

Berlin Again Tranquil.

BERLIN, March 1.—Since Saturday night the city has been quiet, and there has not been a single disturbance that called for armed police interference. It is believed that the disorderly movement has spent its force and that no further trouble is to be apprehended. Tranquillity prevails even in the districts in which the disorders were most marked.

SAVE US FROM THE DANGER.

Lives of poor men of remind us
Honest men don't stand a chance;
The more we work there grows behind us
Bigger patches on our pants.
On our pants once new and glossy,
Now are stripes of different hue,
All because subscribers linger
And won't pay up what is due.
Then let all be up and doing—
Send your mite, however small,
Or when the spring winds strike us
We shall have no pants at all.—Ez.

Obituary.

Mrs. Margaret Shuey, of Lemont, died on the 9th of January at the residence of her son-in-law, Mr. John M. Toble, where she had been making her home since the death of her youngest son two years ago, she was aged 69 years, 9 months, 11 days. Grandmother Shuey as she was familiarly called by every one, was born within a half mile of where she died. She was the mother of six children by birth and two by adoption. She was a devoted and pious woman, and was a member of the Lutheran church for 23 years and was quick unassuming Christian woman and always took a great interest in the church of her choice. Interment was made at St. John's, Rev. Black, of the Reformed Church, conducting the funeral services, may she rest in peace.

Books, Magazines, Etc.

The March number of the Art Interchange will have its colored studies, a strong and brilliant oil painting of white and purple etc. mat; a charming water-color sketch of a Venetian by-way, and a third supplement in color will be suitable for an applied decoration. The text will as usual, be entertaining and diversified as to subjects and instruction. Among other articles there will be a paper on the Island of Mariken, a picturesque spot in Holland, accompanied by several half tone illustrations, an especially interesting topic. "Students' work at the Ecole des Beaux Arts" will also be given consideration. There will be foreign correspondence, a correspondence, a continuation of Modern German artists, reviews of current illustrations in the magazine instruction in Art work of all kinds and hints and suggestions for the perfection of the home. One year's subscription, beginning at any time the subscriber chooses, for \$1. The \$4 entitles you twelve issues of the Art Interchange and 36 colored supplements, send for illustrated catalogue of studies and descriptive circulars to The Art Interchange Co. 9 Desbrosses street, New York city.

to avoid the dangers of an upset when caught in a small boat during a squall. The article is illustrated. Joquin Miller contributes a poem, "Artesia de Tulare," telling the good fortune of a Scotch shepherd evicted from his ranch. "Hold Fast Tom" is an incident of the capture of the island of St. Helena from the Dutch. Arthur Howlette Coates throws some new light on the construction and use of "The Boom-rang" by the Australian blacks. J. C. Francis, creator of the famous "Aztec Fragments," heralds his reappearance by a single and drawing of "The Genial Grimaldini." Charles F. Lammis tells another Public folk-lore tale. There is a bit of genuinely fine engraving of an unhackneyed subject for a frontispiece so many pieces and pictures worthy of notice that they cannot be noticed. It would be a queer boy or girl who could not find several morsels to especially enjoy in the rich feast summarized in the closely printed table of contents containing over thirty separate items, of pictures, verse and prose.

The New Pleasant Magazine for March opens with a pleasant paper "Recollections of Louisiana May Alcott," an intimate friend of the famous story-writer. An article that will be read with considerable curiosity is "Harvard Clubs and Club Life." It gives the history of all the different college societies, and an account of their peculiar customs and social aims and rites. It is well illustrated. Captain Charles King, the novelist, writes a glowing description of his western home, Milwaukee. Winfield S. Nevins contributes a "Sestina of Satan Witchcraft." Isaac Basset, Choate contributes an interesting paper on "America in Early English Literature." Henry Cleveland Wood writing of "Negro Camp Melodies." Walter Blackburn Hart in a gossip on "Literary Advertisers," tells the truth about this class of literary frauds, who prosper upon the vanity of incapable scribblers. Henrietta S. Nahmer contributes a pleasant article on "Bryant's New England Home." Mr. Edwin D. Mead considers the Chilian question from a common sense point of view. Zitella Cooke contributes a brace of sonnets. Schuman and Schobert. Mrs. Clarke Parsons and Mary J. Garland furnish two stories, and the names of Clinton Scudder, Bessie Chandler, and Philip Bourke Marston are among the poets who contribute to the number.

