

Farm Notes.

When the Angora goats were first introduced into this country they were not very favorably received, as no market could be found for the hair.

A colt, calf or pig grows more rapidly when very young than at any other period, and the gain in size can be secured at less cost at the early age.

In England the rule is to allow four cubic feet of air space for each 100 pounds of an animal. Allowing air according to the weight, however, is not a correct system, but it is a rule that is better than none, as animals are usually more crowded than should be the case.

To prepare artificial food for bees, sift 30 pounds of granulated sugar in 15 pounds of boiling water, stirring constantly. When the sugar is all added and the water still boiling, remove the mixture from the fire and stir in five pounds of honey, which will prevent granulation.

Eggs and milk give steady returns to the farmer. He does not have to wait for a crop of eggs to be harvested, but receives them daily. There is nothing produced on the farm that helps to tide over many difficulties so much as the egg basket, and especially during the winter season, when the farm is at a standstill.

The advantages of hay, corn fodder and ensilage, when compared, may give results not above in favor of ensilage, so far as its actual feeding value is concerned, but when the comparison is made strictly on the cost of the food, ensilage stands first as the cheapest of all.

Much of the labor of winter is but an effort to keep a lot of culls or inferior animals in existence. It is customary with some farmers to feed steers, wethers or other animals that are not reproductive on the coarse foods only, simply to bring them over the winter, to be sold in spring.

Orchard land is compelled to bear a crop of fruit every year, while an occasional crop of grass, corn, potatoes or little manure added. There are orchards in this State that have borne crops of apples for 20 years, yet no attention has been bestowed upon the trees as a source from which valuable crops are obtained, but of recent years the trees in some orchards appear subject to disease, while the fruit is knotty or imperfect.

If anyone will take the pains to dig up the orchard, or portions of it, for purposes of discovery, he will find that the roots of the trees extend out far beyond the limits of the most prominent branches, and that the rootlets are seeking every square inch of the soil in search of food. When the orchard is made to grow a crop of corn there is a competition for food between the trees and the corn, and in some cases, as with peach orchards, the corn roots secure the larger proportion, so retarding the growth of the peach trees as to dwarf them for two or three years, if not wholly destroying them.

That the roots of apple trees are gross feeders, and that the trees demand plant food in the shape of manure or fertilizers, may be easily demonstrated.

Fill a row with manure, the row to be plowed deeply, about a rod from a row of apple trees. Now fill another row with manure, the second row being two rods or more from the tree. Plant both rows with corn.

FINE SELECTED

BLENDED TEAS.

It is a pretty well settled principal with all expert tea men that the highest perfection in tea cannot be attained from any one kind or variety of tea plant. But that the best value and choicest flavor can be obtained only by a skillful blending of carefully selected high grade goods of different varieties.

When teas are perfectly blended the original flavor of each variety disappears in the blend, and from the combination we get something entirely new and much finer than any of the original flavors.

We have a new blend of our own. In the preparation of which we have spent considerable time and labor and have also had the aid and counsel of several as good tea men as are to be found in the United States.

It is with entire confidence that we offer the goods for sale and unhesitatingly claim them to be very superior both in value and flavor.

If you want a cup of ROYAL TEA, try our new blended goods.

We also carry a full line of Teas, Oolongs, Japan, Young Hyson, Imperials, Gunpowder, English Breakfast, also several grades of blended goods, and can suit the trade on anything in the tea line.

You may not be exactly suited on the goods you are using, and we feel confident that you will be able to get from us just what you are wanting. We sell fine teas at very reasonable prices. Try them.

We have a clean dry sugar 8lbs for 30cts. the cheapest sugar ever sold in Bellefonte.

Saddlery.

SCHOFIELD'S NEW HARNESS HOUSE

We extend a most cordial invitation to our patrons and the public, in general, to witness one of the

GRANDEST DISPLAYS OF Light and Heavy Harness

ever put on the Bellefonte market, which will be made in the large room, formerly occupied by Harper Bros., on Spring street.

It has been added to my factory and will be used exclusively for the sale of harness, being the first exclusive salesroom ever used in this town, as heretofore the custom has been to sell goods in the room in which they were made.

This elegant room has been refitted and furnished with glass cases in which the harness can be nicely displayed, and still kept away from heat and dust, the enemies of long wear in leather. Our factory now occupies a room 16x74 feet and the store 20x20 added makes it the largest establishment of its kind outside of Philadelphia and Pittsburgh.

We are prepared to offer better bargains in the future than we have done in the past and we want everyone to see our goods and get prices for when you do this, out of self defense you will buy. Our profits are not large, but by selling lots of goods we can afford to live in Bellefonte. We are not indulging in idle philanthropy. It is purely business. We are not making much, but trade is growing and that is what we are interested in now. Profits will take care of themselves.

When other harness dealers discharged their workmen during the winter they were all put to work in my factory, nevertheless the big (7) houses of this city and county would smile if we compared ourselves to them, but we do not mean to be so odious, except to venture the assertion that none of them can say as we can say "NO ONE OWES US A CENT THAT WE CAN'T GET." This is the whole story.

The following are kept constantly on hand. 50 SETS OF LIGHT HARNESS, prices from \$8.00 to \$15.00 and upwards. LARGE STOCK OF HEAVY HARNESS per \$25.00 and upwards, 50 HORSE COLLARS from \$1.50 to \$3.00 each, over \$100.00 worth of HARNESS OILS and AXLE GREASE.

\$400 worth of Fly Nets sold cheap \$150 worth of whips from 1c to \$2.00 each. Horse Brushes, Curly Combs Sponges, Chamoms, RIDING SADDLES, LADY SIDESADDLES, Harness Soap, Knee Dusters, at low prices, Saddlery hardware always on hand for sale. Harness Leather as low as 25c per pound. We keep everything to be found in a FIRST CLASS HARNESS STORE—no changing, over 20 years in the same room. No two shops in the same town to catch trade—NO SELLING OUT for the want of trade or prices. Four harness-makers at steady work this winter. This is our idea of protection to labor, when other harness dealers discharged their hands, they soon found work with us.
