

Democratic Watchman

ellefonte, Pa., March 17, 1893.

Astrology for March.

Raphael, the London astrologer, forecasts March as follows: The new moon occurs between 4 and 5 on the morning of the 18th inst. when the beginning of Aquarius will arise, and Sagittary will culminate, Venus and the Luminaries will be in the first house, Mercury and Jupiter in the second, Mars in the third, Saturn in the eighth and Uranus on the cusp of the ninth. The latter position is not favorable for navigation, for it denotes serious and fatal collisions, and Mars in the third will cause railway accidents of an alarming and fatal nature, and an unfavorable month generally for travelers. The weather will be severe and inclement, cold and wet, and vegetation will be backward and delayed. Death will lay its hand upon those high in the land, and more than one noble family will have cause for tears and sorrow. Much excitement will occur in Government circles, and angry complaints, and royalty will suffer. Bank failures will occur and trade and commerce will increase but little. There will be a marriage of note and celebrity. The position of Mars denotes an unsettled state of the earth's magnetism, hence storms, floods and shocks of earthquake will occur. Let those who work underground beware toward the end of the month, as serious disturbances are denoted. The retrogradation of Saturn in the sign Libra will cause strikes and many troubles in this land, and in Austria and China bloodshed and crime will be very frequent. Mars in Taurus will excite the Irish to all kinds of mad actions and a further tightening of the strings of the law will be found necessary. On the 28th he enters Gemini, hence London and the West of England will soon experience trouble. Zudkiel gives the following summary of coming events as the "voice of the stars of the month": Jupiter progresses steadily through the sign Aries, bringing beneficial measures of reform and increase of prestige for Old England, Ireland Poland and Persia are still troubled by the passage of Mars through their ruling sign Taurus. Austria and China suffer under the incubus of Saturn retrograding in the first decade of Libra, tumult and financial losses, being experienced by those countries. Japan will have again a recrudescence of earthquakes, chiefly on or about the 12th and 29th instants. The south of Europe will suffer from shocks of earthquake on or about the 21, and Germany will be shaken about the 15th and 29th instants. In the United States, probably in the vicinity of Charleston, the 15th and 29th instants will be signaled by some smart shocks. The new moon of the instant has Mars in the third house, which is unfavorable for the railways; during the latter end of this month there will be depressions of railroad stock, and it is to be feared, some collisions. Mortality of aged persons will rule high. Let all whose birthday anniversaries fall on or about the 15th or 29th pay scrupulous attention to health this spring and avoid changes of all kinds. At the vernal ingress of Mars is in the twelfth house, thus presignifying the renewal of Anarchist violence on the Continent, and of murderous outrages in Ireland. The Duke of Cambridge has an unfortunate birthday anniversary, and is warned to safeguard his health this spring. The King of Portugal is under a cloud just now, for Saturn hovers about the places of the Sun and Mars, at his birth; let him beware of conspirators. The only fortunate birthdays this month are the 31, 17th and 20th; except for those persons who had the moon in the tenth degree of either Libra or Scorpio at their birth for they will suffer in health or purse.

Men Fifteen Inches High.

A French statistician, who has been studying the military and other records with a view of determining the height of men at different periods, has reached some wonderful results. He has not only solved some perplexing problems in regard to the past of the human race, but is also enabled to calculate its future and determine the exact period when man will disappear from the earth. The recorded facts extend over nearly three centuries. It is found that in 1610 the average height of man in Europe was 1.75 meters, or say 5 feet 9 inches. In 1700 it was 5 feet 5 inches and a fraction. At the present time it was 5 feet 3 3/4 inches. It is easy to deduce from these figures a rate of regular and gradual decline in human stature, and then apply this, working backward and forward to the past and to the future. By this calculation it is determined that the stature of the first man attained the surprising average of 16 feet 9 inches. Truly, there were giants on the earth in those days. The race had already deteriorated in the days of Og, and Goliah was a quite degenerate offspring of the giants. Coming down to later time, we find that at the beginning of our era the average height of man was nine feet, and in the time of Charlemagne it was eight feet nine inches. But the most astonishing result of this scientific study comes from the application of the same inexorable law of diminution to the future. The calculation shows that by the year 4000 A. D. the stature of the average man will be reduced to fifteen inches. At that epoch there will be only Lilliputians on the earth. And the conclusion of the learned statistician is irresistible that "the end of the world will certainly arrive for the inhabitants will have become so small that they will finally disappear."—"French by disappearing," as the French idiom expresses it.

