

Farm Notes.

In a few weeks onions will receive attention, as the crop is the first one planted and in this section the sets are sometimes set out in March...

As many will be interested in his method, it may be stated that the varieties are mostly of the "Prize Faker" and "Spanish King," the "Victoria" being preferred as a white onion...

How to manage the cow in her stall is one of the difficulties as great as that of feeding. Unless great care is taken, a cow is liable to void her droppings where she will come in contact with them...

The rows should be twelve inches apart, and the plants three inches apart in the rows. Of course, this close planting calls for much labor...

Every farmer knows how unsightly the tufts of grass appear in the pasture which have been stimulated by the droppings of the animals.

A sudden change from the dry food of winter to green food is liable to cause the cows to fall off in milk...

In Western New York, where grapes are grown and kept until Christmas, the yield of an acre is estimated at about four tons, while the cost of the labor is said to be no greater than for an acre of corn.

Currents have been neglected of recent years, owing to the ravages of enemies, yet the enemies can be kept in check by proper remedies and care.

There is no sure remedy for mildew in gooseberries. It may be avoided to a certain extent, however, by trimming the bushes so as to give them an open head...

Level culture of potatoes permits of the retention of more moisture in the ground, presenting less surface for evaporation than hills, and the ground can also be more easily cultivated...

For seed use sound and smooth potatoes, allowing two good eyes to each piece. Large pieces are better than small ones.

The Most Important Enterprise in the World.

Warner Miller in the February Forum.

To-day the building of the Nicaragua Canal is the most important enterprise demanding the attention of the world. From the discovery of America until the present time a passage from the Atlantic to the Pacific, across Central America, has been sought...

This is Meant for You.

It has been truly said that half the world does not know how the other half lives. Comparatively few of us have perfect health, owing to the impure condition of our blood.

A Murder Explained.

"Julie" remarked Brutus as he strolled into the great Caesar's tent, "did I ever tell you of the fight I once had among the Allobroges?"

"Brute, my boy," remarked Caesar solemnly when he had finished, "I admire Gaul, especially Transalpine Gaul, but still I must say that you remind me of a harp shattered by the lightning of great Jove."

"How so?" inquired Brutus, unwarily. "Because you're a blasted lyre," answered Caesar.

"Do send down something to help us!" "These little Pleasant Pellets, you sent before were just what we wanted!"

"They helped right where we were weakest!" "Don't send anything else!" "Nature abused and neglected, does her best to overcome exhaustion and ward off threatening disease..."

"Give Us a Lift." "Do send down something to help us!" "These little Pleasant Pellets, you sent before were just what we wanted!"

"Nature abused and neglected, does her best to overcome exhaustion and ward off threatening disease, but sometimes calls for help, and knows just what she's about. The system takes kindly to the mild, wholesome influence of Pierce's Pleasant Pellets..."

Big Men's age.

Benjamin Harrison is 59, John Sherman is 69, Joseph Hawley is 66, Senator Hoar is 66, Mr. Blaine is 62, Senator Morrill is 82, Tom Reed is 52, Senator Allison is 63, Senator Ingalls is 59, and Matt Quay is 59.

"Le is an ocean, Each one has his bark." "Some have a bark they would gladly be rid of—a ceaseless, persistent, tormenting cough! present by day, not absent by night."

"There are 536 authorized guides in the Alps. One hundred and ninety-four of them have taken a regular course of instruction in their profession and have received diplomas."

"I have been troubled with catarrh for ten years and have tried a number of remedies, but found no relief until I purchased a bottle of Ely's Cream Balm."

"The opportunity of taking an advanced course in medicine is now open to women. This course, conducted at John Hopkins University, will be as good as any in this country."

"Tous am I doubly armed, my death and my life, my bane and antidote, are both before me." I have got a miserable attack of rheumatism and a moderate spell of sciatica, but I have also a bottle of the celebrated Salvation Oil to cure both.

A Cause of Crime.

Hon. Richard Vaux, of Philadelphia, recently completed fifty years' service as an inspector of the eastern penitentiary of this State. Forty years of this time he was president of its board of directors.

COTTON SEED AND LINSSEED MEAL.

THE BEST AND CHEAPEST FOOD FOR COWS AND HORSES.

One fourth of a feed of Cotton Seed Meal fed to Cows produces rich milk. It is well established fact that one pound of Cotton Seed Meal is equal to two pounds of chopped corn or four pounds of wheat bran; hence it is the cheapest food for cows.

LINSSEED MEAL fed to horses in small quantities prevents colic and makes your horses thrive and sleek to the coat.

PRATTS FOOD. PRATTS FOOD for stock has a good reputation for keeping all kinds of animals in good condition.

Saddlery. SCHOFIELD'S NEW HARNESS HOUSE.

We extend a most cordial invitation to our patrons and the public, in general, to witness one of the GRANDEST DISPLAYS OF Light and Heavy Harness

ever put on the Bellefonte market, which will be made in the large room, formerly occupied by Harper Bros., on Spring street. It has been added to my factory and will be used exclusively for the sale of harness, being the first exclusive salesroom ever used in this town, as heretofore the custom has been to sell goods in the room in which they were made. This elegant room has been refitted and furnished with glass cases in which the harness can be nicely displayed and still kept away from heat and dust, the enemies of long wear in leather. Our factory now occupies a room 16x74 feet and the store 28x30 added makes it the largest establishment of its kind outside of Philadelphia and Pittsburg.

We are prepared to offer better bargains in the future than we have done in the past and we want everyone to see our goods and get prices for when you do this, out of self defense you will buy. Our profits are not large, but by selling lots of goods we can afford to live in Bellefonte. We are not indulging in idle philanthropy. It is purely business. We are not making much, but trade is growing and that is what we are interested in now. Profits will take care of themselves.

When other houses discharged their workmen during the winter they were all put to work in my factory, nevertheless the big (?) houses of this city and county would smile if we compared ourselves to them, but we do not mean to be so odious, except to venture the assertion that none of them can say, as we can say "NO ONE OWES US A CENT THAT WE CAN'T GET." This is the whole story.

The following are kept constantly on hand. \$50 SETS OF LIGHT HARNESS, prices from \$8.00 to \$15.00 and upwards. LARGE STOCK OF HEAVY HARNESS, per set \$25.00 and upwards. 200 HORSE COLLARS from \$1.50 to \$5.00 each, over \$300.00 worth of HARNESS OILS and AXLE GREASE.

\$400 worth of Fly Nets sold cheap from 15c to \$3.00 each. Horse Brushes, Curly Combs, Sponges, Chamois, RUBBING SADDLES, LADY SADDLES, Harness Soap, Knee Dusters, at low prices. Saddlery-hardware always on hand for sale. Harness Leather as low as 25c per pound. We keep everything to be found in a FIRST CLASS HARNESS STORE—no change in price. Four harness-makers at steady work this winter. This is our idea of protection to labor, when other houses discharged their hands, they soon found work with us.
