

Democratic Watchman.

Bellefonte, Pa. February 13, 1891.

Farm Notes.

The very best products of the farm have the least competition.

Winter squashes, especially the Hubbard, are worth at out \$20 per ton.

The feet of the sheep should be carefully looked after. If the toes are long cut them off.

When oats are scalded at night and left until morning they make an excellent mess for pigs.

If the fowls are healthy to begin with, and are well fed and cared for, no artificial preparations are necessary to maintain good health.

If every farmer would aim to increase the yield of every acre, instead of increasing the number of acres, the expenses would be less and the receipts greater.

Potatoes are recommended for feeding cows for four or five weeks before calving as a preventive of milk fever.

Infruits of soda will increase the yield of fruit one-half of what is claimed for it, it is worth trying.

If the pig insists on rooting up the pigpen make him do so in dry litter, and not in a pen that is wet and filthy.

Wool must be equally strong the entire length of the fiber, or necessarily it will be of less value to the manufacturer.

A farm near a manufacturing town is worth a large percentage more than one distant from it.

Once in a while, or oftener, some one averts that sheep will get along very well without water.

If the milk has a "cowy" odor it is because you have got manure in it; that always makes a very "cowy" odor.

Good seed costs more than food and impure seed, and in the wholesale trade the distinction is always made.

Costiveness in sheep is pretty apt to occur in winter when no roots or ensilage are fed.

Good persons who think they cannot milk a cow without wetting their fingers may try as a substitute for this objectionable practice the use of a little fine salt rubbed on their hands.

Orchards are not considered worth the manure made on the farm. Many old apple orchards have never received an ounce of manure or fertilizer.

The mutton of our country is being so rapidly improved by the use of good mutton sires and better feeding that our people are rapidly becoming mutton eaters.

A lady writing in an exchange, says: "I have a method of cleansing rancid and poor butter that makes it better and more economical to use in making pastry than lard."

A valuable illustrated book of seventy-two pages sent free, on receipt of 10 cents, to cover cost of mailing, etc.

The garnish provides the luxuries of the farm. It should be the first plot to be manured a day fertilized.

Four Hun Rioters to Hang.

PITTSBURGH, Pa., Feb. 7.—Murder in the first degree is the verdict to-day rendered against the four Hungarian rioters who on December 2 caused the death of Michael Quinn, a workman at Carnegie's Steel Works, Baddock.

HERE IS A CHANCE TO MAKE MONEY.—I bought a machine for plating gold, silver and nickel, and it works splendidly.

When oil was discovered in Butler county he was employed as a driller. He bought in a big well, and his share started his fortune, which is now \$8,000,000.

NOT ONE IN TEN of the people you meet from day to day has perfectly pure healthy blood.

Wool must be equally strong the entire length of the fiber, or necessarily it will be of less value to the manufacturer.

Once in a while, or oftener, some one averts that sheep will get along very well without water.

HAND AND FOOT POWER MACHINERY.

J. N. MARSTON & CO., Station A, Boston, Mass.

SNUG little fortunes have been made at work for us, by Anna Fagg, Austin, Texas, and Jno. Bonn, Toledo, Ohio.

PATENTS.—If any of our readers have made an invention for which they have thoughts of taking a patent, they are invited to communicate with Messrs. MUNN & Co., of the Scientific American, who for a period of more than forty-three years have conducted a most successful bureau in this line.

3000 A YEAR!—I undertake to briefly teach any fairly intelligent person of either sex, who can read and write, and who, after inspection, will work industriously, how to earn Three Thousand Dollars a year in their own localities, wherever they live.

600,000 A YEAR is being made by John R. Goodwin, Troy, N. Y., at work for us. Reader you may not make as much, but you can teach your children how to earn from \$5 to \$10 a day at the start, and more as you go on.

MONEY can be earned at our new line of work, rapidly and honorably, in those of either sex, young or old, and in their own localities, wherever they live.

Music Boxes. HENRY GAUTCHI & SONS, MANUFACTURERS & IMPORTERS OF SUPERIOR QUALITY MUSIC BOXES.

ST. CROIX, SWITZERLAND. Sale rooms and Headquarters for the United States at 1030 CHESTNUT ST., PHILADELPHIA, PA.

NEVER A FAILURE. The Red River Valley of Minnesota and North Dakota has never had a failure of crops.

It produced 30,000,000 bushels of wheat besides other cereals in 1890.

Farms can be had on the crop plan, or long time cash payments.

It is not an uncommon thing to pay for a farm from the proceeds of one crop.

It has all of the advantages of an old country in the shape of school, church, market, postal and railway facilities, and all the chances of a new country in the way of cheap lands, rich soil and increase in values.

It is one of the most fertile and promising regions in America not yet fully occupied.

In the rush to the far west, however, this rich valley has been overlooked.

It has room for a million more people. Write to F. I. WHITNEY, St. Paul, Minn., for particulars. Publications sent free.

Watchmaking—Jewelry. F. C. RICHARD, JEWELER and OPTICIAN, DEALER IN CLOCKS, WATCHES, JEWELRY and SILVERWARE.

Special attention given to the Making and Repairing of Watches.

IMPORTANT.—If you cannot read this print distinctly by lamp or gaslight in the evening, at a distance of ten inches, your eyesight is failing, no matter what your age, and your eyes need help.

ALL KINDS OF GRAIN. WHEAT, RYE, CORN, AND OATS.