The World for 1892. "The most energetic, readable and relentless journal in America when it sets out to accomplish any great object; I can testify to its ready humanity, comprehension and persistence."—GAIL HAMILTON.

We can tell our Republican readers a secret and Democratic friends a piece of good news: The World intends to and will elect another Democratic President this year, as it elected Grover Cleveland in 1884.

Whether the Democratic candidate shall be Grover Cleveland, representing the cause of Tariff reform, or any one of a number of other Democratic leaders who can be elected, representing all the elements of opposition to Republicanism, the World will be foremost in its support. The next President must be a Democrat.

But while doing this the World will give to its Republican readers, as it did in the recent campaign, a fuller and better report of Republican meetings and speeches in the Presidential canvass than the organs of their own party print. The World never colors news: it photographs.

The World is now printing an average of 300,000 copies a day. It has made a net average gain of 30,000 a day during the past year. It will circulate next year, on the basis of this increase only, at least 120,000,000 copies of the ablest, strongest and best Democratic newspaper ever printed.

The World is recognized as distinctively the Newspaper of the People. It believes that to be the highest journalism which is dedicated to the public service.

The World puts heart and conscience into its work as well as brains. It is the handmaid of Justice, the unwavering of mysteries, the defender and the terror of Crime, the friend of the friendless, the help of the poor, the strength of the weak. Realizing that its power comes from the People, it gives back to them freely whatever service its influence and its resources enable it to render.

With a perfect equipment, a thorough organization, capable direction and a deep determination to move on and up to higher and greater achievements, the World wishes its multitude of readers a Happy New Year, and confidently bids them to expect from it during 1892 even more wonderful things than it has already accomplished. 37-5-4t.

A WORD ABOUT CATARRH.

It is the mucus membrane, that wonderful semi-fluid envelope surrounding the delicate tissues of the air and food passages, that Catarrh makes its stronghold. Once established it eats into the very vitals and renders life a long-drawn out agony of misery and disease, dulling the sense of hearing, trammeling the power of speech, destroying the faculty of smelling, tantalizing the breath and killing the refined pleasures of taste. Insidiously, by creeping on from a simple cold in the head, it attacks the mucous lining and envelopes the bones, eating the delicate coats and causing inflammation, sloughing and death. Nothing short of total eradication will secure health to the patient and all alleviates are simply procrustean sufferings, leading to a fatal termination. Dr. Salm has, by a treatment local and constitutional, made the cure of this dread disease a certainty, and has never failed. Even when the disease had made frightful inroads on delicate constitution, hearing, smell and taste have been recovered and the disease thoroughly driven out.

CHRONIC DISEASES.

The Doctors treat no acute diseases, but make an entire specialty of chronic and long standing diseases. Cases given up by other doctors and pronounced incurable, they most desire to see. The doctors have treated over 15,000 cases in Ohio in the last twelve years, many of which have been incurable. They believe, some to be blind, others deaf, and a large number to be invalids for life. But behold how they see and hear and walk and stand on the high road of health and recovery every day.

The doctor is surrounded with the largest collection of collection of retentive journals in this country for examining and treating all chronic diseases of the Head, Face, Eye, Throat, Heart, Lungs, Stomach, Liver, Kidneys, Bladder, Skin, Brain and Nervous System, Cancers, Tumors, Piles, Swellings, Sores, Fits, Paralysis, Neuritis, Rheumatism, Dropsy, Gout, Slick Headache, Debility, Impression of Spirit, Diseases of Children, Hereditary Diseases, etc., etc., and in fact all long standing and Chronic Diseases.

RECTAL DISEASES.
