COMRADE SKILLMAN

TELLS HOW HE WAS CURED OF BLOOD POISONING.

Mr. Theodore Skillman was a member of Co. B, 7th New Jersey Regt., during the war, and is at present a member of Conyngham Post 97, G. A. R., Wilkes-Barre, Penn. He has for several years been janitor of the hall. He says: Wilkes-Barre, Pa., August 28, 1891.

"Some ten years ago as a result of catarrh, contracted in the army, I had ulcers form in my throat. Blood poisoning ensued that put me in a pitiable condition. I was under treatment at Jefferson Hospital, Phila., being in the special care of several of the most eminent physicians in the country. I left there in a worse condition than when I went and returned home pronounced incurable and fully expecting that my end was near. My throat grew so bad toward the last that I had to have an operation performed and a silver tube inserted into my larynx in order to breathe. One day a friend who had taken Hood's Sarsaparilla with great benefit, urged me to try it. After I had taken but a single bottle I noticed some improvement. When I had taken three or four bottles I broke out all over with small blotches like water blisters. My friend told me to keep on with the medicine, that it was simply doing what it ought, driving the poison out of my system, and sure enough it did. I kept on till I had taken twelve of fifteen bottles. It is now four years since I stopped, completely cured, and I have since had no further trouble. I feel that I owe my life to the use of

100 DOSES ONE DOLLAR.

KENDALL'S SPAVIN CURE.

THE MOST SUCCESSFUL REMEDY

ever discovered, as it is certain in its effects and does not blister. Read proof below.

KENDALL'S SPAVIN CURE.

DR. B. J. KENDALL CO.,

Bellevue, Pa., Nov. 27, 1890.

Gents-I would like to make known to those who are almost persuaded to use Kendall's Spavin Cure the fact that I think it is a most excellent Liniment. I have used it on a Blood Spavin. The horse went on three legs for three years when I commenced to use your Kendall's Spavin Cure. I used ten bottles on the horse and have worked him for three years since and has not been lame.

Yours truly,

WM. A. CURLE.

GERMANTOWN, N. Y., Nov. 2, 1890.

DR. B. J. KENDALL CO.,

Enosburgh Falls, N. Y.

Gents-In praise of Kendall's Spavin Cure I will say, that a year ago I had a valuable young horse become very lame, hock enlarged and swollen. The horse about here (we have no Veterinary Surgeon here) pronounced his lameness Blood Spavin or Thoroughpin, which all told me there was no cure for it. He became almost useless, and I considered him almost worthless. A friend told me of the merits of your Kendall's Spavin Cure, so I bought a bottle, and I could see very plainly great improvement immediately from its use, and before a second bottle was used I was satisfied that the bottle was used up. I was satisfied that I was doing him a great deal of good. I bought a second bottle and before it was used up my horse was cured and has been in the team doing heavy work all the season since last April showing no more signs of it. I consider your Kendall's Spavin Cure a valuable medicine, and it should be in every stable in the land. Respectfully yours,

EUGENE DEWITT.

Prices \$1 per bottle, or six bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors.

Democratic Watchman.

Bellevue, Pa., Oct. 9, 1891.

They Lynched Ten Negroes.

MEMPHIS, Oct. 1.-The five rioting cotton pickers who were captured yesterday in Lea county, and who were started off to the Marianna jail, never reached it. After they were captured four more, and the nine were being taken to jail about in charge of Sheriff W. T. Derrick and his deputies. The leader of the strikers, Ben Patterson, was shot before the nine were captured. He escaped being killed outright by feigning death till the firing ceased. He only delayed his death a few hours by his simulation. Being too badly wounded to go either afoot or horseback to jail, he was put aboard the steamer Frank Mills, who was to take him to Marianna by way of Helena. He was chained to a piece of machinery on the boat.

At Hackler's Landing the boat was signalled to stop. As soon as it touched the bank fifteen armed men with Winchester's boarded it and demanded Patterson of Mills under the persuasive powers of five Winchester rifles. The negro was carried ashore, and as the boat pulled out a volley from the rifles told of his fate. His slayers then struck across the country to intercept Sheriff Derrick and his nine prisoners. Heading them off they demanded of the Sheriff his prisoners. He and the two deputies with him could not cope with the determined body of men which confronted them, and there was little hesitation or parley. The nine men were lynched without ceremony or loss of time.

This is the first serious trouble with the blacks since the Forrest City riots two years ago. Under the leadership of the dead body of Miller, and the two deputies with him could not cope with the determined body of men which confronted them, and there was little hesitation or parley. The nine men were lynched without ceremony or loss of time.

The assassins and incendiaries banded together were intent on further mischief when the white citizens started on the pursuit which ended so tragically. When Peyton and Patterson were surprised on Tuesday, they were on their hands and knees crawling in the canals. Peyton had the pistol he had taken from the dead body of Miller, and started to use it, but before he could raise it he was shot many times, his fingers even being shot off.

