-It may seem a matter of small moment to a banana eater whether the peel of the fruit is thrown upon the sidewalk or into the street, but such is far from being the case in many instances. Many people have been maimed by falls occasioned by slipping on a banana peel, and not a few have died from the effects of such falls, the latest fatal result having occurred in Syracuse a few days ago. Now it is just as easy to toss a banana peel into the roadway as upon the sidewalk, and only those who are selfish or thoughtless, and indifferent to the safety of others, ever commit the unpardonable act of throwing a banana peel on the sidewalk.

THE CENTRE IRON COMPANY'S DIF-CULTIES .- The levy on the Centre Iron Company's property at this place by the Sheriff last Saturday, and the toppage of the works in consequence. were an occurrence seriously affecting the business interest of this neighborhood. For some time previous to this levy it had been known that difficulties existed in connection with the Company's affairs, but the reports in regard to them were indefinite and conflecting. Notwithstanding unfavorable rumors, the work of the furnace progressed with activity during the past season, and there was Lo evidence of difficulty to the outside view until the appearance of a publication in a Philadelphia paper some weeks ago reflecting upon the management and alleging crookedness which was calculated to impair the standing of the Company. This publication had the effect of starting legal proceedings for the securing of claims. Judgments were entered in the Prothonotary's office in this place and executions issued against the Centre Iron Company by Robert Valentine for \$5,040,37; by a Philadelphia banking company on a note for \$25,000: by the Hostetter Coke company for \$865.97, and by the Derry Coke Company for \$1,746 82. > THE FIRST BUCKTAIL .-- C. P. Kilbourne, of Potter county, gives the following statement of the origin of the Bucktails. John Owen was working for him in 1861; he quit work and said he would not work another day until the war was over, as he was going to enlist. In the evening of the same day Mr. Kilbourne killed a deer; the next morning he gave Owen a cap on which was fastened the buck's tail, and took him to Coudersport, where Colonel Kane was recruiting a company. When he saw Owen with his buck's tail the idea struck him as something novel, and Colonel Kane gathered all the tails he could famous regimental name originated.

We go there frequently in the evenings and are surprised to see the indifference with which the library is regarded. The readers are conspicuous by their absence. The few who frequent the place are mostly attracted by the lightest kind of reading, and we have observed that when there is a show in the opera house even these stay away.
