—Representative John T. McCormick has asked the State Legislature for an appropriation of \$166,000 to complete the needed repairs and purchase equipments for buildings already erected at the Pennsylvania State College. The bill should be passed without a dissenting vote.

—On Sunday morning Dr. R. L. Dart discovered a slight fire on the roof of one of the buildings at the Bellefonte Gas company's works. A prompt alarm called superintendent McKnight and Hugh Taylor to the scene, and the flames were extinguished before the fire had gained any headway.

THE OLD AND THE NEW.—Promptly at nine o'clock last Monday morning the members of the borough council convened for their last go at the business of the town. All were there, but Mr. Crisman, from the West ward, and the fact that he had not attended more than three meetings during his entire term relieved the other members from the thought that perhaps his absence was intended as a kind of insult.

Very little business had been left for the retiring members to transact and when the various committees had reported and the usual courtesies extended to each member by the president, he adjourned sine die. Treasurer Cooke's statement showed that he had \$13,675.63 on hand ready to be paid over to the liquidation of the borough indebtedness. J. W. Gephart was exonerated from \$60, water tax on some property he owns outside the borough limits, on which the tax was too high. Street Commissioner Shaughensy turned in \$20 for cleaning pavements, which owners had neglected, and the Water committee reported \$200 more expended in plumbing than had been necessary for a long time. The excess being necessitated by the unprecedented cold.

It was just ten o'clock when Squire John Blair Linn administered the oath of office to the new council after which it effected an organization by electing George L. Potter president and Isaac Mitchell clerk. Both were chosen unanimously.

The retired members were Crisman, West ward; Jamison, South ward and Longacre, North ward. They were succeeded by C. T. Gerberich, Geo. T. Bush and John C. Miller respectively.

THE NEW COUNCIL AT WORK.
The members of the new borough council met in executive session on Monday night and began business for the year in a brisk way. After an organization had been effected President Potter announced his committees for the ensuing year as follows:

Water:—Williams, Hillbush and Miller.

Street:—Dart, Gerberich and Bauer.

Finance:—Gerberich, Miller and Bush.

Fire and Police:—Hillbush, Dart and Garman.

Nuisance:—Garman, Dart and Bush.

Market:—Miller, Garman and Bauer.

Samuel Ryan was retained as superintendent of the water works at \$2 75 per day, during good behavior. The police who served so faithfully last year were re-elected and their salaries placed at \$35 per month. On the question of Street Commissioner the committee asked two weeks time in which to furnish a recommendation. The request was granted and the old officer, Thos. Shaughensy, was elected to fill the position until his successor is chosen. Clement Dale was re-elected borough solicitor at \$50 per annum and David Butts will succeed himself as borough engineer. Calvin Pifer furnished his bond of \$300 and was sworn into the office of High Constable.

Under the head of new business A. Lukenbach appeared and asked exoneration of taxes for the Y. M. C. A. building. It was granted.

Burgess Mingle's report showed \$102,500 fines, etc., collected during the last year; \$57.50 paid out, leaving a balance of \$45,000 which was turned into the borough funds. After it was read and the routine of instructions gone through with council adjourned.

A PLEASANT SURPRISE.—At the home of Robt F. Holmes, in Central City, Boggs township, a very pleasant time was spent on Monday, March 6th, 1893. It happened that Mrs. Holmes, on that day, reached her 49th milestone, and while busy at her evening work, her home was invaded by about forty-five of her friends and relatives from far and near, every one loaded down with filled baskets and armfuls of the best that the season affords. Handsome presents of all kinds were also carried in. They then sent for Mr. Holmes who was busy selling goods at his store, but as he was wanted immediately at the house he left the store in charge of his partner, Mr. Newman. When he saw the crowd in and around his home he was about to do something desperate but matters were explained to him and he allowed the crowd to take charge and run things to suit themselves. The day was spent very pleasantly and Mr. Holmes wishes that in the future his wife will have about two birthdays every year. He says he felt so young that evening that he took one of his courting spells and did not retire until one o'clock in the morning. Mr. and Mrs. Holmes unite in extending heartfelt thanks to all who were present, and all are invited to go again.

—To-night the Ladies Schubert Concert company will give one of their delightful entertainments in the chapel of the Pennsylvania State College. We can heartily recommend them to all who have the opportunity of going, for they rank with the best companies of the kind in the country. The Free Lance has charge of the entertainment.

—"Arabian Nights."
—Call and see E. Brown Jr's. stock of furniture and wall paper.

—Spring is coming on with an alarming pace. Merchants are you advertising enough?

—Next Friday evening Henry George, the great single tax advocate, will lecture in Clearfield.

—Kitty Rhoads and her company has been playing to full houses this week. You should not miss the opportunity to see her.

—The friends of Frank Whiteman will be sorry to learn that fire recently damaged his store at Glenn Richey to the extent of \$400.

