AN ALLEGHENY STREET BLAZE .-At two o'clock Wednesday morning the sleeping populace of Bellefonte was awakened by the cry of "fire!" but it seemed ages before the people got out, and the flames were bursting from the roof of the three story brick building, on Allegheny street, occupied by Keplinger & Co.'s drug store and the photograph gallery and residence of John Moore, before a stream of water was turned on. The Undine Hose Company was first on the ground and quickly run a line up over the roof of Ceaders' bakery and played on tho flames from that side. They were followed in a couple of minutes by the Logan Steam-Co., and in just six minutes after leaving its house the "Logan" had three streams through 11, 1 and 3 inch nozzles on the burning building and they were throwing water at the rate of 500 gallons per minute.

The rear of the third floor was fitted up for photographic purposes and was built of wood. This burned like tinder and great flames leaped out in every direction. The efforts of the firemen were concentrated, for the time being, upon this part of the building, and it was not control, though a man on the roof of McKee's hardware made the discovery Mne of buggies and carriages which that the fire had eaten its way in beand was bursting through in many places. The axemen were on hand and a number of holes were made into which streams were turned and soon every vestige of fire was out in that part. Then all that remained to be done was to outen the flickering flames, and in doing this the buildings were completely del-

uged. Property that was not injured at all by the fire was ruined with water, McKee's hardware suffered entirely from water, and all the bright goods, mamed Russel Brown, only 13 years old, Keplinger & Co., are the heaviest losers, but it is covered by insurance. Mr. Moore's household goods and gallery effects are a complete loss and he held an teaching and advanced study for the

The fire originated in Moore's gallery where Mr. Moore had gone to hunt some medicine which he had been taking, and while looking around for it his lamp was accidentally knocked over. He tried in vain to smother the flames but the burning oil ran in among his chemicals and then he had to run for his life and to save his family, who were sleeping on the second floor.

The work of the firemen was excelin handling the fire was the subject of general comment. Though the whole sleep at the time the first alarm was given, when the department got there it building was sandwiched in between two other ones whose roofs were tight -The sixty-first annual session of against it, made it all the harder for burning, but they did it and this will put another feather in their caps.

The fire was altogether out by three o'clock and then the firemen went to their houses, where hot coffee, sandwiches and rolls were waiting them as testimonials of their good work from Mr. Jos. Ceaders.

AN AIR LINE THROUGH CENTRE air line railroad, which has been talked of for a year or more in this section, is now being located through Sugar Valley. The Centre Hall Reporter says the new line leaves the Lehigh Valley road at Mauch Chunk, and strikes Bloomsburg, thence down the river to

Lewisburg. The corps of engineers started at Lewisburg and entered the mountains north of the Brushvalley narrows, and came out at a point near Stover's, in the east end of Miles township. From thence they struck across to Sugar Valley, close to Tylersville, and will aim for Washington Furnace, thence for Mill Hall and on to the mouth of Beech Creek, Clearfield and Punxsutawney; thence west, going north of Pittsburg to reach Chicago-making an air line between New York and Chicago, regardless of towns between these two

great cities. This new trunk line will be 240 miles shorter than any other line between New York and Chicago, and will use the Lehigh Valley road from New York to Mauch Chunk, with several links west already in operation, to fill up the line, in addition to the new sections to be built from Mauch Chunk to the Ohio line.

North of Mifflinburg Nittany mountain will be tunneled.

A trunk line like this, 240 miles shorter to Chicago than any other route, will be a lively competitor to the other and wild flowers, where they were met, trunk lines west. The company intends to have this air line completed in time for the Columbian exposition in Chicago

> FOREST FIRES IN CLEARFIELD .-- A dispatch from Clearfield on Monday said: A large portion of this county is being swept by forest fires, and lumbermen have suffered a great loss. Newly peeled hemlock logs burned like so many matches. Hundreds of cords of bark, fences, etc., have also been destroyed. This place to-night is filled with smoke so blinding and heavy that the people can scarcely breathe. The

sky is lighted up in all directions. The town of Curwensville with 2,000 population, is threatened and 300 men

Until about three years ago this rickety house was the home of an old blind man named Davis, who for many years earned a livlihood by playing a worn out hand organ on the streets of He asburg. Accompanied by his , tty daughter Martha, this sightless old man used to make music on the streets of our capital, accepting pennies from people to whom he had more than once extended the hand of charity, for it is said he was, before the war, one of rebel bullet, turned the old man's head, and then poverty stricken and blind he trod in affluence and comfort.

The blind organ-grinder had a younger daughter at home, whom he called Laura Virginia. Little Laura was then so young that she only occasionally accompanied her father on his daily visits to Harrisburg and generally remained at home with her mother. Davis loved his two little children dearly, and before his death two years ago, he cautioned his wife to take good care of them.

the two daughters moved to Gettysburg, a pension of six dollars per month. and 'twas there Albert Daugherty met and wooed the pretty Martha. Daugherty and his young wife returned to the old hovel on the river above Harrisburg and little Laura was taken with them, for the mother had become so corrupted and debauched that she was aught but a sorrow to her innocent child. While living with her sister Laura was stolen and the good people of Philipsburg will have the honor of restoring the lost to the arms of its loved ones, for the brother-in-law has been heard from and the little one clapped her hands with delight and threw herself sobbing upon the breast of Albert-when he came to claim her.
