

HICK'S WEATHER PREDICTIONS FOR SEPTEMBER.—Hicks, the weather prophet, makes the following predictions for September:

About the 2d it will turn warm in the West, and as the wave moves eastward it will increase in heat, culminating in some heavy storms, and, perhaps, earthquake disturbances, within thirty-six hours of the time of the new moon on the 3d. A sharp fall of temperature will follow until about the 6th.

A regular storm period is central on the 7th. There is an equinox of Mercury on the 8th, moon's first quarter on the 11th, and the electrical antagonism of sun and earth is at its maximum on and about the same date. Disturbances of great energy, therefore, may be expected in the earth and atmosphere between the 7th and 11th. The progressive presence of a very warm wave from the West will be the harbinger of storms which may work ruin and disaster on sea, lake and land, if not avoided by watchful precaution. A very cool wave, sharp and sudden to the North, will most likely appear behind the storms of this period. Unsettled weather with fluctuations of temperature is apt to run beyond the reactionary storm days, 13th and 14th, after which pleasant, bright days and nights will follow up the next storm period.

On September 18 we reach the center of a disturbed period which will cover the central day of the earth's equinox; which dates will also be affected by the growing Venus disturbance, central October 7. If storms of great severity do not occur between the 17 and 22, meteorological compensations in phenomena and earthquakes must result. Very high temperature with storms will be natural at this time. Look for a far-reaching cool to cold wave at the close of these disturbances. Remembering that we have already entered the Venus perturbation at this time, and that such periods are always characterized by sudden extremes of heat and cold, we should be prepared for very high temperature, ending in storms, and dropping quickly to the frost and freezing points to the northward. The same will apply to reactionary changes on and next to the 24th.

The prevailing autumnal equinox blended with approaching Venus, an unusual conjunction of nearly all the planets with each other and the sun, all added to the fact that Saturn is passing his equinox, make the outlook an exceedingly interesting one to all interested in planetary meteorology. We shall expect more than the ordinary gales and storms during the month, many of them overlapping the limits of the regular storm periods. A regular storm period is central on the 30, insuring a rising temperature for closing September, and bringing in autumnal storms for opening October.

A Tramp's Fiendish Crime.

He Murdered the Aged Couple Who Gave Him Shelter.

HARTFORD, Conn., Aug. 31.—A murder, more fiendish than any in the annals of crime in Hartford county, was committed in the town of Bloomfield at an early hour yesterday morning. Henry Frederick Bushenagen, aged 68 years, and his wife Emily, aged 71, were killed by a tramp to whom they had given shelter. Not content with simply killing them he had frightfully mutilated their bodies and had then thrown the bleeding corpses into an old well. When the fearful crime was made known the excitement in Bloomfield was intense. Men, worked into a passion of wrath, hunted through the adjacent woods intent on apprehending the assassin, but without avail. The murderer was suspected last night, but not until this morning were the bodies found. Two neighbors visited the farm for the purpose of investigating and they saw signs of a struggle in the barnyard and noticed that the curb of a little well was not in place, and going to the well they peered down the steep sides. On top of the slimy, blood-stained water rested the corpses of the aged couple. When assistants arrived the murderer, a man of about 50 years of age, was seen in a bushenagen's head were found four large wounds, probably made with a caulding pin, which was found in the yard. One of the wounds was three inches long and the skull was crushed to a depth of four inches. On Mrs. Bushenagen's head were five wounds, every one of which crushed the skull. These are believed to have been made with an ax.

Robbery was not the motive of the murder. In the house there were no signs of ransack. About \$25 were found and no article was missing. That no outcry was heard when the murder was committed is explained by the fact that the Bushenagen house is situated in a lonely part of town on a road little used. The nearest house is almost a mile distant. Officers are working on a clue to the murderer. The selectmen of the town offer \$200 reward for the fiend's capture.

Girls in a Hornets' Nest.

READING, Pa., August 29.—Five young ladies of Reading suffered a painful experience with hornets at the Sanitoga camp-meeting this week and some of them barely escaped with their lives. They had taken off their shoes and stockings to wade the brook, and on ascending the farther bank disturbed a hornets' nest.

A swarm of venomous insects attacked the girls and severely stung them on the feet and lower limbs. Some of them fainted from fright and pain, and none were able to put on their shoes to walk back to camp. A searching party late in the evening found the young women still at the brookside disabled.

Pine Grove Mentions.

The soil is in excellent condition for seed wheat and many of our agricultural friends are taking advantage of it and the bulk of it will be done, if favorable weather continues, this week.

His Honor, J. T. McCormick, has been up and doing, having ordered and distributed one hundred and thirty tons of fertilizer in this section. Our Grange friends have also ordered several car loads, while McCalmont & Co., and Messrs. Bowersocks are handling different brands of fertilizers which have been so extensively and successfully used in this valley for several years.

