Farm Notes.

Color of the butter does not indicate its quality. Nearly all butter is artificially colored before marketed.

Cucumbers pared into long ribbons and dried in the sun on long bamboo sticks are used in soups and as an ingredient of many other dishes by the Chinese.

The cows should not be eating while being milked, but stand with eyes closed chewing their cud and thinking of nothing but letting the milk come full head.

Cows will stand much higher feeding in winter and yield a good profit thereby, if they have good pasture during the summer and are given a rest from grain food.

Clover is rich in albuminoids, and for that reason it is the best food for cows, as it contains a larger proportion of the elements that compose milk than any other hay.

By feeding a variety of food the expenses may be lessened. Even straw is an excellent food when cut fine, and then fed in connection with ground grain and linseed meal.

It is claimed that mulberry trees make durable posts. As the mulberry is a quick growing tree this advantage in its favor of serving as posts should not be overlooked in planting trees for future use.

There is but little difference in the feeding values of wheat bran and middlings, and they are very much alike in composition, their proportions of albuminoids, carbo-hydrates and fat being nearly equal.

To preserve the wagon wheels so that they need not be taken to the shop, heat linseed oil to the boiling point and pour it in a trough. Having enough to cover the felles turn the wheel slowly through this boiling oil.

Let any intelligent person go over the State, especially in winter, and taste the butter on the hotel tables. The result will be surprising and will show the necessity for the establishing of dairy schools in every school district.

The most productive market gardens in the neighborhood of Paris are where the gardeners hire the right to put soil upon a piece of barren land; providing in their lease for the right to take away the soil when they give up the occupancy.

Manure for trees should be well rotted. Experiments show that the use of fresh stable manure around fruit trees sometimes leads to disease, as well as providing harboring and feeding places for many insects, the manure protecting them from frost.

The surest way to make a profit is to keep down the cost. There should be no hesitation in procuring that which is needed, but waste should not be allowed. The cost may be lessened by doing all work at the proper time and by the use of the best implements.

Dairymen are advocating the feeding of skim milk to cows. Some cows will reject it unless it is added to the ground grain ration. It is doubtful if it pays to feed it to cows if there are young pigs on the farm, as no food will force pigs so rapidly in growth as skim milk.

When feeding grain to hogs do not use a trough, but scatter the grain, so as to compel the hogs to scratch for their food. When grain is fed from a trough some of the hogs secure more than their share, which is not conducive to a full quota of eggs from each hen.

Experiments at the Wisconsin station show that the gooseberry mildew is one of the easiest fungi to destroy. The disease yields readily to copper solutions, which should be applied till the fruit is half grown; after that the use of potassium sulphide is more desirable.

Do not put more cows on to your hired men's hands than they can milk without physical discomfort. Some men can milk 12 cows comfortably while others would have tired hands at the eighth animal. Tired human muscles cannot properly drain the milk from the cow's udder.

One of the most important things to do is to take the herd of September and October milkers and so handle them during the autumn as not to materially lessen the yield of milk. In the stables for the winter, with regular feed and care, good cows will milk for months, and when grass comes, keep on for weeks.

Professor Shaw says: Scrub cattle are in all probability the most expensive luxury by far that the farmers of the United States have to-day. They cost them more than all the monopolists combined can ever hope to wring out of them. Scrub stock is the leech that sucks away at their prosperity 365 days in the year.

The economist who in the early part of this century feared a growth of population which could only be checked by war, pestilence and famine took no cognizance of agricultural chemistry. Apparently no limit can be placed to the product that may be put at the disposal of man, providing he keeps pace with the methods of science.

Grounds are susceptible of being transformed into beautiful house ornaments of real usefulness. Cut off carefully with a saw, after thoroughly drying they may be varnished, stained or painted, and made into vases for cut or dried bouquets or into receptacles for pots of growing plants. The fact that they hold water makes them all the more valuable.

Leaf by Leaf.

The dropping of the leaves is not always caused by the ending of summer, or the advent of the fall season, but indeed by many causes. So with the health and life of the human being. One by one they are carried to an early grave. You take a cold and say, "Oh, well, it is nothing but a cold," and so it is, but if not checked in time and neglected, it leads to consumption and other diseases. Prevent it, stop it, by using a pure eye whiskey. Ministers, physician and hospital superintendents agree in recommending as a perfect stimulant, Klein's Silver Age or Duquesne Ryes. The former sells at \$1.50 and the latter at \$1.25 per full quart sold by S. Shloss, Williamsport, Pa.

