Sir Morell Mackenzie Dead.

The Great Throat Disease Specialist Dies of Bronchitis.

Sir Morell Mackenzie the distinguished physician, whose serious illness with bronchitis was announced a few days ago is dead.

Dr. Mackenzie was born in Leytonstone, Essex, in 1837, and was educated at the London Hospital Medical College and in Paris and Vienna. He founded the Hospital for Diseases of the Throat in Golden Square, London, in 1863.

In the same year he obtained the Jacksonian prize from the Royal College of Surgeons for his essay of diseases of the larynx. He was soon afterward elected assistant physician of the London Hospital, becoming in due course full physician and was appointed lecturer on diseases of the throat, an appointment which he held at the time of his death.

He was a corresponding member of the Imperial Royal Society of Physicians of Vienna, and of the Medical Society of Prague, and an honorary fellow of the American Laryngological Association.

Dr. Mackenzie was the author of numerous publications on laryngological subjects, and in particular of a systematic treatise in two volumes, on "Diseases of the Throat and Nose," which is acknowledged to be a standard work, having been translated into French and German and having a very large circulation in England and America.

He was in attendance on Frederick III, German Emperor, during the latter's last illness and was knighted in 1887. He published in 1888 "The Fatal Illness of Frederick the Noble." At the close of that year he resigned his connection with the College of Physicians.

In 1889 he contributed to the Contemporary Review some essays entitled "The Voice in Singing and Speaking."

How They Manage It.

"Nice eggs, ain't they?" said a man at Wood River Station the other day, according to a sample of "hen fruit" from a pair that a fellow passenger carried.

"Yes," responded the owner of the eggs, "they're, pretty good looking."

"Blooded stock," he continued, "but as I paid only twenty-two cents for them I guess they wouldn't hatch." "Why, how's that?" said an ignorant city man who stood near. "Well, you see," replied the man with the eggs, "if these eggs were sold for hatching they would fetch something over one dollar a baker's dozen, being of blooded stock, but the supply being greater than the demand they were sold for eating purposes at the regular market rate of twenty-two cents. The poultry fancier, though, to guard against their use for setting, has run a fine needle through the inner end of each, so as to just pierce the thin skin, a trick that does away effectually with all hopes of hatching."

This little scheme of the guileless poultry dealer to keep up the price of hatching eggs in season was new to the city man, but his informant said it was a practice as old as the hills. -American Cultivator.

A High Price for Patriotism.

From the Columbia Democrat.

With no new legislation, Pension Commissioner Raum believes that a maximum of \$160,000,000 may denote the highwater mark of pension expenditures.

Things have changed to be sure, since Mr. Garfield declared, fifteen years ago, that \$88,000,000 would represent the highest point of expenditure for pensions. The Treasury surplus is gone, and more pensions would mean more taxes. Raum may be right; and yet the pension-grabber is not likely to be content even with his huge figures. The organized appetite for pensions will be satisfied with nothing less than service pensions for everybody with a shadow of claim to the public largess.

Our Available Army.

WASHINGTON, Feb. 1.-The Secretary of War to-day transmitted to the senate a statement showing the military force of the United States, organized and unorganized, according to the latest returns received at the office of the adjutant general of the army. The abstract shows the total number of enlisted men is 101,851, commanded by 8,870 commissioned officers besides 1,248 staff officers, making a total aggregate of 111,948 men in the militia service. The number of men available for military duty organized is 8,567,258.

Big Lakes Frozen Solid.

For the First Time in Six Years Lake Erie is Covered With Ice.

ERIE, Pa., Feb. 1.-Lake Erie is frozen from the American to the Canadian shore for the first time in six years. Lake St. Clair is also frozen solid from shore to shore, and the ice is so thick that race courses have been laid out upon it and races are held daily.

Vessel owners are pleased with the situation, as it is likely to make the opening of navigation late, which will insure better rates of freight.

Referred to the United States Senate.

COLUMBUS, O. Feb. 2.-The house committee considering the resolution providing for an investigation of the title of Senator Brier in the United States senate reported to-day, recommending that the whole matter be referred to the United States senate with the request that Senator Sherman proceed in accordance with the rules of that body.

So many have been cured of rheumatism by Hood's Sarsaparilla that we urge all who suffer from the disease to try this medicine.

—Read the WATCHMAN for political and general news.

Ireland the Issue.

Lord Salisbury Says it is the Burning Question of the Hour.

LONDON, Feb. 2.-Lord Salisbury spoke to-day at Exeter, where he met with an ovation from Devonshire Conservatives. Lord Salisbury criticised the Liberal program as being obscure, indefinite and full of empty promises.

The Liberals appeared to rely on the creation of parish councils as a means to improve the condition of laborers by adding interest to village life. It was not the duty of the government, the speaker declared, to take care of the amusements of citizens, and it were, there were other and more effectual ways of accomplishing that end.

He commented on Mr. Chamberlain's old age insurance measure, and said he was hopeful that this scheme would remedy the distress prevailing among the working classes. Another remedy for relieving distress was the creation of small rural holdings, which the government trusted would confer great advantage by relieving the sufferings of the poorer classes. The existence of small holdings would provide the strongest bulwarks against revolutionary changes. Ireland, however, remained the burning question of the hour, on which would rest the issue not only of the next election, but perhaps on others, and he appealed to the country to uphold the union.

The Great Northwest.

The States of Montana and Washington are very fully described in two folders issued by the Northern Pacific Railroad, entitled "Golden Montana" and "Fruitful Washington." The folders contain good county maps of the states named, and information in reference to climate, lands, resources, and other subjects of interest to capitalists, business men and settlers.