Saturday p. m. last was eagerly looked forward to by sportsmen. Quite a crowd assembled on the base ball grounds near town to witness the game to be played by the College base ball team and our home team. On account of our boys being out of practice considerable uneasiness was felt as to the result. Both teams deposited themselves with becoming dignity and the playing was fair throughout, resulting in 8 to 13 in favor of our home team.

Our young friend, Arthur Fortney, is having a severe attack of typhoid fever and the change for the better is not yet.

Rev. C. T. Atkins was absent from his pastoral charge last Sunday in attendance at his mother's funeral at Milroy, on the 29th ult. A special message reached him on Wednesday night. Accompanied by his wife he crossed the mountains in the darkness of the midnight hour, arriving one hour too late. Her spirit had fled to that home above, which will be brightened by the addition of another flower to beautify the garden, and a precious jewel to adorn the diadem of the King. During the frequent visits to this place she formed a legion of friends and was most highly esteemed and honored in the community in which she lived, and her death will be generally and sincerely lamented. Consumption caused her death. She leaves four loving children and a devoted husband to mourn her death, at the age of 62 years, 2 months and 7 days. A large concourse of people followed the remains to the tomb.

Famine-Stricken Europe.

Floods Enhance the Need of America's Wheat and Rye.

LONDON, August 29.—The harvest prospects of England and Western Europe are much blacker than last week's. Estimates of wheat deficiencies are largely increased. England has been simply deluged with rain floods, in some parts so severe as to sweep cattle and sheep from the mountain-sides into the rivers.

The same reports come from Ireland, Scotland and France. There has been terrible destruction of cereal crops. Harvest operations have been entirely suspended. British farmers with small holdings see nothing but ruin staring them in the face next winter.

Dornbusch to-day says that the official figures will probably put the wheat crop of Europe this year at least 280,000,000 bushels below last year's crop. France will be pre-eminently the greatest sufferer, then Russia, then England. Storages of bitter distress and starvation are confined to Russia.

Military trucks loaded with corn for exportation have been seized by mobs along the frontier and emptied of their precious freight. The most grave of these riots was at Vitebsk. For some time the rioters had their own way with a small body of soldiers.

The riot resulted in the killing of two soldiers and wounding of several others.

Vienna papers yesterday published heartrending accounts of the distress in Russia, told by a Russian priest, named Plomunow, who had just returned from the Government district of Kasan. He says:

"You who live in towns can form no conception of the distress amongst the rural population. A few days ago I visited the village of Naredy. Within the first half hour I met sixteen poor creatures at the last extremity of woe. Most of them had not touched a morsel of bread for a week. With distorted features and glaring eyes they gazed at me. Many of them were only able to stretch out their hands for the food offered them. A few only had strength enough to eat it. They generally die before help comes."

Very Interesting.

Not even the World's Fair at Chicago in 1893 will be as interesting to the people of the Northern States as the great Southern Exposition that is to be held during the months of October and November of this year at Raleigh, N. C. It is so near the Northern States that the round trip from New York will not exceed fifteen dollars, and from Baltimore not more than ten dollars.

At the Southern Exposition can be seen all the curiosities of the Southern States,—growing cotton, rice, sugar cane, peanuts, pine apples, etc. The process of ginning cotton and distilling turpentine will be shown every day during the Exposition.

This Exposition will be the greatest object lesson ever shown to the people of the United States. The South is almost an unknown land to many of the people of this section, and those who miss the opportunity of visiting the South will regret it after their friends return and tell them what they saw. Each of the Southern States is interested and taking part in the Exposition. It is not an ordinary undertaking, but simply a State Exposition, but the people of the entire South, both white and colored, have joined in this great work.

The Secretary of the Exposition is Hon. Jno. T. Patrick, of Raleigh, N. C., who is probably more favorably known throughout the North as the leader in the industrial movement of the South than any other Southerner now living; and Mr. Patrick will not only make a success of this work, but he has by his past record shown the greatest willingness to give Northern people reliable information of the South.

Northern manufactured goods are solicited for exhibition, and it will pay our people to seek the Southern trade.

For some reason not yet explained Major McKinley failed in his great opening speech to refer to the fact that under his robber tariff on wools and woollens girls are making pantaloons in Chicago for 60 cents a dozen and sewing on cloaks at the rate of 40 cents for fifteen hours. If protection makes wages high, what is the matter with the employees of the Chicago sweaters?

In Memoriam.

Died on the 21st ult., Brother George L. Toveil, in the 58th year of his age. As a member of this noble order, and as a personal friend, we mourn his removal from our midst—we miss his counsel—his advice for our welfare individually and collectively. The lodge has lost an earnest worker, and society an ornament. His suffering was great, and for more than a year's duration, and he longed for that inevitable change which would release his weary pain-racked form and take it to that better home, of which he frequently spoke and assured his friends that all was well. We tender to his bereaved friends in behalf of the lodge our sincere sympathy, and trust all may imitate his example, so that when called upon to leave this world our departure may be as peaceful as his.