—A thief threw dynamite into a spring on the premises of Judge Gragan, of Lock Haven, and captured fifty large trout which the Judge took pride in keeping.

—Robert Cole, the Bellefonte architect has been chosen by the Lock Haven school board to draw up and present plans for approval for the remodeling of the first ward school house in that city.

—Because stickers were used the votes of an entire precinct in Johnson town were thrown out by the election board. The court will now be called upon to decide whether the election officers did right.

—With the middle of next month both of the large iron works in this place will be running full blast, employing in all departments over fifteen hundred men. The prospects for the Summer are very bright.

—Among the people deeply interested in the License court was D. W. Miller, of Ferguson township. He was in town on Tuesday with a long remonstrance against the granting of a license at Pine Grove Mills.

—Newton Bailey, formerly managing editor of the Daily Gazette but now connected with the Williamsport Times was a Bellefonte visitor on Sunday. His brother, W. S. Bailey, of Galesburg Ill, was with him.

—It is probable the Rev. M. S. Smyser will resign the pastorate of the Curwensville Methodist church to accept the assistant superintendency of the Methodist book room at Harrisburg. Falling health has necessitated his giving up the ministry.

—John H. Keatley, commandant of the Iowa Soldier's Home, at Marshalltown, who claims Centre county as his birth place, and Boalsburg as his home until the sixties is, we are glad to note, getting along nicely in the West. He was admitted to practice law in this county in 1860, having been a student with ex-Governor Curtin.

—A natural freak in the form of a large tree was recently discovered in a McKean county forest, by Frank Backus, a wood chopper. Its trunk is maple up about three feet above the ground, at that point the tree forks the one branch being soft maple the other elm. It was such a curiosity that Backus decided not to cut it down.

—Among the delegates from this county to the 18th annual meeting of the Womens Foreign Missionary society, of the Huntingdon Presbytery, in session in Philipsburg, last week, were; Mrs. N. D. Orison, Mrs. Margaret H. Wilson, Mrs. Stein, Mrs. Rebecca J. McCalmont and Miss Elsie Weaver, of this place; Mrs. John I. Thompson, of Lemont, and Mrs. D. W. Miller, of Pine Grove Mills.

—Among the interested parties whom we noticed in attendance at the license court during the fore part of the week were Messrs. George Leister of the Potter House, and Thos. J. Reiley, a wholesale liquor dealer of Philipsburg, with Attorneys Zeigler and Bryson, the popular "Billy" Brown, of Clarence, John Uzzle, his son George of Snow Shoe, David Bartges, of Centre Hall, and mine-host Rishel, of Coburn.

MANY OTHERS WONDER TOO.—In commenting on the death of the late Wm. F. Reynolds, a writer in the Philipsburg Ledger concludes as follows: "It is a little remarkable that none of Bellefonte's wealthy men make any bequests to the academy, the institution in which many of them got their education, and which is and ever has been an honor to the town. Let us hope it will not always be so.

ATTENDING THE LECTURES.—The WATCHMAN'S able correspondent from Pine Grove Mills, William H. Fry, left on an early morning train on Monday for Philadelphia where he will attend the lectures by the best veterinary surgeons in the country. Last year he was in New York for the same purpose, but being desirous of perfecting himself in the science of veterinary surgery he will spend several weeks in the city of Brotherly Love where he will add all the knowledge of animal diseases to the store he already possesses.

THE NEW PRESBYTERIAN CHURCH AT BOALSBURG.—The dedicatory services of the new Presbyterian church which stands on the old Academy site took place last Sunday morning. The services were conducted by Rev. Haney, of State College, pastor in charge, assisted by Revs. A. A. Black and Hughes, of Bellefonte.

Less than six months ago a meeting of the small band of Presbyterians, in and about Boalsburg, was called to discuss the erection of a house of worship in that locality. Those present were unanimously of one mind and heart. Subscriptions were at once started and a building committee appointed. The charter was granted by the court of Quarter Sessions also appointing as Trustees Col. Jas. T. Stuart, Jacob Weber, Frank McFarlane, Wm. Goheen and David Sparr.

The building committee consisted of Hon. W. A. Murray, Dr. John Woods, Wm. Goheen, Col. J. T. Stuart, Wm. McFarlane, Mrs. Matthew C. Woods, Mrs. E. E. Stuart and Mrs. Alice Magdon. This energetic committee soon secured means enough to justify the adoption of plans and specifications. C. H. Evey was awarded the contract, mechanics were put to work at once and in a short time the building assumed proportions and would have been completed in sixty days had their not been some delay in the filling of some orders for material.

The building is frame, 35x50 feet. Arched ceiling 22 feet in height. The plastering was done by Koon and Hook, the painting by Weber Bros. The style and finish, both inside and out, is unique and beautiful. The inside is wainscoted, and finished in natural pine. The windows are arched as are the doors and pulpit recess. The Wood's memorial window in the front of the church was put in by members of the Woods family in memory of Rev. M. Cyrus Wood, who died in Philadelphia a few years ago, and whose widow is now a resident of Boalsburg. Through her efforts the stained glass for the side lights was secured at greatly reduced rates, and windows of real artistic merit were made possible through her taste and influence.

