## Hotels.

TO THE PUBLIC. In consequence of the similarity of the names of the Parker and Potter Hotels, the proprietor of the Parker House has chang-the name of his hotel to

-COAL EXCHANGE HOTEL.-He has also repapered, repainted and otherwise improve it, and has fitted up a large and tasty parlor and reception room on the first floor.

WM. PARKER,
33 17 Philipsburg, Pa.

CENTRAL HOTEL,

MILESBURG, PA. A. A. KOHLBECKER, Proprietor.

This new and commodious Hotel, located opposite the depot, Milesburg, Centre county, has been entirely refitted, refurnished and replenished throughout, and is now second to none in the county in the character of accommodations offered the public. Its table is supplied with the best the market affords, its bar contains the purest and choicest liquors, its stable has attentive hostlers, and every convenience and comfort is extended its guests.

Through travelers on the railroad will find this an excellent place to lunch or procure a meal, as all trains stop there about 25 minutes. A. A. KOHLBECKER, Proprietor.

THE -CUMMINGS HOUSE-

BELLEFONTE, PA. Having assumed the proprietorship of this finely located and well known hotel, I desire to inform the public that whilelit will have no bar, and be run strictly as a temperance hotel, it will furnish to its patrons all the comforts, conveniences and hospitalities offered by others. Its table will not be surpassed by any. Its rooms are large and comfortable. Its stabling is the best in town, and its prices to transient guests and regular boarders will be very reasonable.

The citizens of the town will find in

the basement of my hotel a

FIRST-CLASS MEAT MARKET at which all kinds of Meat can be pur-chased at the very lowest rates. I earnestly solicit a share of the public patronage. GOTLEIB HAAG.

Medical.

SCROFULA Is the most ancient and most general of al diseases. Scarcely a family is entirely free from it, while thousands everywhere are its Pine Grove Mentions. suffering slaves. Hood's Sarsapa illa has been a remarkable success in curing every form of

scrofula. The most severe and painful running sores, swellings in the neck or goitre, humor in the eyes, causing partial or total blindness, have yielded to the powerful effects of this medicine. It thoroughly removes OHN G. LOVE, Attorney-at-Law, Bellefonte, Pa. Office in the rooms formerly uplied by the late W. P. Wilson.

French Influence in Silver.

"We still owe much to French influence," remarked a member of the firm of Baily, Banks and Biddle, of Philadel phia the other day, "in designing silverware. This is particularly observable in the styles of forks and spoons, which are now made in extremely pretty patterns. The art of the French has been admitted for centuries having succeeded in a large measure to the patronage of the

Italians. The modern school of painting and some of the most artistic designs for various articles of ornament owe their being to the Gallic influence spoken of. The American school of design, however, will soon be an established fact, for we are slowly but surely approaching the time when the most originality and freshest conceptions will be found to issue from Americans.

-Theory and Practice-Doctor (to brother physician)—"Yes, gentlemen, the sovereign remedy for all ills is fresh air and plenty of it. People do not let enough air into their houses. Well, I must hurry. I am on an errand.

Brother physician—Going far?
No, only down to the hardware store to get a half mile of weather stripping. Good News.

-The average life of a rabbit is put at nine years. The doe may have young eight times a year, averaging eight each time. The first litter is produced when but four months old. The progressions based on these figures lead to astonishing results. For three years the possible progeny of two rabits has been calculated at over 13,000,000, and for

-Fully three-fourths of the babies of the world go naked until they get to be five or six years old. The Canadian Indians keep their babies naked to a certain point, and as for the little Coreans they never wear anything but a short skirt until they are as old as our school

seven years at 1,500,000,000.

-It has been well said that no one ever sank under the burden of the day. It is when to-morrow's burden is added that the weight seems more than man can bear. God begs you to leave the future to him and meet the present.

-Fashionable entertainments have been enormusly extravagant in Lonflowers for a bachelor party cost \$5.000. any to defy.

Big Crop Out There.

Eight Hundred Trainst Needed to Transport Washington's Wheat Yield.

CHICAGO, November 3 .- "The big crops in Eastern Washington and Northern Idaho are likely to remain in warenouses several months before they can be hauled away," said James Albright, of Sprague, Wash., who has just arrived in this city.

