From this place and from Tyrone he wrote postals saying that he still felt all right, but alas, when Homestead was reached even his fellow workmen did not know him, so changed was he. A physician was immediately called, who found his temperature away up to 105° and the next morning friends started back with him. Before Tyrone was reached he became delirious and by the time he was gotten home again the ravages of the disease had driven him wild Careful hands administered to him and every thing was done to save such a precious life, but all to no purpose.

VILLE.—The mysterious death of Miss ed with the family of R. S. Shulkweiler, has been the cause of many strange stories in Curwensville since last Sunday morning. She had been down to man's first visit to the manufactory and Clearfield on Saturday and got a prescription, for a poisonous drug, filled but when found dead in bed the bottle was in her room unopened. A partially burned paper, which had contained strychnine, was found, however, and suggested the probability of suicide. She was just twenty years old and had entertained a young man until nearly four o'clock on Sunday morning, according to his own statement.

ACCIDENTS OF A DAY .- Ed. Hughes and another student of the Bellefonte Academy, named Rothrock, a son of Da- hall. vid Rothrock who lives about three miles up on the Buffalo Run road, were driving out to the foot-ball grounds, on a great big line it is. Lyon & Co. Wednesday afternoon, whither the former was going to practice with the Academy team, when an accident occurred which might have proved far more ser-

ious than it did. They were coming down High street in an open phaeton and had just reached the express office when the horse frightened and became unmanageable. It started to run and Hughes jumped out the late S. A. Brew. alighting on the edge of the race bridge. It is supposed that his leg turned under him for it broke about mid-way between the knee and the ankle, He was picked up and carried into Green's drug store, where Dr. Geo. F. Harris treated him. Later he was taken home where he is now resting easy.

After Hughes had jumped Rothrock held onto his horse until the phaeton struck the Brockerhoff house trunk dray. The horse attached to it started to run too, whereupon Rothrock jumped to save himself from the general smashup shot her drunken husband, an account which occurred an instant later. He of which appeared in our last week's is- rolled over several times but jumped up unhurt and started after his horse, which had been caught, on Water street, opposite this office. The accident caused no little excitement and a great crowd sood gathered about the place. FELL THIRTY FEET WITH A BREAKING

SCAFFOLD. The brick layers had just picked up their trowels, at the new Mechanic Arts -Mifflinburg was 100 years old on building, at State College, on Wednesing timber. Rushing in the direction whence it came they were dazed to see the bricklayers scaffold, on the main wing, lying broken in the cellar and the helpless forms of two workmen entangled in the wreckage. They had fallen thirty feet and 'twas apparent that they were badly hurt. As quickly as possible they were taken from the debris, when the full extent of their injuries was learned.

J. L. Straily, a bricklayer from Williamsport, suffered a compound fracture of both bones of the leg, below the knee, and was badly bruised. His helper, escaped with several serious cuts about the head, a bruised body and a sprained ankle. Strailey was taken through to his home on the afternoon express.

If the accident had occurred a few seconds sooner it is probable that more njuries would have had to be recorded for a number of other workmen had just left the scaffold when it collapsed.

HAD TWO FINGERS SMASHED.

The third accident of the day occurred at the Valentine Iron Co's, works where Mike Howard had two fingers of his hand badly mashed. He has charge! of the "tapper" on the cinder car and while making a dump got his hand caught in the machinery in some way, causing the very painful accident.

A BIRTHDAY PARTY .-- Saturday evening, October 1st, the residence of Mr. Watson Struble, at Axe Mann, was the scene of a surprise party given in konor of their daughter, Maggie, who had attained her seventeenth year. The evening was pleasantly spent in games and other amusements until 10:30 when the young people were ushered to refreshments. The table fairly groaned under its load of good things, but when the crowd had done with it it presented the appearance of a Sahara. Everyone seemed delighted with the party and the fair young hostess was the recipient of numerous momentoes of her birthday. It is the hope of the WATCHMAN that she may have life and health to enjoy many more.

AN UNUSUAL SIGHT: -Horse-women are many in Bellefonte and their appearance on their steeds excites very little attention, as they canter along the streets, but a novelty was seen on Monday. Something entirely out of the usual fashionable mold of our equestrienne. We have been accustomed to seeing the daughter of wealth, clad in a trim tailor-made habit, sitting her mount with a preciseness that savors distinctly of the riding school and is it to be wondered at, that when a pretty, young country lass made her appearance, perched on a great big farm horse, without the sign of a saddle under her, that every one stopped to look. It did not seem possible at first, but "seeing is believing" and hundreds saw it.

The girl did not seem at all disconcerted and kept her horse jogging along at a lively gait. She held the reins in one hand and a book in the other. No riding skirt was there to conceal the No. 6 shoes which peeped out down along the sides of the horse, but the confidence and ease with which she rode, bare-back, was a lesson to many of her wealthier and more fortunatesisters.

THIS IS THE KIND OF WEATHER .-Mr. Hicks has in store for you during this month.

Autumnal storms of rain with possible snow to the West and North, will prevail at the beginning of October. Behind the storms and up to about the 7th and 8th, it will be very cool with frosts to the northward. Warmer at these dates with much tendency to storminess. From 12th to 15th, it will turn much warmer and result in more storms, beginning in the West and traveling to the East. Navigators of the lakes should be watchful of all these storms. A freezing blast from Northwest will follow this period. The 19th and 20 are active storm days. Be watchful of what they may bring and of the cold wave following. The 24th to 27th expect storms, and frost and freezing up to about the 30th-a reactionary day.