The church is well lighted by a large chandelier, the gift of the State College congregation. The organ, the altar, the carpet and some chairs were furnished by the Ladies committee. The pulpit, the gift of Wm. McFarlane, was artistically designed and skillfully made out of light and dark walnut by F. W. Weber. The three walnut pulpit chairs were presented to the church by Harry Stewart, of Philipsburg, and the building committee deserve much credit for the substantial and comfortable oak seats they selected.

After the religious services were concluded the audience was surprised and gratified to hear that the entire debt had been settled. Certainly it was a wonderful record for a congregation that numbers less than forty members, and the noble way in which they met their obligations should be an example and an incentive to larger companies of "God's people." God blesses the people with full and plenty and why, in turn, should they not do something for him? Excellent music was furnished by a large choir with Miss Laura Woods as organist and March 5th, 1893 will long be remembered by the Presbyterians of Boalsburg and the vicinity.

—"Arabian Nights."

GIRLS WHETHER ARE YOU DRIFTING?—The Philipsburg Journal moralizes as follows on the growing vice brought about by improper training of girls in their own homes.

Girls, young girls, giddy girls, foolish girls, disobedient girls—girls generally inclined to be bad, must be counseled, pursued, checked, or if necessary forced to desist from their inclinations, or their fate will be that of misery, agony remorse and death. The world is full of snares, allurements, and foot falls into deep pits of disgrace for girls, but there are scores of signal lights, many warnings, loving pleading for prudence on their part, so that there is no reason why any girl, any young woman should go astray, as in common parlance, personal indiscretion of the sex is called. There is not enough common sense teaching at home on this subject—nor the outspoken counsel in the church nor the unvarnished advice of decent people in this matter which its importance demands. We all mine our words too much when talking to our children on these subjects; mothers do not take their daughters as much into their confidence as they should, which is one of the reasons why the warnings, signals and lights hung out by others are not heeded as they deserve to be considered. One thing is very certain, namely, that there is too much wreck of character in young women, too much debasement of girls, and the time has come to check it, as well as to grapple with beasts who prowl in all directions for victims. Let the word go forth to the libertine to halt.

—Mr. Walter Butts gave a dinner last Sunday at his home on North Allegheny St. in honor of the prominent ward politicians; C. F. Richards, Hardman P. Harris, H. E. Fenlon and E. C. Kittell. The dinner was most elaborate and exceedingly enjoyable.

—On Monday evening a most enjoyable elocutionary contest will be given in the Temperance rooms in Criders Exchange. This will be the third of the Demorest silver medal series and as it will be as instructive and entertaining as the preceding ones, we would advise every one to go and especially the prominent church officials, who were so instrumental in securing and granting of the licenses that were scattered wholesale throughout the county this week.

LIQUOR LICENSES GRANTED.—All week there has been a scene of unusual activity about the Court House, due to the interest taken in the License court proceedings. On Tuesday the forty-five applicants appeared, with their attorneys, and endeavored to convince the court that their application was an absolute necessity in the community they represented. A few remonstrances were filed and the court announced that it would consider the cases and announce its decision just as soon as possible. On Wednesday evening it had disposed of them all and filed the successful names with the Prothonotary. They are as follows:

Bellefonte—John Anderson, Wholesale Beer " John M. Neuhauer, Tavern " A. S. and C. M. Garman, " " W. L. Daggett, " " " " Gottlieb Haag, " " Philipsburg—George Diem, Wholesale Beer, " L. T. The above applications were granted by the court, or all three judges on the bench were in favor of them. The following were granted by a majority: Judges Riley and Faulkner having passed over the head of President Judge Furst.

Philipsburg—Orin Vail, Wholesale Liquor " H. W. Backingham, Tavern Port Matilda—G. J. Woodring, " Bellefonte—Henry C. Yeager, " Millheim—Willis Weaver, " Clarence—George Uzzle, "

HICKS SAYS IT WILL BE THIS WAY.

—Weather prophet Hicks predicts one of the most dangerous storms of the season for the 10th, 11th, 12th and 13th of the month. He says: "This period is at the electric crisis of the earth's vernal equinox. It is a regular storm period, intensified by the equinoxes of Mars, earth and the moon's last quarter on the 10th. A very warm wave, attended by heavy clouds and lightning and thunder, will appear with heavy rain in southern sections, turning to violent blizzards and snow blockades in northern regions. Wherever the disturbances are ushered in with warm, sultry weather, south winds and electric display, it will be prudent to watch the cyclonic movements, which, should they appear, will break into tornadoes along the south side of the low barometer."

—Have you seen E. Brown Jr's. stock of wall paper.