Holders of second class tickets to North Pacific Coast points, via Northern Pacific Railroad, are allowed the privilege of stopping over at Spokane, Washington, and points west thereof, for the purpose of examining all sections of this magnificent state before locating. Northern Pacific through express trains carry free colonist sleeping cars from St. Paul, and Pullman tourist sleepers from Chicago (via Wisconsin Central Line) to Montana and Pacific Coast points daily.

California tourists, and travelers to Montana and the North Pacific Coast, can purchase round trip excursion tickets at rates which amount to but little more than the one way fare. Choice of routes is allowed on these tickets, which are good for three or six months, according to destination, and permit of stop-overs.

The elegant equipment on the Northern Pacific Railroad; the dinner car service; the through first class sleeping cars from Chicago (via Wisconsin Central Line and C. M. & St. P. Ry.) to Pacific Coast points, and the most magnificent scenery of seven states, are among the advantages and attractions offered to travelers by this line.

The "Wonderland" book issued by the Northern Pacific Railroad describes the country between the Great Lakes and Pacific Ocean, with maps and illustrations.

For any of the above publications, and rates, maps, time tables, write to any General or District Passenger Agent, or Chas. S. Fee, G. P. & T. A., N. P. R. R., St. Paul, Minn. tf.

To Break Up a Cold.

A Half Dozen Simple Remedies of the Tea and Gargle Sort.

For breaking up a cold there is nothing better than hot lemonade taken upon retiring. This is made by putting the juice of two lemons in a pint of hot water. Boil one minute. Sweeten to taste and drink as hot as possible.

BONASET TEA.

To make this take one tablespoonful of bonaset put in a pint of hot water, letting it draw fifteen minutes. Sweeten with molasses. When cold, strain and take two tablespoonfuls every half hour.

HOARBOUN TEA.

Hoarbound tea is also excellent, being made and taken in the same way. These herbs can be obtained from any druggist.

OLD FASHIONED ONION SYRUP.

The old fashioned onion syrup, made of minced onions, a tablespoonful of vinegar, cider vinegar is the best, and half a cup of boiling molasses, will be found a good remedy for hoarseness and sore throat.

GARGLES FOR SORE THROATS.

An excellent gargle is made of one tablespoonful of cayenne pepper, half a cup of boiling vinegar and three tea-spoonfuls of salt. Mix well together, and when settled strain. Gargle the throat every half hour. Anyone subject to sore throat of any kind will find a certain cure and preventive in the daily use of salt and water as a gargle.

BURNT CAMPHOR.

The fumes of burnt camphor will instantly relieve a cold in the head. Put a piece of camphor the size of an egg in an old saucer. Set it on fire and after burning a few moments blow out the flames and inhale the fumes. -Mary Marston in Ladies' Home Journal.

Career of the Red Necktie.

From the Pioneer Press.

Perhaps no article of apparel has ever had such a popular run in this country as the red tie. The craze has swept over the entire country from the Atlantic to the Pacific coast, and in every hamlet and prairie village, city and town, the red necktie blazes. No young man's wardrobe was complete unless he was the happy possessor of at least several of these ties. The craze has already begun to subside. It would not be correct to claim that "reds" are dead, but they are slowly passing away.

The bottom of the straw stack, which often gets wet, is a source of disease and becomes the harboring place of insects.

—Fine job work of ever description at the WATCHMAN Office.

The B. & O. South-western Limited.

On November 20th the B. & O. R. R. placed in service on its South-western Limited Express train running to Cincinnati and St. Louis an entirely new equipment, built expressly for this train by the famous Pullman Company.

The new cars embrace all the features that have rendered the Royal Blue Line trains so universally popular, and include the safety vestibule, steam heat, Pintsch gas light, and anti-telescoping device, and convenient toilet accessories for men and women. The Royal Blue Line train leaving Philadelphia at 11:35 a. m. makes direct connection with the South-western Limited at Baltimore, where coach passengers change cars. The sleeping cars run through from New York and Philadelphia to Cincinnati and St. Louis without change, arriving at Cincinnati next morning at 7:45 and St. Louis next evening at 6:25.

A British View of the Settlement.

LONDON, Jan 31.-The Santiago correspondent of the Times says: Public opinion here is satisfied with the procedure of the government in the dispute with the United States. Interest now centres in the precedent which the United States is preparing to solemnly lay down for herself, and in the question whether her further demands will be such as she herself would be prepared to concede under similar circumstances.

CONSIDERING THE NAME.

Mrs. Billus.-Don't you think this overcoat is a little too new to give away, John? Mr. Billus.-It's the agent of the Prompt Amelioration and Relief Society that's at the door, isn't it? Mrs. Billus.-Yes. Mr. Billus.-Then let the coat go. It will be long enough when it gets to the fellow that needs it.

Cream lace in exquisite designs is shown in wide collars with cuffs to match. These sets are to be worn with house toilets exclusively.

If you want printing of any description the WATCHMAN office is the place to have it done.

Medical.

DYSPEPSIA.

INTENSE SUFFERING FOR 8 YEARS RESTORED TO PERFECT HEALTH.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Stanton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed in me, called dyspepsia, and soon I was reduced to 122 pounds, suffering burning sensations in the stomach, palpitation of the heart.

NAUSEA AND INDIGESTION I could not sleep, lost all heart in my work, had fits of melancholia and for days at a time I would have welcomed death. I became nervous, irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla. I did so, and before taking the whole of a bottle I began to

FEEL LIKE A NEW MAN. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle the waker I had regained my former weight and condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

HOOD'S SARSAPARILLA has been found of great benefit. It costs but little to try, and it may do you a great deal of good. Be sure to get Hood's.

HOOD'S SARSAPARILLA, Sold by all druggists. \$1; six for \$5. Prepared only by C. I. Hood & Co., Apothecaries, Lowell, Mass. 36 49