Doubly Won.

Up in one of the northern countries of Maryland a German magistrate, noted more for his sympathetic and impetuous rather than just decision, was once bearing a case. The plaintiff's lawyer was making his most serious charges, when before he had yet closed, the magistrate arose pompously and waving his hand, said: "Dot's enough! You must get der case, too!"—"Detroit Free Press.

Business and Sympathy.

A Bright printer's clerk, who was instructed to write a letter of condolence to a friend, who had recently died, did it in this way: "We were greatly pained to learn of the loss sustained by your house, and extend to you our heartiest sympathy. We notice that the circular you send us announcing Mr. —'s death was photographed in the provinces. We regret that you did not see your way clear to let us estimate for the work. The next time there is a bereavement in your house we shall be glad to quote prices for your printing, and are confident that we can give you better work at less cost than anybody else in the business. Hoping soon to hear from you, we remain with profound sympathy, yours truly."

About Planting Trees.

When Arbor Day again recurs there ought to be an effort on the part of the people not only to plant more trees, but to take proper care of them after they are put in the ground, says the Bethlehem Times. There is scientific weight in a bungling way to plant trees, so that if they are not placed in the earth according to careful ways of doing such work they are lost as growths either to produce fruit or furnish shade. In addition to this care must be taken to select trees for growth which will grow in dimensions to beautify localities where they are put in the ground. With a thing like good judgment, practical knowledge of trees and how to arrange them in proper ways for adornment, streets can be made the most delightful promenades. Arbor Day will be an occasion when much of the work necessary to attain this condition can be done.

A LEADER.—Since its first introduction, Electric Bitters has gained rapidly in popular favor, until now it is clearly in the lead among pure medicinal tonics and alteratives—containing nothing which permits its use as a beverage or intoxicant, it is recognized as the best and purest medicine for all ailments of Stomach, Liver or Kidneys.—It will cure Sick Headache, Indigestion, Constipation, and drive Malaria from the system. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 20c. per bottle. Sold by C. M. Parrish.

Lady Henry Somerset declares that not even John Gough or Dwight L. Moody was received in England with greater enthusiasm than has been Miss Frances E. Willard, President of the Women's Christian Temperance Union of the United States.

"I have used Ayer's Hair Vigor for a number of years, and it has always given me satisfaction. It is an excellent dressing, prevents the hair from turning gray, insures its vigorous growth, and keeps the scalp white and clean."—Mary A. Jackson, Salem, Mass.

Terrapin cost \$90 a dozen.

A CURE FOR CONSTIPATION AND HEADACHE.—Dr. Silas Lane, while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache. For the blood, liver and kidneys, and for clearing up the complexion, it does wonders. Druggists sell it at 50c. a package—enough for five weeks.

—A women's most eloquent speech is—"I love you! A man's is—come and take something, boys!"

—Mr. James Lambert, of New Brunswick, Illinois, says: "I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right to-day and would urge on every one who is afflicted with that terrible disease, to use Chamberlain's Pain Balm and get well at once." For sale by Frank P. Green.

—The new union station at St. Louis will cover 32 trains and cost \$5,500,000.

—The children's health must not be neglected. Cold in the head causes catarrh. Ely's Cream Balm cures at once. It is perfectly safe and is easily applied to the nostrils. The worst cases yielding to it. Price 50c.

—Wife—Drunk, as usual, John. John—No, m' dear; drunker'n usual.

—No flowery rhetoric can tell the merit of Hood's Sarsaparilla as well as the cures accomplished by this excellent medicine.

—New York City has fewer alleys than any other city in the world.

—The Egyptians kneaded their bread with their feet.

Tourists.

Look Out For Cold Weather. But ride inside of the Electric Lighted and Steam Heated Vestibule Apartment trains of the Chicago, Milwaukee & St. Paul Railway and you will be as warm, comfortable and cheerful as in your own library or boudoir. To travel between Chicago, Omaha and Sioux City, in these luxuriously appointed trains, is a supreme satisfaction; and, as the somewhat ancient advertisement used to read, "for further particulars, see small bills." Small bills (and large ones, too) will be accepted for passage and sleeping car tickets. For detailed information address John B. Post, District Passenger Agent, Williamsport, Pa.

Wanted.

Flouring Mills at Reynolds. N. D. (\$2,000 bonus); and Minn., Minn. (Free site and half of stock will be taken). For rent. Jewellery Stores at Buxton and Neche, N. D. Banks at Ashby, Minn., and Williston N. D. Hotels at Wahpeton and Grafton, N. D. (Stock will be taken); Crystal, N. D. and Waverly, Minn. (Bonuses offered or stock taken).