Resolved, That our charter be draped in mourning for that period of thirty days and a copy of these resolutions be forwarded to the friends of our departed brother.

Attest: J. A. RUSSELL, J. T. BARTON, Com. J. C. SMITH.

In behalf of Lumen Lodge, No. 639, I. O. O. F., Unionville, Aug. 29th, 1891.

Hurrah!!!

To Grange Park, Sept. 10th, to Hear St. John.

Mr. Entero:—It seems to me that the citizens of Centre County owe it as a duty to themselves, they who in round numbers go by a majority at the polls of 9000 in favor of prohibition by constitutional amendment, seeing that their desires were so disgracefully thwarted by corruption and intrigue, to once more assert their approval of the righteous issue before the American people by rallying to the picnic at Grange Park, this county, on the 16th of September, at 3 p. m., and tendering Governor St. John, of Kansas, a noble reception; cheering him by their presence, and with pleasant greetings make him feel that he is not among strangers and foes. Friends, we owe it as a duty to the officials who have the management of the meetings in hand, and to the whole fraternity of the Patrons of Husbandry. Let us all help make the occasion a success, for the good of the present and of coming generations. Very sincerely yours, J. ZEGLER.

The following letters remain in the Bellefonte, Pa. office, Aug. 24th, '91.

Thillie Eckley, Thad Rell, Minnie Davison, John H. Hunter, J. W. Jay, James Kerry, Lizzie Lucas, Mrs. M. L. Lewis, Fred. John Thompson (col.), Benj. B. Ulrich, Mrs. Lucy Walters, James L. Wilson.

When called for please advise at J. A. FIEDLER, P. M.

It consists of a combination of instruments with which can be given a subcutaneous injection or a drench, and spray for sore throat. It operates by compressed air and never fails to do its work. Sells for \$100.00 per set. One agent made \$30.00 in one day. Send for circular. THE IDEAL HORSE AND CATTLE INJECTOR MANUFACTURING CO. P. O. Box 727, Paterson, N. J. 36-34-41

PUBLICATION OF WRIT OF FOREIGN ATTACHMENT.—Pursuant to an act of Assembly, relative to writs of Foreign Attachment, passed the 13th day of June 1886, I, William A. Isler, High Sheriff of Centre county, do make publication of the following writ of Foreign Attachment to me directed to wit:—

CENTRE COUNTY, S. S. [SEAL] sylvania to the Sheriff of said county, Greeting: We command you that you attach William H. Ross, late of your county, by all singular goods and chatties, rights and credits, in whose hands or possession the same may be, so that he be and appear before our court of Common Pleas to be holden at Bellefonte, in and for said county, on the 4th Monday August next, there to answer Charles H. Kelley, use of First National Bank of Wilkesbarre, Pa., of a plea of Foreign Attachment in Assumpsit. And we do further command you, the said Sheriff, by honest and lawful men of your Bailiwick to make known to William H. Ross (and Bail in the sum of \$100.00 required) and in whose hands and possession may be late of your county, so that he may be and appear before the Judges of our said court to be holden at Bellefonte, on the said 4th Monday of August next, to show if anything he know or have to say why a certain judgment obtained by Charles H. Kelley now to the use of the First National Bank of Wilkesbarre Pa. against the said William H. Ross, in our said Court, in the sum of \$100.00 bid required beside the cost of suit, should not be levied, of the effects of this writ. William H. Ross, in the hands of said and to answer which shall be objected to against him and abide the judgment of the said Court therein. Witness the Honorable W. O. FURBER, said Court, at Bellefonte, 7th day of August, A. D., 1891. L. A. SHAFER, Prothonotary. 36-33-61

CASHMERE COATS for children just received, all sorts and prices.

A lot of beautiful Chenele Table Covers.

Handsome designs and colors.

CASH BAZAAR, 35 21 1y No. 9, Spring Street, Bellefonte, Pa.

Rochester Clothing House.

THIS WILL APPEAR IN THIS ISSUE ONLY. READ IT NOW OR ANOTHER GOLDEN OPPORTUNITY WILL HAVE PASSED YOU BY.

The summer season of 1891 is already a thing of the past and as you are undoubtedly looking around for fall shades and styles in Clothing, Hats and Furnishing goods I invite your careful attention to a line which I am now purchasing in the eastern markets and which I will exhibit within a few days.

The stock will embrace the latest and most fashionable products of the market and I hope you will appreciate my efforts to give you an assortment the like of which has never been seen in a Bellefonte store.

