

Hippolyte Borrows Money.

Ruinous Interest for Anybody But a Dictator—Legitimate \$5 Bills Made Current.

Advices from Haiti says that Hippolyte has secured a loan from the bankers of Port-au-Prince at a big shave. The bankers have agreed to lend him \$1,800,000 in monthly payments of \$150,000. Interest at the rate of 1 per cent. a month is to be paid, beginning with Feb. 25 and at the rate of 1 1/2 a cent per month, beginning with Feb. 1, 1893. Capital and interest are secured and paid off monthly by a tax on the export duties, equal to \$1 on every 100 pounds of coffee, \$1.95 on every 1,000 pieces of logwood, and \$1.25 on every 100 pounds of cocoa.

The loan is made to Hippolyte not in gold but in bank notes, which are now depreciated 25 per cent. A commission of 5 per cent. is allowed to the bankers. The most astounding condition of all, however, is that the \$5 bills of Legitime, issued in 1888, are received on par with the national bank notes of the country. These \$5 bills were repudiated by Hippolyte at his accession to the Presidency.

The interest, amounting each month to \$18,000, is paid in American gold on the face value of the loan. Legitime had in his possession about \$80,000 of his \$5 bills. These were paid in by the bankers at the first installment, and the refuge now finds himself made rich by his most bitter political enemy. There is about \$517,000 in these bank notes in Port-au-Prince.

Indians Graduate.

CARLISLE, Pa., February 24.—The thirteenth annual commencement of the Carlisle Indian Training school was held today and was witnessed by a large audience. It was held three months sooner than usual so as to allow the earlier sending of 200 pupils upon farms and that the agricultural patrons might attend the exercises. The forenoon was given to an inspection of the school. The commencement being held at 2 p. m. the large assembly hall was filled, and upon the stage sat a number of distinguished guests, among them Senator Dawes, Representative English and a number of other visitors from Washington. The graduating class consists of eight pupils—Joseph H. Hamilton, a Piegian; Luzena Choteau, a Seneca; Frank Everette, a Wichita; Reuben Wolfe, an Omaha; Hattie Longwolfe, a Sioux; Albert Bishop, a Seneca; Lydia K. Flint, a Shawnee, and Benjamin Caswell, a Chippewa. The diplomas were presented to the graduates by Rev. Dr. James E. Rhoades, president of Bryn Maur college.

Two Killed, Another Will Die.

A Pleasure Party Struck by an Express Train Near Pittsburgh.

PITTSBURGH, Feb. 23.—The West-bound St. Louis express, on the Pennsylvania road, ran down a pleasure party at Hawkins Station, near here, about two o'clock this morning, killing Alice Gaskill and fatally injuring William Dewar and Milton Zeigler. The happy party were returning from a dance at Braddock, and having missed the train were walking home. The had reached Hawkins Station, when the express came around a sharp curve. The sudden appearance of the train bewildered the young people, and before they could step from the tracks the engine was on them, and they were ground under the wheels. Miss Gaskill was dead when picked up. Zeigler and Dewar were still living, but unconscious. They were taken to the West Pennsylvania hospital, where Dewar died two hours later. The physicians have no hopes of Zeigler's recovery.

Elkins For Governor.

Secretary of War Ever to Be West Virginia's Chief Executive.

WHEELING, W. Va., Feb. 21.—Stephen B. Elkins, Secretary of War, is slated as the Republican nominee for Governor of this State at the coming election. Ex-Congressman G. W. Atkinson and N. B. Scott, member of the National Republican Committee, from this State, both say that the gubernatorial nomination will certainly be tendered to Secretary Elkins and he will doubtless accept it. On the heels of this announcement comes the information that the Farmers' Alliance and the Ohio Valley Trade and Labor Assembly have been holding secret conferences with a view to fusing this year. They number 30,000 members, and they want to secure a majority of the Legislature which will elect a United States Senator. They will put up a full State ticket.

Diamond Hunchbacks.

