pilling, of Rochester, Lasts Only two Minutes -Tom Chaffee, of Philadelphia, Has Enough in Fifty Seconds-Joe Lannon, of Providence, Downed With a Rush.

NEW YORK; Feb. 16 .- Ten thousand people saw the boxing—if such it may be termed—at Madison Square Garden to-night, and ten thousand people were trampled on, bruised and clubbed in try-ing to give up their tickets. The crush at the door was something unprecedented and an inadequate force, even aided by rosewood clubs, freely used, was ut-terly insufficient to cope with it. This great crowd was attracted by the advertisements which for three weeks past have announced James Corbett, of California, would meet three men of his own class tonight. Joe Lannon, formerly John L. Sullivan's starring partner, was the only one of the three

Tom Chaffee, of Philadelphia, next appeared and put up his hands against Corbett. Chaffee stood up just fifty seconds when he fell to avoid punishment and was so clearly at the mercy of the Californian, that Captain Reily ordered him off the platform.

Then came Joe Lannon, of Providence, the conqueror of Godfrey. Be-fore they shook hands, however, the po-lice ordered Corbett and Lannon to put on six-ounce gloves, and they had to do so. In the first round Corbett, try as tuting State College Lodge No. 1032. In conhe would, could not reach Lannon with any force. The second round was a repetition of the first, Lannon fighing on the defensive and Corbett being unable to do much with him. He got in one heavy blow on Lannon's jaw, but that was about all. In the third round Corbett started in with a rush and forced Lannon all over the ring. Lannon did what he could to defend himself, but he was practically helpless, and when time was called and the bout was over he was very groggy,

#### The Murderer of Jesse James Killed in a Colorado Mining Town.

Pueblo, Feb. 16.—Bob Ford was shot dead to.day in a saloon at the new mining town of Creede, Col.

Bob and Charles Ford, under the dictation of Gov. Crittenden, of Missouri, shot and killed Jesse James, on April 16, 1882. They had been implicated in a train robbery and fled to Nashville, where they lived with Jesse James for several months.

Bob opened negotiations with Gov. Crittenden for the betrayal of the famous robber. He promised to bring when D. D. G. M. Rankin declared the above in Jesse James dead or alive for the reward and free pardon for himself and brother Charley. Knowing that it was impossible to take Jesse James alive, with the hospitality State College members he continued professions of friendship, and others, your correspondent, was royally and on the chance shot him through the back of the head in Jame's own at the cosy home of Col. The assassination caused a big reaction in favor of the James boys, and six months later Frank James surrendered upon the promise of a fair trial, and was promptly acquitted of murders and train robberies.

The Fords appeared in a dime museum for several months after the tragedy, but eventually drifted West, where Charley Ford two years ago died of consumption. Bob Ford has lived in Denver for a year past. Recently he went to the mining town of Creede, where he to-day met his death.

# Perils of the Mines.

President Harrison Sends a Message on the Subject to Congress,

Washington, Feb. 16 .- The following is the text of a message transmitted to congress to-day by the president: "There was passed by the last congress an act for the protection of the lives of the miners in the territories; which was approved by me on the third day of March, 1891. That no appropriation was made to enable me to carry the act into effect resulted, I suppose, from the fact that it was passed so late in the session. This law recognizes the necessity of a responsible public inspection and supervision of the business of mining in the interest of the miners, and is in line with the legislation of most of the states.

"The work of the mines has its unavoidable incidents of discomfort and danger, and these should not be increased by the neglect of the owners to provide every practicable safety possible. Economies which involve a sacrifice of human life are intolerable.

"I transmit herewith, memorials from several hundred miners working in the coal mines of the Indian Territory, asking for the appointment of an inspector under the act referred to. The recent frightful disaster at Krebs, in that territory, in which sixty-seven miners met a horrible death, gives urgency to this appeal, and I recommend that a special appropriation be at once made for the salaries and necessary expenses of the inspectors provided for in the ed about two miles from the city proper-

JACKSON, Miss., Febuary 16 .- The four story main building of the state aslum for the insane was set on fire about 5 o'clock this morning by J. H. Brown, an inmate of the institution. Brown had recently escaped and was only returned yesterday. He stated to his attendants that it would be all the worse for him and them that he was again confined. His threat was soon put into ex-ecution and he himself was unable to escape from the building and was burned to death, a victim of his insane deed.

There were 600 inmates in the building, most of whom were asleep when the flames were discovered. Through the superhuman exertions of the superintendent, Dr. Mitchell, and his subordinates, all were saved and transferred to the wings disconnected from the burn-

After performing this extraordinary feat, Superintendant Mitchell, just up from a sick bed, staggered and fell under the fearful ordeal through which he had passed and was conveyed to his residence. Assistant Noland Stewart, after heroic and suc-

cessful endeavors, also succumbed. The building was of brick and had a frontage of about 500 feet. It is situatty. The loss to the state is probably \$20,000. There was no insurance. The egislature this afternoon appropriated

\$25,000 to meet immediate demands.

### Garza Appeals to Harrison

SAN ANTONIO, Tex., Feb. 16 .- Revo-Intionist Catarino E. Garza, safe at Coahuila, on the Mexican side of the river, with the Yaquis Indians at his back for shelter, is busily inditing stirring manifestoes against "that tyrant, Porfirio Diaz." His latest accuses General Stanley of entering into "clan destine treaties with Diaz to murder Mexicans residing in Texas," and calls upon President Harrison to correct the outrage. He declares that the revolution has spread in most parts of the States of the Mexican Confederation.

Mrs. Flower the charmin wife of New York's new Governor has not escaped the ubiquitous interviewer and is reported to have said that on taking possession of the mansion vacated by the bachelor Governor Hill that she found cigar stumps in the sugar bowl, empty bottles under the parlor tables and poker chips in the prayer book. This may be exaggerated we hope it is-but it is true that she did say, "I am an American through and through, I have been in a number of famous trade marts in Europe and Southern Asia, and I have yet to find a better, cheaper place to shop than a first-class American store. If not having the particular article called for they at once wire the importers or manufacturers for samples and through that courtesy we save much time as well as money. No, American goods and stores are good enough at least for one American family." That was nobly spoken and all honor be to her for the utterance.