I do not expect your patronage simply because I had it last fall, for the time when a person buys at one place from the force of habit is past, but by a careful consideration of your wants and a strict observance of those principles of honesty and courtesy which form the basis of all legitimate business I hope to merit a continuance of the favors which you have already bestowed so liberally.

M. FAUBLE, Prop. Rochester Clothing House.

SUPERIOR DRESS

M A K I N G, MISS M. CUNNINGHAM, 206 East Bishop St., Bellefonte, Pa.

BELFONTE ACADEMY.

The eighty-fifth year of this institution will commence on Wednesday, the ninth of September, under most favorable auspices. The buildings have been thoroughly remodeled, the school rooms are nicely papered, well lighted, well ventilated, provided with new furniture and comfortably heated.

INSTRUCTORS. REV. J. P. HUGHES, principal, will have charge of the young men and boys in the main school room, teaching Natural Science, Mathematics and Book-keeping.

MISS JULIA L. REED, so favorably known among us, will take charge of the young ladies in the south wing teaching, Geography, History, Grammar, Rhetoric and Literature.

MR. JAMES B. HUGHES will control the classical room, teaching French, German, Latin and Greek.

MISS ANNA C. VALENTINE, a lady of culture, and of seven years successful experience in teaching children, will have the care of the primary room, in the north wing. She will give instruction in Elementary English and Mathematics.

MISS EMMA S. HUGHES will teach Instrumental music, and class singing and conduct the calisthenic drills in the Calisthenic Hall, on the second floor of the north wing.

Members of the instrumental class which will be limited, may have the advantage of the drills in class singing and calisthenic exercises whether they are pupils in the other school departments or not. Inducements are offered those who wish to pursue special or advanced studies in literature, science or modern languages. Pupils residing out of town can secure student's tickets at reduced rates on all railroads running into Bellefonte, and the recitations of such scholars will be arranged to suit the railroad schedule.

McAlmont & Co.

FERTILIZERS.

We announce to our farmer friends in Central Pennsylvania, that we have arranged for a supply of four different grades of farm fertilizers, which we offer for sale with the full assurance that we are furnishing full market value for the money we receive for the same.

CHAMPION \$25.00 AMMONIATED SUPER-PHOSPHATE.

Our Champion \$25.00 Ammoniated Super-Phosphate has been thoroughly tested by farmers, and we are informed by many of them that it has given entire satisfaction. It is a complete fertilizer. We have assurance from those who use it that they received an honest return in the crop for the money invested. Owing to the delay in advising us how much was wanted by each farmer, we could not supply all the demand last year. To avoid disappointment this year we request farmers to place their orders with us before August 15th, 1891.

DISSOLVED SOUTH CAROLINA ROCK.

We have purchased two grades of Dissolved South Carolina Rock; one grade contains a minimum of 13 per cent. and the other a minimum of 14 per cent. available Phosphoric Acid, the analysis of which we guarantee. The value of Dissolved South Carolina Rock consists in the amount of available Phosphoric Acid it contains. We are prepared to furnish the most value invested in this class of fertilizers.

When the goods shall have been received, we invite a test analysis to be made of any sample or from the goods purchased by any farmer by the Chemist of the State Board of Agriculture, who is Dr. Frenar, of the Pennsylvania State College. There is dissolved South Carolina Rock of various grades and called by different names, such as Acid Phosphate, being placed on the market, which is adulterated and only contains 11 per cent. available Phosphoric Acid, the value of which is at least four dollars per ton less than the fertilizer we sell, which contains a minimum of 14 per cent. available Phosphoric Acid.

We invite a critical examination and a thorough comparative analysis of the Dissolved South Carolina Rock we sell. We assure our farmer friends that we do not offer to sell them shoddy goods—our greatest ambition being to furnish the largest value for the least money.

AMMONIATED DISSOLVED BONE.

We sell Lister's goods, which are a complete Animal Bone Ammoniated Super Phosphate.

BUFFALO HONEST FERTILIZERS.

The Buffalo, which has been the leading fertilizer of Centre county for at least twelve years, still maintains its reputation of furnishing an honest return for the money invested. It is strictly what is claimed for it, "An Honest Fertilizer." Many of the leading farmers of Centre county, among whom we refer to Major Wm. F. Reynolds, of Bellefonte, Hezekiah K. Hoy, of Benner township; and John H. Musser, of Aaronsburg, pronounce it the most profitable fertilizer they have used, because it not only stimulates a prolific growth as well as a large yield of wheat, but the grass shows the effects of its strength for several years.

DEMAND FOR FERTILIZERS.

From present indications the demand for fertilizers will be very large this year, which makes it necessary for farmers to place their orders early to make sure of their supply. We sell these fertilizers by the bag, ton or carload at popular prices.

MCCALMONT & CO. Bellefonte, Pa.
