Late cabbages will continue to grow, even after the first light frosts appear. Keep the ground loose and well cultivated around the plants.

Disease may be carried from one tree to another by the pruning knife. Always dip the knife in a weak solution of carbolic acid after use.

Even limestone soils are benefited by an application of lime, as the lime is different in composition from the insoluble carbonate of lime in the soil.

Moulting hens should be given an allowance of linseed meal once a day, for a week, a gill of linseed meal in the soft food of ten hens being an allowance for one day.

One of the best uses to which the teams may be put at this season is in hauling dry dirt for use in the stables during winter. Dry dirt is clean, dis-infecting and an excellent absorbent.

It is not too late to select the seed corn for next year. It can be done better when the ears are on the stalks than when in the crib, as the selection of ears from the best stalks should also be considered.

A school for preparing judges for the fairs would be productive of benefit. It is often difficult for fair managers to procure competent judges in the different departments, although they are willing to pay liberally for the services of experts.

Dig out the borers from the peach trees now, and cut as far into the wood as possible rather than to allow a borer to escape. It will not injure the trees to cut into them, provided the cuts are not made across the bark to severely. Cuts that are made with the grain (up and down the bark) will cause no dam-

Fencing is costly. The farmer who is compelled to build a fence in order to keep the stock of his neighbor out of his field is taxed to do something which is not necessary if all classes of stock are kept on the farms of their owners, instead of being turned out to pick up their food on the highway. No farmer should be compelled to fence against the community.

The new strawberry runners in the old beds will require a loose soil, or they will not become rooted. The old beds will fail it they have been allowed to become overrun with weeds and grass. When the beds are kept clean, and the new runners secure a stand, the plants are renewed for another season, but old plants will last but a short time, as they are weakened in producing runners.

#### It Doesn't Do to Put All Your Eggs in One Basket.

The dependence placed on a single crop is a risk taken that is sure at some time to result in loss. No farmer can afford to take risks of wet or dry seasons, frosts, insects, and low prices, yet that is the position in which any farmer who relies upon a single crop is placed. There is no section of this country, and no soil, that does not permit of a diversity of crops of some kinds. The single crop farmer is compelled not only to sell at a sacrifice at times, but his crop is often more expensive than it should be entailing the cultiuation of more land than for several crops and depriving him of the results that accrue from a retention of the crop on the farm and its conversion into some product that brings a larger profit. The production of manure is also lessened, and the fertility of the soil is not so easily maintained. Success is more as sured when the farmer grows several kinds of crops, for then he may be able to market some kinds, should one or more fail, while the keeping of stock will enable him to obtain better prices by consuming a large portion at home.

One of the fields open to farmers is to grow articles of a choice kind only. While inferior articles sell slowly, those that are choice bring high prices. When the rule is adopted to feed the inferior portions of the crop to stock, and market the best, the farmer will be tempted to branch off into the cultivation of crops that have before received but little of his attention. Last year thousands of barrels of apples were sent to market that should never have been shipped. Had the apples been carefully assorted, in order to have them uniform in size and quality, a lar ger sum would have been obtained for the choice ones than for the entire lot, thus not only sucuring a greater profit, but lessening the cost of transportation. Potatoes are a staple crop, and are marketed as harvested. yet when the farmers procure their seed potatoes in the spring they pay high prices for those that appear to be superior to their own, when in fact, the seed potatoes have simply been assorted by hand, only the largest and most perfect being sold, the balance of the crop having been retained by the grower. If all farmers would practice the careful assorting of their crops, as is done for seed, they would find it much cheaper to do so than to market the whole crop. It costs less to haul one barrel than two, especially when the one barrel will bring twice as much in market as two barrels of inferior produce. There is no reason why the farmers should restrict themselves to oats, wheat, and corn. By the use of improved varieties he may add all kinds of fruits and vegetables. He will have a home market for inferior articles, and a profit ready for the choice kinds, and by growing as many different cross are growing as many different crops as possible he will be on a more secure foundation against unfathomable sea-

#### A Man of Adventure.

John Switzler, who now lives within one mile of Pendleton, thirty-six years ago saved the lives of thirty persons at the Cascades, on the north side of the Columbia river, at a place at that time called the Upper Cascades. John is now old and well wearied with years. But then he was a young man after making thirty persons safe he ran the gauntlet for a mile with other parties, some of whom were wounded, while others were killed by the Yakima and Klikitat Indians. Yet he arrived at the fort, safe and sound and in time to care for the wounded in the fort, where twelve soldiers were imprisoned three days and nights .- East Oregonian.

—A gentleman of this country who has ex-cellent judgment remarked to us the other day that he knew of no pill so good for con-stipation, dyspepsia and liver complaint as DeWitt's Little Early Risers.—C. M. Parrish. —There is no use talking, neither Harrison or Cleveland will be elected unless they take De Witt's Little Early Risers. They have a "get there" quality possessed by no other pill.—C. M. Parrish.

—Dyspepsia, distress after eating, sour stomach, poor appetite, bad taste, coated tongue and heartburn are cured by De Witt's Little Early Risers, the famous little pills.—C. M. Parrish.

