JUST THE MEDICINE.

"For nine years I was in a state of

constant suffering, scarcely able at any

time to walk about the house, and part

of the time unable to be out of bed.

The physicians said I had a fibroid tu-

mor. I began taking Hood's Sarsaparil-

la and its good effect was soon apparent.

I began to improve in health, and con-tinued taking the medicine till now I

feel perfectly well and can walk six

or seven miles a day without feeling

tired. I think Hood's Sarsaparilla is

just the medicine for women and any-

A Cure for Squinting.

A cure for squinting, which is not so unsightly as the method at present generally adopted-black goggles with a hole in the centre-is highly recommended. Let the person afflicted take any pair of spectacles that suit his sight, or even plain glass, and in the centre of one lens let him gum a small blue or black wafer (or spot of black photo, varnish or Brunswick black) about the size of a ten-cent piece. The result is that the double image vanishes, and the eye, without fatigue or heat, is forcep to look straight, and with time and patie ce is cured. - Courier-Journal.

The First Public Horse Race.

The first public horse race in Ameri-ca trotted in 1818 in New York. It had been asserted that there was not a horse in the country which could trot a mile in three minutes. Major William Jones, of Long Island, and colonel Bond, of Maryland, sustained the opposition, and brought out the horse Boston Blue, which won the race. His time is given as just three minutes. Previous to this, however, in June, 1806, the horse Yankee is reported to have trotted at Harlem, N. Y., in 2.59 on a short track, and the Boston horse is credited with having made a mile at Philadelphia in 1810 in 2.481.-Detroit Free Press.

A Just Preacher.

An English gentleman who died re cently left the bulk of his fortune to Rev. Mr. Spurgeon. He had several relatives ill provided for, and the trustees decided to put their case be-fore the preacher. The result was that Mr Spurgeon put the property in their hands for distribution among the needy relatives of the testator.

A Granger Who Had Reason to Swear, A Missouri farmer thought he would plant twenty acres of ground in corn, and taking the sack which contained his seed corn, he went into the field, put his corn planter into operation and pretty soon had the required number of acres planted, so he thought, with seed corn. But upon finishing his job, what was his consternation and amazement to find his stock of corn untouch-

ed. He had simply forgotten to put the corn in the planter, and was forced mended, or money paid for it refunded. to do his whole work over again.

They Want More. The Morrill Pension bill, so far from appeasing the ravenous hunger of the

claim agents, has but served to set their appetites on keener edge. As the Wash ington correspondent of the St. Louis Globe-Democrat points out: "They are clamoring through the National from \$200,000,000 to \$300,000,000, and they are urging the removal of the lim-itation of arrears, which would take \$216,000,000 more." The conscious-

ness that if they don't get these pickings this season they are likely to have a long interval of fasting is doubtless the explanation of their rapacious zeal.-

The Old Party In a Shaky Condition.

Philadelphia Record. What with the Blaine attack upon the McKinley bill; the assault of the bonanza miners on the Harrison administration ; the Republican revolt against Dictator Reed's despotic rule; the hostility of Southern Republican members to the Federal Election scheme; the resistance in Pennsylvania and New York to boss rule, and the great independent movement of the Western farmers, the Grand Old Party must be said to be in a condition bordering upon anarchy and dissolution. The old party edifice has become so shaky in all its beams and rafters that it threatens to tumble with a crash about next November unless it be speedily put under re-pairs.
