John Bull Is Not Pleased With His Monetary

LONDON, Aug. 7 .- The Associated Press has authority to state that the new Liberal government is likely to

add one delegate, a prominent mono-metalist, to the delegation announced by Lord Salisbury yesterday to represent England at the inter-national monetary conference. The appointments announced are considered unsatisfactory. Sir W. H. Houldsworth is an ardent bi-metalist, and Mr. Currie, who is a member of the council of India, also has a leaning to bi-metallism. Sir C. W. Fremantle was nominated solely on account of his official position in the mint, and will take no active part in the conference.

Communication With Mars.

A Method Propounded by an Englishman Reflected Sunlight to be Used.

London, Aug. 7.—Francis Galton, F. R. S., F. G. S., chairman of the com-mittee in charge of the Kew observatory, has written a letter to the Times relative to a scheme for establishing communication between Mars and the earth. Mr. Galton declares that a hole one-tenth of an inch square in a plate in front of a mirror would be just distinctly seen as a faint glint at a dis-

tance of ten miles. The amount of fog and haze which a beam of light would traverse between the earth and Mars, when the latter is high above the horizon, Mr. Galton says, could not exceed that along an earthly ten mile base. Therefore the same proportion between the size of the mirror and the distance holding true, it follows that the flash from many mirrors. follows that the flash from many mirrors simultaneously, whose aggregate grich, Supt. of Exhibits of Live Stock,

I. J. Arney Supt. of Armes and Arme Suttlers, etc. eyes and fairly good telescopes, would speculate concerning the beam and would wish to answer.

We had him treated in Linesville, Clarion and Oil City by the best home physicians, but no cure resulted and we might just as well have thrown our money in the fire. LUNG TROUBLE CURED. In June of lastyear I put myself under treat ment for a bad case of lung trouble. I was losing flesh rapidly and became weaker daily, so that my friends and myself became very much alarmed. Although treated by some of our very best home physicians, I began to sink more and more. At this date I consider myself entirely cured of all my previous trouble, have once more a good appetite and can eat and sleep with pleasure, and am indeed yery much satisfied with the result. Dr. Salm has done all he promised.

S. E. RARIE,

Blanco, Armstrong Co., Pa., Feb. 20, 1891. CATARACT SUCCESSFULLY REMOVED. Having heard of successful cataract operations Dr. Salm has made, particulary of one case of an old lady in Columbus, I decided to have him operate on my right eye, in which I was blind for nine years. The operation was performed some time in July; the pain way not worth mentioning and no chloroform was given. As a result I can to-day see far any near, read and write again, and from having been in ill health and puny, I am also rapidly improving in strength. I will gladly answer any correspondence and personal inquiry, regarding this successful operation. I was T years of age when the operation was performed Margarer Kelley, Ashley, Delaware Co., Ohio.