## Leaf by Leaf.

The dropping of the leaves is not always caused by the ending of summer, or the advent of the fall season, but indeed by many causes. So with the health and life of the human being. One by one they are carried to an early grave. You take a cold and say, "Oh, well, it is nothing but a cold," and so it is, but if not checked in time and neglected, it leads to consumption and other diseases. Prevent it, stop it, by using a pure rye whisky. Ministers, physician and hospital superintendents agree in recommending as a perfect stimulent, Klein's Silver Age or Duquesne Ryes. The former sells at \$1.50 and the latter at \$1.25 per full quart sold by S. Shloss, Williamsport, Pa

CHEEKS A RAW SORE

LITTLE BOY'S SUFFERING FROM ECZE-MA. GREW WORSE UNDER 3 DOC-TORS. CURED BY CUTICURA.

For one year my little boy was troubled with eczema. After trying three eminent physicians, the disease grew worse; both cheeks became a raw sore. Then spots began to break out on his body; and I am of an opinion that if I had not tried Cuticura Remedies my boy would to-day have been covered from head to foot with the terribte disease. After using the remedies for two months, he was entirely cured, and is now as fair as any boy. I send you this testimonial, in hopes some poor afflicted one may see this cure and obtain Cuticura Remedies at once,

J. WILLARD CASE, Shelter Island Heights, N. Y.

SKIN DISEASE FOR YEARS

I have read a good deal about the Cuticura Remedies, but I did not take any stock in them until I saw it with my own eyes. My sister had skin disease for a large number of years. It broke out all over her body and face. Doctor did her no good. Tried everything. Used one set of Cuticuras. It has all disappeared. You can take this for a testimonial.

Miss MARY McCARTHY, 74 New York Ave., Ogdensburg, N. Y.

CUTICURA RESOLVENT

THINE SELECTED

BLENDED TEAS.

\_\_\_\_]o[\_\_\_

It is a pretty well settled principal with all expert tea men that the highest perfection in tea cannot be attained from any one kind or variety of tea plant. But that the best value and choicest flavor can be obtained only by a skillful blending of carefully selected high grade goods of different varieties.

When teas are perfectly blended the original flavor of each variety disappears in the blend, and from the combination we get something entirely new and much finer than any of the original flavors.

We have a new blend of our own. In the preparation of which we have spent considerable time," and labor and have also had the aid and counsel of several as good tea men as are to be found in the United States. It is with entire confidence that we offer the goods for sale and unhesitatingly claim them to be very superior both in value and flavor.

If you want a cup of ROYAL TEA, try our new blended goods.

We also carry a full line of Teas, Oolongs, Japan, Young Hyson, Imperials, Gunpowder, English Breakfast, also several grades of blended goods, and can suit the trade on anything in the tea line. You may not be exactly suited on the goods you are using, and we feel confident that you will be able to get from us just what you are wanting. We sell fine teas at very reasonable prices. Try them.

We have a clean dry sugar 8lbs for 3octs. the cheapest sugar ever sold in Bellefonte.

Respectfully, 36-45

# Saddlery.

SCHOFIELD'S NEW HARNESS HOUSE.

We extend a most cordial invitation to our patrons and the public, in general, to witness one of the

# GRANDEST DISPLAYS OF

Light and Heavy Harness ever put on the Bellefonte market, which will be made in the large room, formerly occupied by Harper Bros., on Spring street. It has been added to my factory and will be used exclusively for the sale of harness, being the first exclusive salesroom ever used in this town, as heretofore the custom has been to sell goods in the room in which they were made. This elegant room has been refitted and furnished with glass cases in which the harness can be nicely displayed and still kept away from heat and dust, the enemies of long wear in leather. Our factory now occupies a room 16x74 feet and the store 20x60 added makes it the largest establishment of its kind outside of Philadelphia and Pittsburg.

of Philadelphia and Pittsburg.

We are prepared to offer better bargains in the future than we have done in the past and we want everyone to see our goods and get prices for when you do this, out of self defense you will buy. Our profits are not large, but by selling lots of goods we can afford to live in Bellefonte. We are not indulging in idle philanthropy. It is purely business. We are not making much, but trade is growing and that is what we are interested in now. Profits will take care of themselves.

When other houses discharged their workmen during the winter they were all put to work in my factory, nevertheless the big (f) houses of this city and county would smile if we compared ourselves to them, but we do not mean to be so odious, except to venture the assection that none of them can say, as we can say "NO ONE OWES US A CENT THAT WE CAN'T GET." This is the whole story.

CAN'T GET." This is the whole story.

The following are kept constantly on hand.
50 SETS OF LIGHT HARNESS, prices from \$8.00 to \$15.00 and upwards, LARGE STOCK OF HEAVY HARNESS per set\$25.00 and upwards, 500 HORSE COLLARS from \$1.50 to \$5.00 each, over \$100.00 worth of HARNESS OILS and AXLE GREASE,
\$400 worth of Fly Nets sold cheap \$150 worth of whips from 15c to \$3.00 each, Horse Brushes, Cury Combs Sponges, Chamois, RIDING SADDLES, LADY SIDE SADDLES Harness Soap, Knee Dusters, at low prices, Saddlery-hardware always on hand for sale, Harness Leather as low as 25c per pound. We keep everything to be found in a FIRST CLASS HARNESS STORE—no changing, over 20 years in the same room. No two shops in the same town to catch trade—NO SELLING OUT for the want of trade or prices. Four harness—makers at steady work this winter, This is our idea of protection to labor, when other houses discharged their hands, they soon found work with us.

JAS. SCHOFIELD,
