprilla in March, April, and May, I concluded to try it. One bottle gave me so much relief that I took four bottles, and since then I have not been troubled with rhumatism, and my general health has never been better. My appetite is increasing and I am gaining in flesh. I at this matter? tribute my whole improvement to taking Hood's Sarsaparilla, and I earnestly recomend it to all who are troubled with like disease.

In spite of adulterated imitations which miss the theory and practical results of the Original, in spite of the grossest misrepresentations by envious would-be competitors, and in spite of "base attempts to rob" him of the fruits of his labors, (all of which demonstrate the undoubted superiority and popularity of his teaching), Prof. Loisette's Art of Never Forgetting is recognized to-day in both Hemispheres as marking an Epoch in Memory Culture. His Prospectus (sent post free) gives opinions of people in all parts of the globe who have actually studied his System by correspondence, showing that his System is used only while being studied, not afterwards; that any book can be learned in a single reading, mind-wandering cured, &c. A Lesson for the South.

Chambersburg Valley Sprit. What is the race feeling here, anyhow? Different from that in the South, We love the negro here. We welcome him into our churches, our schools, into our families, employ him in our stores, on our railroads. We in our stores, on our railroads. treat him in every respect as our equal. At least that is what our Republican friends want the South to do and they would hardly ask the South to do what

they, good people, are unwilling to do. But some peculiar people incline to the notion that our Republican friends ask the South to do what they are not willing to do. Now, brethren, why not unite and show your earnestness in Suppose, Republican fellow citizens,

you join together and ask President Harrison to appoint one of our intelligent colored men as Postmaster in Chambersburg. Further, let the Republican residents of Greencastle and Waynesboro press for the appointment of colored men as Postmasters there. That done, insist upon Collector Friday putting three colored men in as storekeepers and gaugers.

Let us give the South to understand that we take delight in practicing what we preach.

Novel Method of Voting. Some Features of the Australian System

to be Tried. The township of Centre, in Berks ounty, has adopted an original and the purpose of nominating township tickets. Those who have any aspirations for any of the township officers are sewin tickets. expected to go to the polling place a certain number of days before the election, deposit ten cents with the proprietor of the house, and write his name on the list of candidates. The aggregate amount received as entrance fees will be expended for the printing of tickets, which will contain the names of all the candidates. On election day the voter will indicate with a lead pencil his choice of candidates. This method has many of the features of the Australian system. It was tried in the township before; but some of the electors voted for every person on the ticket, and others became badly confused in marking their tickets. It is now believed that the system will work satisfactorily

LATHROP, Mo., February 12.—The situation here is exciting, and the women's crusade against the saloons is the only topic of conversation.
