Hints on Marriage.

A Few Suggestions Telling You How to be Happy, Though Married.

Respect each other's individuality. Do not try to mold the other's ideas, principles or manners to the pattern of your own. Seek to influence each other only by the power of higher example...

By your worthiness and culture make the other proud of you, and do not feel that marriage gives you any right to demand, or dictate, or criticize. Maintain and allow the same freedom that exists between good and pure friends...

Never ask personal questions nor seek explanations, for you are not a hundredth part as responsible for each other as you are apt to imagine. Let your love be founded on friendship and admiration. Strive to correct your own faults and study to make the other happy, and be exceedingly careful that you never reverse this rule...

Keep your most refined and gentle manner for the home. Never refer to a mistake that was made with good intentions. When a wrong is pardoned bury it in oblivion. Consider the other's honor your own, and shield each other's weakness with sacred jealousy...

Remember that ill-temper nearly always comes of disappointment or over- or physical suffering. Treat each other as courteously in private as you treat your friends in the drawing-room. Never allow intimacy to become familiarity. Be rivals in generosity, and let misunderstandings die for want of words...

Consider marriage as the partnership of equals. Share the joys and sorrows of life, its toils and profits, as equal partners should. To Kiss or Not To Kiss. Physicians Say the Pastime is Dangerous--Certificates Suggested...

Next to jumping off express trains, going up in balloons and monkeying with buzz saws, kissing seems to be the most risky and dangerous pastime to which the human family is given. If statements of well known physicians are to be believed. A cable dispatch from Berlin states that a physician of that city declares that kissing was a prolific cause of the spread of infectious and contagious diseases, particularly such as diphtheria, measles, whooping cough, scarlet and typhoid fevers and consumption. He produced several ponderous volumes in which the subject was treated, and in which some cold blooded statistician had figured it out that three and two tenths per centum of certain diseases were transmitted by the apparently harmless kiss...

Dr. Crim said that he didn't expect that any amount of argument would check the habit which has been going on since the foundation of the world, but he suggested that it would be well for those who are much given to the exercise to obtain certificates of health, which they could show to each other at the beginning of each performance. Any one who could not produce such a certificate should be ruled out of the game...

We extend a most cordial invitation to our patrons and the public, in general, to witness one of our GRANDDEST DISPLAYS OF Light and Heavy Harness...

ever put on the Bellefonte market, which will be made in the large room, formerly occupied by Harper Bros., on Spring street. It has been added to my factory and will be used exclusively for the sale of harness, being the first exclusive saleroom ever used in this town, as heretofore the custom has been to sell goods in the room in which they were made. This elegant room has been refitted and furnished with glass cases in which the harness can be nicely displayed and kept away from heat and dust, the enemies of long wear in leather. Our factory now occupies a room 174 feet and the store makes it the largest establishment of its kind outside of Philadelphia and Pittsburg...

We are prepared to offer better bargains in the future than we have done in the past and we want everyone to see our goods and get prices for when you do this, out of self-defense you will buy. Our profits are not large, but by selling lots of goods we can afford to live in Bellefonte. We are not indulging in idle philanthropy. It is purely business. We are not making much, but trade is growing and that is what we are interested in now. Profits will take care of themselves. When other houses discharged their workmen during the winter they were all put to work in my factory, nevertheless the big (2) COLLEARS from \$1.50 to \$5.00 each, over \$100.00 worth of HARNESS OILS and \$400 worth of Fly Nets sold cheap...