General Stores, Creameries, Harness Shops, Drug Stores, Shoe Shops, Linen Yards, Tailor Shops, Hardware Stores, Banks, Carpenter Shops, Saw Mills, Soap Factories, Blacksmith Shops, Meat Markets, Bakeries, Barber Shops, Wagon Shops, Furniture Factories, Machine Shops, etc. needed and solicited by citizens in new and growing towns in Minnesota, the Dakotas and Montana. Free sites water power for factories at various places. No charges for information which may lead to the securing of locations by interested parties. Farmers and stock-raisers wanted to occupy the best and cheapest vacant farming and grazing lands in America. Instances are common every year in the Red River Valley and other localities where land costing \$10, an acre produces \$20 to \$30 worth of grain. Fine sheep, cattle and horse country in America. Millions of acres of Government Land still to be homesteaded convenient to the railway. Information and publications sent free by F. I. Whitney, St. Paul, Minn. 36-32

Abraham Lincoln.

When leaving his home at Springfield, Ill., to be inaugurated President of the United States, made a farewell address to his old friends and neighbors, in which he said "neighbors give your boys a chance." The words come with as much force to-day as they did thirty years ago. How give them this chance? Up in the northwest is a great empire waiting to be formed and steadily followed to come and develop it and "grow up with the country." All over this broad land are the young fellows, the boys that Lincoln referred to, seeking to better their condition and get on in life. Here is the chance! The country referred to lies along the Northern Pacific R. R. Here you can find pretty much anything you want. In Minnesota, and in the Red River Valley of North Dakota, the finest of prairie lands fitted for wheat and grain, or as well for diversified farming. In Western North Dakota, and Montana, are stock ranges limitless in extent, clothed with the most nutritious of grasses. If fruit farming region is wanted there is the whole state of Washington to select from. As for scenic delights the Northern Pacific Railroad passes through a country unparalleled in crossing the Rocky, Bitter Root and Cascade mountains, the greatest mountain scenery to be seen in the United States from car windows is found. The wonderful Bad Lands, wonderful in graceful form and glowing color, are a poem. Lake Pend Oreille and Coeur d'Alene, are alone worthy of a trans-continental trip, while they are the fishermen's Ultima Thule. The ride along Clark's Fork of the Columbia River is a daylight dream. To cap the climax this is the only way to reach the far famed Yellowstone Park. To reach and see all this the Northern Pacific Railroad furnishes trains and service of unsurpassed excellence. The most approved and comfortable Palace Sleeping cars; the best Dining cars that can be made; Pullman Tourist cars good for both first and second class passengers; easy riding Day coaches, with Baggage Express, and Postal cars, are drawn by powerful Baldwin Locomotives makes a train fit for royalty itself. Those seeking for new homes should take this train and go and spy out the land ahead. To be prepared write to CHAS. S. FEE, G. P. & T. A. St. Paul, Minn.

Tourists.

Are You Going West. Of Chicago? To points in Illinois, Iowa, Missouri, Minnesota, Wisconsin, Northern Michigan, South or North Dakota, Colorado, California, Oregon or Washington. To any point West, North West or South West. Send for a new map of the Chicago, Milwaukee & St. Paul Railway system which is geographically correct. It, with an appendix giving valuable information will be mailed free. Call on address: John B. Post, District Passenger Agent, Williamsport, Pa.

Sixty Million Bushel of Wheat—A Bushel for Every Inhabitant of the United States. The Kansas Crop of '92. Never in the history of Kansas has that state had such bountiful crops as this year. The farmers cannot get enough hands to harvest the crop, and the Santa Fe Railroad has made special rates from Kansas City and other Missouri River towns, to induce harvest hands to go into the state. The wheat crop of the state will be sixty to sixty-five million bushels and the quality is high. The grass crop is made, and is a very large one; the early potatoes, rye, barley and oat crops are made, and all large. The weather has been propitious for corn, and it is the cleanest, best looking corn to be found in the country to-day. Cheap rates will be made from Chicago, St. Louis and all points on the Santa Fe east of the Missouri River, to all Kansas points, on August 30 and September 27, and these excursions will give a chance for eastern farmers to see what the great Sunflower State can do. A good map of Kansas will be mailed free upon application to John J. Byrne, 723 Madison Block, Chicago, Ill., together with reliable statistics and information about Kansas lands. 38 4 3m