"What is the matter?" he was asked. "A great scarcity of cars, rendering it impossible to move the grain. The wheat yield this year has been immense, especially in the Pelease country, the Big Bend, En pire, Indian prairie and Potash region. In the Pelouse valley alone the yield is estimated at 10,000, 000 bushels. The combined output of the other localities named will easily aggregate 7,000,000 bushels, making a total of 17,000,000, bushels for that region alone. Some of it, say one-fifth, will be consumed in Washington, and the remaining 13,000,000 bushels will

be experted. "Estimating that each car will hold on an average 39,000 pounds, upward of 27,000 cars will be needed to export this grain. A train will average fifteen cars, so that 800 trains will be necessary to haul the grain produce alone out of the country to market. Now, both the Northern and the Union Pacific railroads are already taxed to their utmost capacity. Calls are daily made from many stations for cars, which cannot be supplied. In Spokane the yards are almost bare of empty cars, and the same

is true of other railroad centers. "Many capitalists are building large elevators in consequence. It will be a good investment, for the full acreage has by no means been reached in the Pelouse country. In addition to the grain crop, the fruit yield throughout Washington this year has been extraorshaversereek Valley on the 25 inst, of that fa- dinary. Thousands of bushels of plums tal disease, consumption. While a clerk in and peaches were raised. Much of it was shipped east, but the shipping of fruit is nearly over. The hop crop is

American Pork Sized in Germany.

BERLIN, November 2 .- Ten thousand kilos of American pork, unlawfully imported into Germany by way of Holland, have been confiscated at the custom houses in Emerich and Aix-La-Chapelle, and [will be condemned after being soaked in kerosene, to make them unsalable and unfit for consumption. This is done in spite of the glaring fact that hundreds of thousands of the poor in this country are unable to buy meat PERRINE'S on account of the country on account of the existing high prices. This question is becoming of vital importance in this country, and is likely to lead to important consequences even in

the domain of politics. Bavaria, Saxony, Baden and Wurtem burg, which together command the same number of votes as Prussia in the Bundesrath, have combined to sanction the importation of Austraian and Russian meat as soon as the Parliamentary session opens. This action on their part is likely to compel the resignation of the Minister of Agriculture, Herr Lucius, in view of his notorious alliance with the partisans of a high tariff on meat and

That tickting in your throat which makes you cough once in a while and keeps you constantly clearing your throat, arises from catarrh, and as catarrh is a constitutional disease the or-dinary cough medicines all fail to hit the spot. What you need is a constitutional remedy like Hoods Sarsaparilla. Many people who have taken this medi-cine for scrofula, dyspepsia, loss of ap-petite, and other troubles, have been surprised that it should cure this troublesome cough. But to know the actual cause of the cough is to solve the mystery. Many cases of consumption have been traced back to the neglect of some such slight affection as this. Consumption can be controlled in its early stages, and the effect of Hood's Sarsaparilla in purifying the blood, building up the general health, and expelling the scrofulous taint which is the cause of catarrh and consumption, has restored to perfect health many persons on whom this dreadful disease seemed to have a firm

hold. SHORTER HOURS FOR MOTHER,-With so much talk about shorter hours for the working man wouldn't it be a good idea if some of the brilliant intelects of this country were as anxious to o-JEWELER and OPTICIAN,find some way to shorten the day for the working mother? A strong man may think he has worked long enough when he has labored only eight hours, and doubtless he has, but his hard worked wife, the mother of his children, often works nearer eighteen. A little more sympathy for the mother of a family with less for the father, if there isn't enough for both, seems quite pertinent.

-Housewife. -Ignorant attempts to supply a substitute for mother's milk are often attended with ill effects; a suitable food given judiciously will always give satisfaction. Mellin's Food is now thoroughly established as the best nutriment for infants. Its good affects are witnessed in the robus health of thousands of children who have been reared upon it.

A wonderful flower has been discovered in the Isthumus of Tehuantepee-Its chief peculiarity is the habit of changing its colors during the day. In the morning it is white; when the sun is at its zenith it is red, and at night it is blue. The red, white and blue flower grows on a tree about the size of a guaya tree, and only at noon does it give out any perfume.

-"There was an old man of Tebago, lived on rice, gruel, and sago." he had headache so bad. After he used a bottle of Salvation Oil, he could eat roast beef and plum pudding all right.

-In connection with the present uneasiness over the Indians out West, the man of the future is to be envied, Scientists tell us that he is to be bald, and that the redskins as a race will die out about the same time. Thus when don this season. Several have cost between \$30,000 and \$40,000. The like defying the savage, there won't be New Advertisements.

REGISTER'S NOTICE.—The foilowing accounts have been examined, passed and filed of record in the Register's office for the inspection of heirs and legatees, creditors and all others in anywise interested, and will be presented to the Orphans' Court of Centre county on Wednesday, the 26th day of November, A. D., 1890, for allowance and confirmation.