CHEEKS A RAW SORE

LITTLE BOY'S SUFFERING FROM ECZEMA. GREW WORSE UNDER 3 DOCTORS. CURED BY CUTICURA.

For one year my little boy was troubled with eczema. After trying three eminent physicians, the disease grew worse; both cheeks became a raw sore. Then spots began to break out on his body; and I am of an opinion that if I had not tried Cuticura Remedies my boy would today have been covered from head to foot with the terrible disease. After using the remedies for two months, he was entirely cured, and is now as fat as any boy. I send you this testimonial, in hopes some poor afflicted one may see this cure and obtain Cuticura Remedies at once.

SKIN DISEASE FOR YEARS

I have read a good deal about the Cuticura Remedies, but I did not take any stock in them until I saw it with my own eyes. My sister had skin disease for a large number of years. It broke out all over her body and face. Doctor did her no good. Tried everything. Used one set of Cuticura. It has all disappeared. You can take this for a testimonial.

FINE SELECTED BLENDED TEAS.

It is a pretty well settled principal with all expert tea men that the highest perfection in tea cannot be attained from any one kind or variety of tea plant. But that the best value and choicest flavor can be obtained only by a skillful blending of carefully selected high grade goods of different varieties.

When teas are perfectly blended the original flavor of each variety disappears in the blend, and from the combination we get something entirely new and much finer than any of the original flavors.

We have a new blend of our own. In the preparation of which we have spent considerable time and labor and have also had the aid and counsel of several of our good tea men as are to be found in the United States. It is with entire confidence that we offer the goods for sale and unhesitatingly claim them to be very superior both in value and flavor.

If you want a cup of ROYAL TEA, try our new blended goods.

We also carry a full line of Teas, Oolongs, Japan, Young Hyson, Imperials, Gunpowder, English Breakfast; also several grades of blended goods, and can suit the trade on anything in the tea line.

You may not be exactly suited on the goods you are using, and we feel confident that you will be able to get from us just what you are wanting. We sell fine teas at very reasonable prices. Try them.

We have a clean dry sugar 8lbs for 30cts. the cheapest sugar ever sold in Bellefonte.

Saddlery.

SCHOFIELD'S NEW HARNESS HOUSE.

We extend a most cordial invitation to our patrons and the public, in general, to witness one of the

GRANDEST DISPLAYS OF

Light and Heavy Harness

ever put on the Bellefonte market, which will be made in the large room, formerly occupied by Harper Bros., on Spring street. It has been added to my factory and will be used exclusively for the sale of harness, being the first exclusive salesroom ever used in this town, as heretofore the custom has been to sell goods in the room in which they were made. This elegant room has been refitted and furnished with glass cases in which the harness can be nicely displayed and still kept away from heat and dust, the enemies of long wear in leather. Our factory now occupies a room 10x74 feet and the store 22x30 added makes it the largest establishment of its kind outside of Philadelphia and Pittsburg.

We are prepared to offer better bargains in the future than we have done in the past, and we want everyone to see our goods and get prices for when you do this, out of self defense you will buy. Our profits are not large, but by selling lots of goods we can afford to live in Bellefonte. We are not indulging in idle philanthropy. It is purely business. We are not making much, but trade is growing, and we compared ourselves to them, but we do not mean to be so odious, except to venture the assertion that none of us can say "NO ONE OWES US A CENT THAT WE CAN'T GET." This is the whole story.

When other houses discharged their workmen during the winter they were all put to work in my factory, nevertheless the big (9) houses of this city and county could make NO comparison of ourselves to them, but we do not mean to be so odious, except to venture the assertion that none of us can say "NO ONE OWES US A CENT THAT WE CAN'T GET." This is the whole story.

50 SETS OF LIGHT HARNESS, prices from \$2.00 to \$10.00, upwards. LARGE STOCK OF HEAVY HARNESS per set \$22.00 and upwards, 500 HORSE COLLARS from \$1.50 to \$3.00 each, over \$100.00 worth of HARNESS OILS and AXLE GREASE.

\$400 worth of Fly Nets sold cheap \$150 worth of whips from 15c to \$3.00 each, Horse Brushes, Curry Combs, Sponges, Chamois, RIDING SADDLES, LADY SADDLES, Harness Soap, Knee Dusters, at low prices, Saddlery hardware always on hand for sale, Harness Leather as low as 25c per pound. We keep everything to be found in a FIRST CLASS HARNESS STORE—no changing, over 20 years in the same room. No two shops in the town to catch trade—NO SELLING OUT for the want of trade or prices. Four harness-makers at steady work this winter. This is our idea of protection to labor, when other houses discharged their hands, they soon found work with us.