It is believed now that their will be no more trouble. The feeling is intensely bitter against J. F. Frank, on whose plantation the trouble occurred, and being anxious to get his cotton picked, advanced the price of picking sixty cents per hundred. Until then pickers on other plantations were satisfied with their wages.

How Spools are Made.

Birch wood is preferred. The wood is first sawed into sticks four or five feet long and seven-eighths of an inch to three inches square, according to the size of the spool to be produced. These sticks are thoroughly seasoned. They are sawed into short blocks and dried in a hot air kiln. At the time they are sawed holes are bored, perpendicularly through each block, which is set on end under a rapidly revolving, long-shank augur. Next, one whirl of each little block against some little knives that are turning at lightning speed fashions it into a spool according to the pattern desired, and that, too, at the rate of one a second for each set of knives. A row of small boys feed the spoolmaking machines by simply placing the blocks in a spout, selecting the best and throwing away the knotty and defective blocks. The machine is "automatic," but there are some things it cannot do, hence the employment of the small boys above mentioned. After the spools are turned they are placed in a large drum and revolved rapidly until they have taken on a fine polish. For some special purpose they are dyed yellow, black or red, according to taste. When one sees a spool of thread marked "200" or "300 yards" it does not signify that the thread has been measured, but that the spool has been gauged and is supposed to have that amount of thread upon it.

Distress in Russia.

Heartrending Accounts from the Famine Stricken District.

By Associated Press.

LONDON, Oct. 1.-The St. Petersburg correspondent of the Standard confirms the reports of the dire distress at present existing in Russia. He says that 25,000,000 persons are unable to pay their taxes and that this will cause a budget deficit of £12,000,000. M. Vishnegradski, Minister of Finance, the correspondent added, has just granted another million for the relief of the terribly distressed people.

The St. Petersburg correspondent of the News says: A Government circular has again been issued forbidding press allusions to the famine, in consequence of articles proposing an income tax to relieve overburdened peasants. Private letters give heartrending accounts of the distress among the people, especially in Kazin, Samars and Nijni-Nogorod. Deaths are so numerous that many people are buried without religious rites. The tribunals dismiss charges of robbery of bakeries.

Raspberry Syrup.

On three quarts of red raspberries pour 1 1/2 pints of cider vinegar, and let stand twenty-four hours. Strain, and to each pint of liquid add a pound of granulated sugar; scald twenty minutes, skim and bottle, sealing tightly.

It is stated that there are 27,000,000 pores on the surface of our bodies which, if placed in a line, would extend twenty-eight miles in length, and that we lose two pounds of water in the twenty-four hours by perspiration.

The best endowed insane asylum in the country is the Sheppard asylum in Baltimore, on which \$800,000 has been spent, while nearly as much remains for future use.

A Great Country, and How to Reach It.

Owing to the great amount of interest shown in the northwestern states, and especially in Montana and Washington, the Northern Pacific Railroad has prepared two folders, entitled "Golden Montana" and "Fruitful Washington," which contain a great many interesting and valuable details in reference to climate, topography, agriculture, stock-raising, mining, lumbering, government and railroad lands, homesteads and other subjects of interest to the capitalist, business man or settler. These folders can now be obtained on application to the General Passenger Agent of the road.

It should be borne in mind by travelers to the Northwest that, among other things, the Northern Pacific Railroad offers the following advantages: It is the direct line to principal points in Minnesota, North Dakota, Montana, Idaho, Oregon and Washington; it has two trains daily to Helena and Butte, Wash.; Spokane, Tacoma and Seattle, Wash.; and Portland, Ore.; it has complete equipment of Pullman first class sleeping cars, dining cars, day coaches, Pullman tourist and free colonist sleepers, the cars being new, comfortable and neat; it has through sleeping car service every day from Chicago, Ill., to Montana and Pacific Coast points, of Pullman first-class and tourist sleeping cars in connection with the Wisconsin Central line, and vestibuled first-class sleepers via C. & St. P. Ry.; it passes through the grandest scenery of seven states and the great young cities of the northwest; the service is complete in every respect, the "Yellowstone Park and Dining Car Route" being, in fact, a thoroughly first-class line to travel over.

District Passenger Agents of the Company will supply publications referred to above, with maps, time tables, rates and other special information, or communications addressed to Chas. S. Feun, G. P. & T. A., St. Paul, Minn., will receive prompt attention.

How the Treasury is Guarded.

The Treasury watch is composed of seventy veteran soldiers, who are cut into three squads dividing every twenty-four hours into three equal watches of eight hours each. The men wear no uniforms, and would not impress the casual visitor to the Treasury during the hours when the public was admitted. So far as human watchfulness can be relied on the Treasury is guarded, but there must be new sentries and the Commission will soon report to Treasurer Nebeker his recommendations for building new vaults and strengthening the old ones.