Two Deformed Sufferers With Jewelry Stores in Their Humps.

NEW YORK, Feb. 23.—Two hunchbacks came over as passengers on the steamship La Bretagne to-day. Special Customs Inspector Donohue, noticing them in the cabin, recalled the superstition that luck comes with feeling a hunchback's hump, and as they descended the gang-plank passed his hand over their humps. A metallic jingle immediately told him of his luck. Each of the humps was found to be a stock of diamonds, ruby and pearl earrings cameo and agate brooches, sapphire bracelets and jeweled rings. Both deformities were quickly cured, and the hunchbacks were en route for California, are still guests in the seizure room of the Custom House.

Would that All Could See It as the Writer.

From the Altoona Tribune.

The supremacy of the law at all times and under all circumstances is a good motto for every patriotic citizen. Men and corporations should be earnest defenders of the constitution and cheerful adherents to law, not only when somebody else is doing wrong, but also when the prospect of gain tempts them to trample upon the statutes. It is only when we are known to be consistent in our obedience that our clamors for the enforcement of law have any weight.

BALTZELLS.—

Mrs. Flower the charmint wife of New York's new Governor has not escaped the ubiquitous interviewer and is reported to have said that on taking possession of the mansion vacated by the bachelor Governor Hill that she found cigar stumps in the sugar bowl, empty bottles under the parlor tables and poker chips in the prayer book. This may be exaggerated—we hope it is—but it is true that she did say, "I am an American through and through, I have been in a number of famous trade marts in Europe and Southern Asia, and I have yet to find a better, cheaper place to shop than a first-class American store. If not having the particular article called for they at once wire the importers or manufacturers for samples and through that courtesy we save much time as well as money. No, American goods and stores are good enough at least for one American family." That was nobly spoken and all honor be to her for the utterance. We feel the truth of her words as applied to our store though so far from the great metropolis. Whatever our large stock may not supply we are ready to send for at a moment's notice.

A WORD ABOUT CATARRH. It is the mucous membrane, that wonderful semi-fluid envelope surrounding the delicate tissues of the air and food passages, that Catarrh makes its stronghold. Once established it eats into the very vitals and renders a long-drawn breath of misery and disease, dulling the sense of hearing, trammeling the power of speech, destroying the faculty of smell, tainting the breath and killing the refined pleasures of taste. Inevitably, by creeping on from a simple cold in the head, it assaults the membranous lining and envelopes the bones, eating the delicate coats and causing inflammation, sloughing and death. Nothing short of total eradication will secure health to the patient and all alleviates are simply procrusteaned sufferings, leading to a fatal termination. Dr. Salm, by a treatment local and constitutional, made the cure of this dread disease a certainty, and has never failed. Even when the disease had made frightful inroads on delicate constitution, hearing, smell and taste have been recovered and the disease thoroughly driven out.

CHRONIC DISEASES. The Doctors treat no acute diseases, but make an entire specialty of chronic and long standing diseases. Cases given up by other doctors and pronounced incurable, they most desire to see. The doctors have treated over 15,000 cases in Ohio in the last twelve years, many of which have been given up as incurable, some to be blind, others deaf, and a large number to be invalids for life. The World for 1892.

"The most energetic, resolute and relentless journal in America when it sets out to accomplish any great object; I can testify to its ready humanity, comprehension and persistence."—GAIL HAMILTON.

We can tell our Republican readers a secret and our Democratic friends a piece of good news: The World intends to vote and elect another Democratic President this year, as it elected Grover Cleveland in 1888.

But while doing this the World will give to its Republican readers, as it did in the recent campaign, a fuller and better report of Republican meetings and speeches in the Presidential canvass than the organs of their own party print. The World never colors news: it photographs events.

The World is now printing an average of over 330,000 copies a day. It has made a net average gain of 30,000 a day during the past year. It will circulate next year, on the basis of this increase only, at least 1,000,000 copies of the ablest, strongest and best Democratic newspaper ever printed.
