Pennsylvania State Building at Chicago.

The accompanying cut represents the Pennsylvania State Building now in course of erection on the grounds of the World's Columbian Exposition at Chicago. It is located on a delightful site, near the 57th street entrance, and commanding a view of the lake and the Art Palace. The style of architecture is Colonial, reproducing the salient features and especially the historic clock-tower of Independence Hall in Philadelphia, in which will be hung throughout the world—the thus constituting a local landmark that will be a source of gratification to thousands of visitors. It is being constructed by Pennsylvania mechanics, exclusively of Pennsylvania material. The first and second stories will be of Philadelphia pressed brick. The floors will be of native marble and woods, and the walls will be ornamented with wainscot panelings taken from Pennsylvania forests. This resting place for Pennsylvanians at the great fair will cover an area of 9,000 square feet, and the broad and graceful piazzas by which it will be surrounded will duplicate this space. The front entrance opens into a central rotunda, 30 feet in diameter and 40 feet high. To the right and left will be general reception rooms, with toilet and dressing room accessories. In the rear the exhibition room will extend the entire width of the building. The walls will be ornamented with the portraits of distinguished Pennsylvanians, and many rare documents of historical interest will be displayed. Stately and imposing as will be the exterior of the building, its interior recesses will be crowded with objects of absorbing interest, not only to Pennsylvanians, but to the people of the entire world. Broad, winding staircases lead to the second story, where the waiting rooms and offices of the Executive Commissioner will be located. There will be a room devoted to the use of press correspondents, and a room furnished with newspaper files for the use of the general public. The doors and windows of the second floor open upon broad verandas, admirably arranged for promenading and sight-seeing, and outside staircases lead to the roof garden, which, besides furnishing a bird's eye view of the grounds, will be in itself a spot of floral loveliness and quiet retirement from the busy throng below. From this brief description it will be seen that the main purpose held steadily in view in the design and construction of the State Building is to furnish spacious and comfortable quarters where Pennsylvanians, in attendance at the Exposition, may meet each other and seek relief from sight-seeing in social intercourse, and historical and other surroundings which will tend to illustrate the influence of the Commonwealth on the development and growth of the country.

Worn and Wan and Weak and Weary

Ho! ye women, worn and weary, with wan faces and so indistinguishably weak. Those distressing, dragging down pains, and that constant weakness and weariness can be cured. For all such sufferers, Dr. Pierce's Favorite Prescription is a panacea of inestimable value. As an invigorating tonic, it imparts strength to the whole system. For "overworked," "worn-out," debilitated teachers, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic. As a soothing and strengthening nerve "Favorite Prescription is unequalled and invaluable in allaying and subduing nervous excitability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms, commonly attendant upon functional and organic disease. It induces refreshing sleep and relieves mental anxiety and despondency.

"Do you propose to marry for love or for money?" "Well, I shouldn't consider a moderate dose of love any objection if she has lots of money." Dentsville Breeze.

IMPORTANT!—If you cannot read this print distinctly by lamp or gaslight in the evening, at a distance of ten inches, your eyesight is failing, no matter what your age, and your eyes need help. Your sight can be improved and preserved if properly corrected. It is a wrong idea that spectacles should be dispensed with as long as possible. If they assist the vision, use them. There is no danger of seeing too well, so long as the print is not magnified; it should look natural size, but plain and distinct. Don't fail to call and have your eyes tested by King's New System, and fitted with Combination spectacles. They will correct and preserve the sight. For sale by F. C. RICHARD, 27 49 42 High St., opp. Arcade, Bellefonte.