To Our Subscribers.

The SPECIAL ANNOUNCEMENT which appeared in our columns some time since, announcing a special arrangement with Dr. B. J. KENDALL CO., of Enosburgh Falls, Vt., publishers of "A Treatise on the Horse and his Diseases," whereby our subscribers were enabled to obtain a copy of that valuable work FREE by sending their address to B. J. KENDALL CO., (and enclosing a two-cent stamp for mailing same) is renewed for a limited period. We trust all will avail themselves of the opportunity of obtaining this valuable work. To every lover of the Horse it is indispensable, as it treats in a simple manner all the diseases which afflict this noble animal. Its phenomenal sale throughout the United States and Canada, make it standard authority. Mention this paper when sending for "Treatise."

36-27-12t.

An Italian Duchess.

The Duchess Bolognini, who has recently lost her husband and son, has sold her jewels for \$100,000 and given the proceeds to the Milan hospital in memory of her son.

Draw Butter.

Rub together two table-spoonfuls butter, one of flour; add just a trifle of cold water, then some boiling water, until proper consistency, little salt. Boil two minutes.

John F. Cox, 77 years of age.

committed suicide in Lynn, Mass., by throwing himself from a third story window. He was at one time a professor in a Canadian college.

Lady Henry Somerset, President of the British Women's Temperance Association.

will visit America in October to be present at the World's Christian Temperance union.

A New York girl traveling abroad.

broke her engagement and sent back the engagement ring to her lover in America, who had to pay \$46 duty upon it.

Leonard Wilson, formerly Stanley's private secretary.

has been appointed attaché at the library of the king of the Belgians, and given apartments in the royal palace.

It is said that the Palo Alto university.

Engine No. 63, on the Panhandle road.

has run 350,000 miles in three years' time, and was still in good condition at the end of her service.

See What is in Dixie.

The people of the Southern section of the Union have gathered together the products of the farm, orchard and garden, and placed them on exhibition in Raleigh, the capital of North Carolina. By reason of its proximity to the North, this is a most convenient point at which to hold the Southern Interstate Exposition. The rate for the round trip from New York by way of the Old Dominion Steamer will be about fifteen dollars; from Baltimore, by the Bay Line Steamers on the beautiful Chesapeake Bay, about ten dollars; from Norfolk, Va., about four dollars; from Washington, D. C., by way of the Atlantic Coast Line or the Richmond & Danville, about ten dollars.

This is the most excellent opportunity that will be presented to the Northern people to see what is and can be grown in the Southern States; and by all means let our people go down and see what the South can show; see the people, get acquainted with them, and learn much that will be to their advantage. The mode of growing cotton, distilling turpentine, the picking of cotton and pressing it into bales, are all interesting features in the Southern industry. The exhibition will be so unlike Northern affairs, so unlike the Chicago Exposition, so unlike anything North or West, that our people will miss the opportunity of their lives if they fail to attend the Great Exposition during the months of October and November.

Inquire of H. P. Clark, 229 Broadway, New York; or at Bay Line Steamers' wharf Baltimore, for reduced rate tickets.

Boiled Macaroni.

Put macaroni into a porcelain-lined kettle; add a small onion chopped; boil in water about half an hour, stirring often. When tender add pieces of cheese; take away from the fire, cover tight, and let the cheese melt before serving.

EVERY -PATRIOT-

should read a good newspaper. In the selection of a newspaper many considerations should govern. First, it should be one that makes a good newspaper. It should be one that is good, upright, clean. Such a newspaper is

THE PATRIOT,

enlarged, handsome, bold in appearance, and unwaveringly Democratic. It is the only Democratic newspaper at the State Capital. It makes a special department News. It receives and prints full Associated Press Reports from all points tributary to Harrisburg, all the Harrisburg News, Fashion Notes, Household Hints, Domestic Recipes, Society Gossip, Scientific, Humorous and Political Articles, Short Stories and Sketches. Its Market Reports are complete, both as to Finance and Commerce. Its Live Stock Markets are prepared specially for The Patriot, and have only been successfully imitated by one other newspaper in the State. The Saturday Sermon of Spurgeon, London, is a great feature.

The Patriot wants the masses intruded on or locked up. To this end it heartily urges the election of Wright and Tilden as the only means to stop the plundering of the public treasury.

The Weekly Patriot, 8 pages, is only \$1 a year. It maintains the best features of the daily, including the Spurgeon Sermon. First take your home paper, then it. Send for circular and sample (free) of either daily or weekly.

Liberal rates for campaign or otherwise, Address THE PATRIOT COMPANY, D. A. ORR, President Harrisburg, Pa. JOHN G. ORR, Treasurer 36-37
